Long Slow Burn Sexing Up The Social Sciences:

Long Slow Burn Kath Weston, 2013-09-13 Kath Weston's powerful collection of essays *Long Slow Burn* challenges the preconception that queer studies is the brainchild of the humanities and argues that social science has been talking about sex all along To deny this one would have to overlook Kinsey's pioneering sex research in the 1950s or the psychiatrist Evelyn Hooker's pathbreaking study of homosexuality but also in the sex talk that lies at the heart of classic debates on kinship inequality cognition and other foundational topics in the social sciences What is different now Weston claims is the way sexuality has been isolated from other contemporary issues Not content with its ghettoization as a contained subfield Weston refuses to draw an artificial line around sexuality

Gender in Real Time Kath Weston, 2018-10-24 After decades of innovative scholarship that galvanized a field and shattered a world of preconceptions the study of gender now appears to languish It has been a long while since the publication of a provocative and influential text like Judith Butler's *Gender Trouble* Kath Weston argues that the problem is one of time For too long gender studies has been preoccupied with the visual with ample attention given to issues of performativity and embodiment all at the expense of time *Gender in Real Time* makes a provocative and important new argument that will revolutionize the field of gender studies Introducing temporality into the equation and examining the ways gender exists Weston uses the tools of political economy the history of mathematics Darwinian evolution and a bit of physics to propel gender studies toward the future Startling new concepts like zero gender and the meaning of time claims are introduced Moreover the impact of our time sensitive society with its ever increasing need for speed and accelerated development is explored for its effect on the production of gender With chapter titles including *Unsexed* *The Ghosts of Gender Past* and *The Global Economy Next Time* this book offers a pioneering addition to the field that will forever change our notion of gender

Baym, 2008-07-17 This collection of dialogues is the only textbook of its kind *Internet Inquiry Conversations About Method* takes students into the minds of top internet researchers as they discuss how they have worked through critical challenges as they research online social environments Editors Annette N Markham and Nancy K Baym illustrate that good research choices are not random but are deliberate studied and internally consistent Rather than providing single how to answers this book presents distinctive and divergent viewpoints on how to think about and conduct qualitative internet studies Key Features and Benefits Presents each chapter in the form of a question in order to provoke

explicit consideration of key issues Illustrates choices made within larger disciplinary contexts to help students blend approaches think broadly and conduct internet research with the benefit of multiplicity Offers a range of perspectives in each chapter to vividly demonstrate that there are many ways to answer methodological challenges well Includes contributors from multiple disciplines and across the globe Provides a highly reflexive writing style that allows readers to see processes that are rarely visible in finished research reports Intended Audience This edited volume is an excellent supplementary text for a variety of advanced undergraduate and graduate courses such as Internet Research Research Methods Qualitative Research Methods and Computer Mediated Communication in the departments of communication media studies sociology and anthropology It will assist new scholars as well as seasoned practitioners in this arena make informed choices in how they conduct inquiry

Anthropology in the City Italo Pardo,Giuliana B. Prato,2016-05-23 With half of humanity already living in towns and cities and that proportion expected to increase in the coming decades society both Western and non Western is fast becoming urban and even mega urban As such research in urban settings is evidently timely and of great importance Anthropology in the City brings together a leading team of anthropologists to address the complex methodological and theoretical challenges posed by field research in urban settings clearly identifying the significance of the anthropological paradigm in urban research and its centrality both to mainstream academic debates and to society more broadly With essays from experts on wide ranging ethnographic research from fields as diverse as China Europe India Latin and North America and South East Asia this book demonstrates the contribution that empirically based anthropological analysis can make to our understanding of our increasingly urban world *Lingua Franca* ,1999 **Choice** ,1999 **New Pandemics, Old Politics** Alex de Waal,2021-03-31 New Pandemics Old Politics explores how the modern world adopted a martial script to deal with epidemic disease threats and how this has failed repeatedly Europe first declared war on cholera in the 19th century It didn t defeat the disease but it served purposes of state and empire In 1918 influenza emerged from a real war and swept the world unchecked by either policy or medicine Forty years ago AIDS challenged the confidence of medical science AIDS is still with us but we have learned to live with it chiefly because of community activism and emancipatory politics Today public health experts and political leaders who failed to listen to them agree on one thing that we must fight Covid 19 There s a consensus that we should target individual pathogens and suppress them rather than address the reasons why our societies are so vulnerable Arguing that this consensus is mistaken Alex de Waal makes the case for a new democratic public health for the Anthropocene
