Seeking Identity:

Seeking Identity Raymond A. Belliotti, 1995 Outlining the unwritten but deeply ingrained system of moral codes that Italian immigrants brought to America Belliotti examines that system in relation to moral theorists who argue we owe the most to people close to us and those who contend we must attach no special weight to our own interests when determining proper moral action He also investigates philosophical historical sociological and political aspects of government authority examines conflicting images of Italian immigrant women and analyzes war and pacifism *Seeking Identity* Nancy Mae Antrim, 2021-03-04 *Seeking Identity* Language in Society looks at how we define and create identity both as individuals and as a society through language Our language choices reflect not only how we view ourselves but how we are viewed by society An individual's identity is reflected in various language construed identities ethnicity gender and cross cultural counter cultural In turn these identities are projected by society on the individual ethnic group by the language choices society makes in describing and addressing these individuals In the first section Language and Identity an ethnolinguistic approach is used to address the areas of language identity loyalty gender and ethnic pride Section two Language and Advertising looks at how society in turn uses language to relate to different groups by appealing to ethnic pride language identity and the power prestige that using a particular language variety entails Section three Language and the Media explores how the media contributes to our construction of identity Section four Language and Discourse shows how written discourse can appropriate construct and parody identity Finding Identity Through Directing Soseh Yekanian, 2020-05-10 *Finding Identity through Directing* is a practice led autoethnographical monograph that provides an in depth exploration into the field of theatre directing and an individual's endless creative pursuit for belonging The book specifically examines how a culturally displaced individual may find a sense of identity through their directing and addresses the internal struggles of belonging acceptance and Self that are often experienced by those who have confronted cultural unhoming The first half of the story scrutinises Dr Yekanian's own identity as an Iranian born Armenian Australian and how she struggled with belonging growing up in a world that for the most part was unaccepting of her differences The second half looks at how theatre directing aided her re-discovery of Self While evidence shows that within the past decade there has been a growing interest in the vocation of theatre directing embarking on a career within this field while exciting can often be a daunting and experimental vocation *Finding Identity through Directing* questions this conundrum and specifically asks in a competitive artistic profession that is rapidly developing what attracts an individual to the authoritative role of the director and what are the underlying motivations of this attraction By uncovering that there is more to the role of the director than the mere finality of a production we can observe that the theatre is a promising setting for cultural exchanges in dialogue and for personal development Theatre directing as the vehicle for these expansions and progressions of self can potentially address the internal struggles of identity often experienced by those who in some form have encountered cultural displacement

"*Seeking an Identity*" Sabine Pahlke-Grygier, 2001 *Seeking Identities* Parul Kapoor, 2024-08-28 To seek is to fall To seek is to heal To seek is to grow To seek is to love To seek is to learn Seeking Identities is a debut collection of poems by Parul Kapoor that delves deep into the multifaceted layers of one's inner selves revealing the myriad identities that lie dormant within us As we embark on this journey of unearthing and unlayering we encounter moments of profound transformation where we may experience both the pain of being scarred and shattered as well as the joys of healing that lead to our ultimate metamorphosis It's a book to be embraced not adorned it's an emotion to be felt not read Identity Management Elisa Bertino, Kenji Takahashi, 2010 Digital identity can be defined as the digital representation of the information known about a specific individual or organization Digital identity management technology is an essential function in customizing and enhancing the network user experience protecting privacy underpinning accountability in transactions and interactions and complying with regulatory controls This practical resource offers you a in depth understanding of how to design deploy and assess identity management solutions It provides a comprehensive overview of current trends and future directions in identity management including best practices the standardization landscape and the latest research finding Additionally you get a clear explanation of fundamental notions and techniques that cover the entire identity lifecycle

Fighting Identity Michael Vlahos, 2008-12-30 This work highlights a national ethos infused by a sacred narrative of divine mission This deep association leads to a narrow approach to conflict relationships built around an Us vs Them distance from the enemy in which their submission is achieved through kinetic effects and their subsequent redemption through our good works reconstruction Vlahos contends that America's difficult engagement in the Muslim world demonstrates urgently that different operational approaches and tactics like counterinsurgency are not enough Alternative paradigms of strategic engagement are needed but their very consideration requires deeper cultural rethinking about how we assess world change and other cultures and how our national ethos makes war Why are terrorists and insurgents we fight so formidable Their strength and our vulnerability is in identity Clausewitz knew that *geist* spirit was always stronger than the material identity is power in war But how can non state actors face up to nation states The answer is in globalization This is the West's 3rd globalization Two centuries of intense mixing has torn down old ways of life and created a growing demand for new belonging There is also a decline in US universalism America's vision as history's anointed prophet and manager is now competing head to head with renewed universal visions Like Late Antiquity and the High Middle Ages our globalization begins to subside We may be in the later days of American modernity We can see this worldwide as emerging local communities within states and meta movements find their voice through conflict and war Identities struggling for realization are always the most powerful Add the diffusion of new technology and new practice and even the poorest and seemingly most primitive group can now make war against those on high They are successful because of a symbiotic fit between old states and new identities Increasingly old societies no longer find identity celebration in war while non state identities embrace the

struggle for realization Hence non state wars with America become a mythic narrative for them Our engagement actually helps them realize identity and we become the midwife This book offers another path to deal with non state challenges one that does not further weaken us

Identity Gerald Izenberg,2019-03-08 Identity The Necessity of a Modern Idea is the first comprehensive history of identity as the answer to the question who or what am I It covers the century from the end of World War I when identity in this sense first became an issue for writers and philosophers to 2010 when European political leaders declared

multiculturalism a failure just as Canada which pioneered it was hailing its success Along the way the book examines Erik Erikson's concepts of psychological identity and identity crisis which made the word famous the turn to collective identity and the rise of identity politics in Europe and America varieties and theories of group identity debates over accommodating collective identities within liberal democracy the relationship between individual and group identity the postmodern critique of identity as a concept and the ways it nonetheless transformed the social sciences and altered our ideas of ethics At the same time the book is an argument for the validity and indispensability of identity properly understood Identity was not a concept before the twentieth century because it was taken for granted The slaughter of World War I undermined the honored identities of prewar Europe and as a result the idea of identity as something objective and stable was thrown into question at the same time that people began to sense that it was psychologically and socially necessary We can't be at home in our bodies act effectively in the world or interact comfortably with others without a stable sense of who we are Gerald Izenberg argues that while it is a mistake to believe that our identities are givens that we passively discover about ourselves decreed by God destiny or nature our most important identities have an objective foundation in our existential situation as bodies social beings and creatures who aspire to meaning and transcendence as well as in the legitimacy of our historical particularity

Against Identity Alexander Douglas, 2025-06-19 A

philosopher explains why the search for identity is meaningless and how we should escape the self Modern life encourages us to pursue the perfect identity Whether we aspire to become the best lawyer or charity worker life partner or celebrity influencer we emulate exemplars that exist in the world hoping it will bring us happiness But this often leads to a complex game of envy and pride We achieve these identities but want others to imitate us We disagree with those whose identities contradict ours leading to polarisation and even violence And yet when they thump against us we are ashamed to ring hollow In *Against Identity* philosopher Alexander Douglas seeks an alternative wisdom Searching the work of three thinkers ancient Chinese philosopher Zhuangzi Dutch Enlightenment thinker Benedict de Spinoza and 20th Century French theorist Ren Girard he explores how identity can be a spiritual violence that leads us away from truth Through their worlds and radically different cultures we discover how at moments of historical rupture our hunger for being grows and yet it is exactly these times when we should make peace with our indeterminacy and discover the freedom of escaping our selves
