Crow as a democratization born of two metropolitan movements a well known one for civil rights and a lesser known one on behalf of the environment Arising out of Atlanta s Black and white middle classes respectively both movements owed much to New Deal capitalism s undermining of concentrated wealth and power if not racial segregation in the Jim Crow South Placing these two movements on the same historical page Christopher C Sellers spotlights those environmental inequities ideals and provocations that catalyzed their divergent political projects He then follows the intermittent sometimes vital alliances they struck as civil rights activists tackled poverty as a new environmental state arose and as Black politicians began winning elections Into the 1980s as a wealth concentrating style of capitalism returned to the city and Atlanta became a national poster child for sprawl the seedbeds spread both for a national environmental justice movement and for an influential new style of antistatism Sellers contends that this new conservatism sweeping the South with an antienvironmentalism and budding white nationalism that echoed the region s Jim Crow past once again challenged the democracy Atlantans had achieved
