

A dark, atmospheric photograph of a person walking away from the viewer into a foggy or misty environment. A bright, warm light source, possibly a street lamp or a fire, is visible in the distance, casting a long, glowing orange and yellow path on the ground. The overall mood is mysterious and somber.

Sex, Death and Witchcraft Douglas Ezzy,2014-05-22 Faunalia is a controversial Pagan festival with a reputation for being wild and emotionally intense It lasts five days 80 people attend and the two main rituals run most of the night In the tantalisingly erotic Baphomet rite participants encounter a hermaphroditic deity enter a state of trance and dance naked around a bonfire In the Underworld rite participants role play their own death confronting grief and suffering These rituals are understood as shadow work a Jungian term that refers to practices that creatively engage repressed or hidden aspects of the self Sex Death and Witchcraft is a powerful application of relational theory to the study of religion and contemporary culture It analyses Faunalia s rituals in terms of recent innovations in the sociology of religion and religious studies that focus on relational etiquette lived religion embodiment and performance The sensuous and emotionally intense ritual performances at Faunalia

transform both moral orientations and self understandings Participants develop an ethical practice that is individualistic but also relational and aesthetically mediated Extensive extracts from interviews describe the rituals in participants own words The book combines rich and evocative description of the rituals with careful analysis of the social processes that shape people s experiences at this controversial Pagan festival
