A Look Within Heather Koelle, 2023-12-15 A nice read for a cold wintry night filled with unusual characters In this anthology of short stories you will encounter a man's greatest fear A mist which contains something evil You will read a scary experience as seen by a toddler and his grandmother A budding athlete who is the queen of basketball And a teenage girl who searches for the missing family dog in a snowstorm Take a Look Within Dane T. self in a logical space From an origin point inside this space the self tries out metaphors and launches categories to logically order what it wants sees and encounters This is a creative cognitive process metaphoric framing by which the self invents new forms and depicts new organizations of its experiences impressions and information It is also a generative linguistic process bracketing by which the self can step outside its own expressed thoughts gain new levels of awareness re position itself as an agent responsible for its ideas and statements and in short empower its own identity The framing sets in motion versatile mental categories forms that are projected into mental space where they become objectified The bracketing sets in motion the logical bounds of the I stabilizing the individual s identity and giving thrust to the subjective self s dynamic causal role In elaborating this theory Fisher extends the ideas of Kurt Lewin Jean Piaget and C S Peirce among others By drawing on each of these thinkers he is able to bring their common themes of perspective and construction together in his portrait of the self as a creative iconic space
