Political Ethics and European Constitution Paulo Ferreira da Cunha, 2015-06-01 Is the dream of EU endangered This book reviews classic and modern values and virtues and uses them in order to rethink Europe s present politics and its future The idea of the Republic was born with the political ethics of ancient Greece The current international crisis obliges Europe to face the mirror of truth What has become of the European Idea and how fares the European Constitution It has been a long road from the Greek Politeia to the present lack of values and financial monomania in Europe who seems to have lost any harmony between the spirit the soul and the body of her Constitution the will and values of the people material constitution the text of the Lisbon Treaty formal constitution and its current political interpretation and action real constitution making Europe a two tier or three tier club far from the dream of the founding fathers Without republican values and virtues and failing to uphold the European social model the European Union would devolve into moral social and democratic bankruptcy

Circulation, Translation and Reception Across Borders Elio Baldi, Cecilia Schwartz, 2023-12-15 This volume offers a detailed analysis of selected cases in the reception translation and artistic reinterpretation of Italo Calvino s *Invisible Cities* 1972 around the world The book traces the many different ways in which Calvino s modern classic has been read translated and adapted in Brazil France the Netherlands and Flanders Mexico Romania Scandinavia the USSR China Poland Japan and Australia It also offers analyses of the relation between Calvino s book and respectively the East and Africa as well as reflections on the book s inspiration for and resonance in dance architecture and art The volume thus traces the diversity in the reception and circulation of *Invisible Cities* in different countries and continents offering a much wider framework for the discussion of Calvino s masterpiece than before and a more detailed picture of its cultural and linguistic ramifications This book will be of interest to scholars in Comparative Literature World Literature Translation Studies Italian Studies Romance Languages European Studies Dance Architecture and Media Studies as well as to scholars specialised in paratext and reception

During this study it became clear that men are exposed to a more complex type of death than mere physical death but just as important which is relative to their social representation This insight led to understanding other aspects that could be associated with men s intense involvement in situations of violence Could it be that in contemporary culture a purpose is served by keeping men involved with situations of violence If so what might that be

The Nature of Space Milton Santos,2021-07-21 In The Nature of Space pioneering Afro Brazilian geographer Milton Santos attends to globalization writ large and how local and global orders intersect in the construction of space Santos offers a theory of human space based on relationships between time and ontology He argues that when geographers consider the inseparability of time and space they can then transcend fragmented realities and partial truths without trying to theorize their way around them Based on these premises Santos examines the role of space which he defines as indissoluble systems of objects and systems of actions in social processes while providing a geographic contribution to the production of a critical social theory

Unfinished gesture Cecilia Almeida Salles,2019-01-08 The book presents a discussion about the process of artistic creation in the diversity of its manifestations visual arts literature theater cinema etc The proposed reflections are supported by research dedicated to the study of these creative paths from the documents left by the artists such as diaries notes sketches drafts mock ups projects scripts and contacts Dialogues were established between the observation of recurrent aspects in a great diversity of processes and the thought of Charles S Peirce generating a possible theory of creation First the Unfinished Gesture discusses the aesthetics of the creative movement from a semiotic perspective In this theoretical context creation is described as a fallible process with tendencies supported by the logic of uncertainty encompassing the intervention of chance and opening space for the introduction of new ideas A continuous course in which you can not determine either a starting point or an end point These uncertain and indeterminate tendencies direct the artist in his search for the construction of works that satisfy his great poetic project which is also strongly influenced by communicative issues The search of the artist finds its possible concreteness in complex processes of constructions of works In a second moment the creative path is focused from five points of view as transforming action translation movement knowledge process construction of artistic truths and experimentation course In the Epilogue are presented the concepts of Peircean semiotics which base the reflections on the artistic creation developed throughout the book The Unfinished Gesture aims to offer a critical approach to the arts from the point of view of its production processes

A teoria geral do imaginário 50 anos depois: conceitos, noções, metáforas Ana Taís Martins, Ao longo do s culo XX o imagin rio deixou de ser sin nimo de fantasia ou de ser associado loucura para ocupar um elugar epistemol gico e ontol gico espec fico na produ o de representa es e de sabers ao ponto de constituir sua pr pria heur stica Deve se isso ao trabalho de numerosos pensadores oriundos dos campos mais

diversos das Ciências Humanas e Sociais da filosofia psicanálise da antropologia literatura que desembocou na Teoria Geral do Imaginário lançada há quase 50 anos em Chambéry França sob forma do primeiro CRI Centro de Pesquisas sobre Imaginário. Desde então os estudos sobre o imaginário se tornaram mais diversificados e complexos através do mundo e através das disciplinas. Diversos movimentos epistemológicos reivindicaram conceitos mais flexíveis que se tornaram novos e se dispersaram em metáforas. Se por um lado as novas e as metáforas apresentam a vantagem de admitir mais de uma ideia por vez, como as ideias contraditórias, por outro lado elas podem levar à imprecisão ou equivalência generalizada dos termos, tornando vazio o trabalho do pensamento.

Em pauta Nizia Villaça, 1999 **Tempestade De Ideias** Luiz Penna, 2019-04-04

Tempestade de Ideias Um Mergulho nas Simbologias do Cotidiano, uma coletânea de setenta e quatro mini-ensaios. Em essência, o livro analisa os significados da existência e a nossa representatividade perante o cosmo, tendo como referência obras marcantes da nossa civilização com reflexões literárias e artísticas de mentes geniais que nos tocam profundamente com as suas criações. Filosofia, mitologia, artes, economia, tecnologia e políticas são os elementos básicos na elaboração deste livro, que se articula a desfragmentar atitudes formuladas como absolutas com uma narrativa que transita distante do lugar comum. Mais que um desmistificador de imagens, **Tempestade de Ideias** Um Mergulho nas Simbologias do Cotidiano produz uma elite do saber e sinaliza outras vias mais compromissadas com a originalidade de um pensamento crítico. O livro nos provoca a mexer nas estruturas do sistema, trazendo tona várias questões importantes, tão necessárias para compreendermos o quanto a vida se torna bizarra no instante que surgem imposições autoritárias que como um vírus maldito se alastra e anula a nossa humanidade. Quando isso acontece, perde-se a vibração e as pessoas se tornam seres menores, sem brilho, e caem no abismo profundo da ignorância, seja ela ideológica ou religiosa. Por isso, precisamos das artes e das ciências. Somente elas podem ampliar a nossa visão de mundo, extinguir a precariedade do absoluto dos falsos dogmas e principalmente a doença do preconceito e da insensatez.
