Seinte Marherete:

Early English Devotional Prose and the Female Audience Elizabeth Ann Robertson, 1990 After the Norman conquest women and the lower classes became the primary audiences for English as opposed to Latin or French literature Among the works written for female audiences are the hitherto neglected AB texts three female saints lives a tract on virginity a homily and a guide for anchoresses In this lucid innovative study Elizabeth Robertson shows that the AB texts were written in an effective experiential style that distinguished them from other spiritual works of the period Key characteristics of this special style nonteleological structure pervasive use of concrete imagery and thematic focus on the female body have been viewed by some as hallmarks of women's writing more generally Combining feminist theory with critical skill and an impressive command of Old and Middle English materials the author argues to the contrary that in the thirteenth century England this style was created by educated male writers in accord with their beliefs about nature and needs of marginal social groups Beginning with the history and motivations of female anchorites and surveying medieval philosophy and theology in relation to gender theory this book offers the first comprehensive analysis of the AB texts and then details their debt to earlier English vernacular works and to the continental theological movements that increasingly emphasized physical experience and matter The result is an exciting learned account of the feminization of early English prose Menacing Virgins Kathleen Coyne Kelly, Marina Leslie, 1999-05 The essays in *Menacing Virgins* Representing Virginity in the Middle Ages and the Renaissance examine the nexus of religious political economic and aesthetic values that produce the Western European myth of virginity and explore how those complex cultural forces animate empower discipline disclose mystify and menace the virginal body As the title suggests the virgin can be seen alternately or even simultaneously as menaced or menacing To chart the history of virginity as a steady evolutionary progression from a religious ideal in the Middle Ages toward a more secularized or sovereign ideal in the Renaissance would obscure how unstable a concept chastity is in both periods What this collection demonstrates is that medieval and early modern attitudes toward virginity are not general and evolutionary but specific changeable and often conflicted **A Companion to Middle English Prose** Anthony Stockwell Garfield Edwards, 2004 The essays in this volume provide an up to date and authoritative guide to the major prose Middle English authors and genres Each chapter is written by a leading authority on the subject and offers a succinct account of all relevant literary history and cultural factors that need to be considered together with bibliographical references Authors examined include the writers of the *Ancrene Wisse* the Katherine Group and the *Wohunge* Group Richard Rolle Walter Hilton Nicholas Love Julian of Norwich Margery Kempe Sir John Mandeville John Trevisa Reginald Pecock and John Fortescue Genres discussed include romances saints lives letters sermon literature historical prose anonymous devotional writings Wycliffite prose and various forms of technical writing The final chapter examines the treatment of Middle English prose in the first age of print Contributors BELLA MILLETT RALPH HANNA III AD PUTTER KANTIK GHOSH BARRY A WINDEATT A C SPEARING

Balaam's Ass: Vernacular Theology Before the English Reformation Nicholas Watson, 2022-06-21 For over seven hundred years bodies of writing in vernacular languages served an indispensable role in the religious and intellectual culture of medieval Christian England yet the character and extent of their importance have been insufficiently recognized A longstanding identification of medieval western European Christianity with the Latin language and a lack of awareness about the sheer variety and quantity of vernacular religious writing from the English Middle Ages have hampered our understanding of the period exercising a tenacious hold on much scholarship Bringing together work across a range of disciplines including literary study Christian theology social history and the history of institutions Balaam's Ass attempts the first comprehensive overview of religious writing in early England's three most important vernacular languages Old English Insular French and Middle English between the ninth and sixteenth centuries Nicholas Watson argues not only that these texts comprise the oldest continuous tradition of European vernacular writing but that they are essential to our understanding of how Christianity shaped and informed the lives of individuals communities and polities in the Middle Ages This first of three volumes lays out the long post Reformation history of the false claim that the medieval Catholic Church was hostile to the vernacular It analyzes the complicated idea of the vernacular a medieval innovation instantiated in a huge body of surviving vernacular religious texts Finally it focuses on the first long generation of these writings in Old English and early Middle English

The Old English Lives of St. Margaret Mary Clayton, Hugh Magennis, 1994-09-15 An edition of two Old English versions of the colourful legend of St Margaret of Antioch

La vie de Sainte Marguerite Frederic Spencer, 1889

Women in Christianity in the Medieval Age Laura Kalas, Roberta Magnani, 2024-12-10 This volume offers a comprehensive introduction to and investigation of the multivocality of women's experience in the Middle Ages In medieval Europe women saw their role in the Christian Church and society progressively confined to conflicting models of femininity epitomised by the dichotomy of Eve Mary Classical views of gender predicated on misogynistic dichotomies which confined women to matter and the corruption of the flesh were consolidated in powerful male dominated clerical institutions and widely disseminated Towards the end of the Middle Ages however women's corporeality and somatic spirituality contributed to and influenced burgeoning modes of piety centred around the cult of the Virgin Mary and the veneration of the suffering body of Christ on the Cross This shift in devotional practices afforded women as bodily beings the space for an increased level of self expression self realisation and authority Ranging from philosophical and theological enquiry to education and art as well as medical sciences and popular beliefs the essays in this collection account for the complexities and richness of the conceptualisations and lived experiences of medieval Christian women The book will be especially relevant to students and scholars of religion and history with an interest in medieval studies and gender Whilst expounding the key strands of thinking

in the field it engages with and contributes to some of the latest scholarly research *The Katherine Group (MS Bodley 34)* ,2016-10-10 The Katherine Group brings together for the first time newly edited and translated versions of three dynamic saints lives The Lives of Saints Katherine Margaret and Juliana a quirky but rhetorically persuasive guide to virginity Hali Meidenhad and a psychologically astute sermon Sawles Warde The Guardianship of the Soul These works are important witnesses to the development of Middle English writing after the Conquest and to the rigorous anchoritic spiritual life pursued by female recluses in medieval England Margaret's Monsters Michael E. Heyes,2019-12-06 St Margaret of Antioch was one of the most popular saints in medieval England and throughout the Middle Ages the various Lives of St Margaret functioned as a blueprint for a virginal life and supernatural assistance to pregnant women during the dangerous process of labor In her narrative Margaret is accosted by various demons and having defeated each monster in turn she is taken to the place of her martyrdom where she prays for supernatural boons for her adherents This book argues that Margaret s monsters are a key element in understanding Margaret s importance to her adherents specifically how the sexual identities of her adherents were constructed and maintained More broadly this study offers three major contributions to the field of medieval studies first it argues for the utility of a diachronic analysis of Saints Lives literature in a field dominated by synchronic analyses second this diachronic analysis is important to interpreting the intertext of Saints Lives not only between different Lives but also different versions of the same Life and third the approach further suggests that the most valuable socio cultural information in hagiographic literature is found in the auxiliary characters and not in the figure of the saint him herself **Women, Religion and Leadership** Barbara Denison,2017-07-28 Women Religion and Leadership focuses on women from the traditional context of women as leaders with chapters observing various aspects of leadership from specifically chosen religious female leaders and going on to examine the legacies they leave behind This book seeks to identify and analyse the gendered issues underlying the structural lack of recognition for women within the church and to examine the culturally constructed narratives related to these women for evidence of their leadership despite the exclusionary rules applied to force their submission to the dominating forces Finally this book intends to draw out of these women s stories the various lessons of leadership that invoke current relevancies among prevailing leadership paradigms Written by experts from disciplines as varied as leadership and communication studies to sociology and history to medievalist and English scholars Women Religion and Leadership will prove key reading for scholars academics and researchers in these and related disciplines **Intersections of Sexuality and the Divine in Medieval Culture** Susannah Chewning,2017-03-02 As distinct from the many recent collections and studies of medieval literature and culture that have focused on gender and sexuality as their major themes this collection considers and serves to re think and re situate religion and sexuality together Including traditional works such as Chaucer and the Pearl poet as well as less well known and studied texts such as alchemical texts and the Wohunge group the contributors here focus on the meeting point of these two often

examined concepts They seek an understanding of where sex and religion distinguish themselves from one another and where they do not This volume locates the Divine and the Erotic within the continuum of experience and devotion that characterize the paradox of the medieval world Not merely original in their approaches these authors seek a new vision of how these two inter connected themes sexuality and the Divine meet connect distinguish themselves and merge within medieval life language and literature

Female Devotion and Textile Imagery in Medieval English Literature Anna McKay, 2024 Uncovers the female voices lived experiences and spiritual insights encoded by the imagery of textiles in the Middle Ages For millennia women have spoken and read through cloth The literature and art of the Middle Ages are replete with images of women working cloth wielding spindles distaffs and needles or sitting at their looms Yet they have been little explored Drawing upon the burgeoning field of medieval textile studies as well as contemporary theories of gender materiality and eco criticism this study illustrates how textiles provide a hermeneutical alternative to the patriarchally dominated written word It puts forward the argument that women s devotion during this period was a fabricated phenomenon a mode of spirituality and religious exegesis expressed devised and practised through cloth Centred on four icons of female devotion Eve Mary St Veronica and of course Christ the book explores a broad range of narratives from across the rich tapestry of medieval English literature from the fields of Piers Plowman to the late medieval Morte D Arthur the devotions of Margery Kempe to the visionary experiences of Julian of Norwich Gervase of Tilbury s fabulous Otia Imperialia to the anchoritic guidance literature of the Middle Ages and the innumerable and oft forgotten lives of Christ prayers legends and miracle tales in between

Virgin Martyrs Karen A. Winstead, 2018-05-31 Stories of the torture and execution of beautiful Christian women first appeared in late antiquity and proliferated during the early Middle Ages A thousand years later virgin martyrs were still the most popular female saints Their legends in countless retellings through the centuries preserved a standard plot the heroine resists a pagan suitor endures cruelties inflicted by her rejected lover or outraged family works miracles and dies for Christ That sequence was embellished by incidents emblematic of the specific saint Juliana s battle with the devil Barbara s immurement in the tower Katherine s encounter with spiked wheels Karen A Winstead examines this seemingly static story form and discovers subtle shifts in the representation of the virgin martyrs as their legends were adapted for changing audiences in late medieval England

Medieval Mobilities Basil Arnould Price, Jane Elizabeth Bonsall, Meagan Houry, 2023-01-01 This collection explores the intersection of gender and mobility across the Global Middle Ages Medieval Mobilities questions how medieval people texts images and ideas move across physiological geographical literary and spiritual boundaries In what ways do these movements afford new configurations of gender sexuality and being Enacting a dialogue between medieval studies feminist thought and queer theory Medieval Mobilities proposes that attending to the undulations of premodern gender and sexuality may help destabilize unstated assumptions about ways of being and loving in the Middle Ages This volume also brings together emergent and established

scholars to challenge an increasingly static academy and instead envision a scholarly practice focused on intergenerational international and interdisciplinary collaboration Drawing upon wide range of primary sources and theoretical frameworks the resultant essays unsettle the imagined fixity of gender and propose alternative conceptualizations of embodiment identity and difference in the medieval world

Versions of Virginity in Late Medieval England Sarah Salih, 2001 This study looks at the question of what it meant to be a virgin in the Middle Ages and the forms which female virginity took It begins with the assumptions that there is more to virginity than sexual inexperience and that virginity may be considered as a gendered identity
