Contemporary Spiritualities Clive Erricker,Jane Erricker,2001-08-01 Spirituality can be understood within both a religious and secular context Fuelled by the controversy that surrounds different understandings of human identity and notions of progress knowledge and truth in modernist and postmodernist contexts the concept of spirituality is a hotly contested topic of debate as to its relevance within contemporary culture and its meaning within religious traditions This book aims to inform readers on this debate and contextualize it within these different frames of reference It approaches the topic of spirituality with an identification of the major influences on contemporary thinking and presents a coherent framework of understanding that links divergent thinking into a common goal Writings range across different thinkers and practitioners within established religious tradition contemporary movements and those who operate within psychological and secular understandings Focusing on the question what does it mean to be human this engaging study attempts to overcome the divide between secular and religious understandings of spirituality *Forest Recollections* Tiyavanich Kamala,1997-03-01 I stayed in the forest for two nights The first night nothing happened The second night at about one or

two in the morning a tiger came which meant that I didn't get any sleep the whole night I sat in meditation scared stiff while the tiger walked around and around my umbrella tent klot My body felt all frozen and numb I started chanting and the words came out like running water All the old chants I had forgotten now came back to me thanks both to my fear and to my ability to keep my mind under control I sat like this from 2 until 5 a.m. when the tiger finally left A forest monk During the first half of this century the forests of Thailand were home to wandering ascetic monks They were Buddhists but their brand of Buddhism did not copy the practices described in ancient doctrinal texts Their Buddhism found expression in living day to day in the forest and in contending with the mental and physical challenges of hunger pain fear and desire Combining interviews and biographies with an exhaustive knowledge of archival materials and a wide reading of ephemeral popular literature Kamala Tiyavanich documents the monastic lives of three generations of forest dwelling ascetics and challenges the stereotype of state centric Thai Buddhism Although the tradition of wandering forest ascetics has disappeared a victim of Thailand's relentless modernization and rampant deforestation the lives of the monks presented here are a testament to the rich diversity of regional Buddhist traditions The study of these monastic lineages and practices enriches our understanding of Buddhism in Thailand and elsewhere

range of sentient being the book then focus on the intimate life humans have with plants Texts devoted to botany medicine law art literature and religion for example depict human conversation with trees humans marrying trees and humans delineating their responsibilities for the well being of plants in the greatest detail Most difficult is the problem of eating and in that ahimsa or non violence towards plants would be the ideal in the extreme vegetarianism shows up the compromise that is made once plants are brought into the sentient realm Finally the author explores the founding premises of several current environmental leaders and movements in India that focus on plants e g tree protection tree planting seed saving biodiversity to examine whether contemporary plant oriented ecological activism in India reflects older traditional ideas about plants Asking whether new Hindu Jain or Buddhist movements reflect respective older ideas the author finds that contemporary Indian practices remain on the whole authentic reflections of their older roots
