ELLICKSON, Robert C Ellickson, 2009-06-30 In Order without Law Robert Ellickson shows that law is far less important than is generally thought He demonstrates that people largely govern themselves by means of informal

rules social norms that develop without the aid of a state or other central coordinator Integrating the latest scholarship in law economics sociology game theory and anthropology Ellickson investigates the uncharted world within which order is successfully achieved without law The springboard for Ellickson s theory of norms is his close investigation of a variety of disputes arising from the damage created by escaped cattle in Shasta County California In The Problem of Social Cost the most frequently cited article on law economist Ronald H Coase depicts farmers and ranchers as bargaining in the shadow of the law while resolving cattle trespass disputes Ellickson s field study of this problem refutes many of the behavioral assumptions that underlie Coase s vision and will add realism to future efforts to apply economic analysis to law Drawing examples from a wide variety of social contexts including whaling grounds photocopying centers and landlord tenant relations Ellickson explores the interaction between informal and legal rules and the usual domains in which these competing systems are employed Order without Law firmly grounds its analysis in real world events while building a broad theory of how people cooperate to mutual advantage

Paper Lantern Stuart Dybek, 2014-06-03 A new collection of short stories by a master of the form with a common focus on the turmoils of romantic love Ready Aim On command the firing squad aims at the man backed against a full length mirror The mirror once hung in a bedroom but now it s cracked and propped against a dumpster in an alley The condemned man has refused the customary last cigarette but accepted as a hood the black slip that was carelessly tossed over a corner of the mirror s frame The slip still smells faintly of a familiar fragrance So begins Tosca the first in this vivid collection of Stuart Dybek s love stories Operatically dramatic and intimately lyrical grittily urban and impressionistically natural the varied fictions in Paper Lantern all focus on the turmoil of love as only Dybek can portray it An execution triggers the recollection of a theatrical romance then a social worker falls for his own client and lovers part as giddily perhaps as hopelessly as a kid trying to hang on to a boisterous kite A flaming laboratory evokes a steamy midnight drive across terrain both familiar and strange and an eerily ringing phone becomes the telltale signature of a dark betrayal Each story is marked with contagious desire spontaneous revelation and ultimately resigned courage As one woman whispers when she sets a notebook filled with her sketches drifting out to sea Someone will find you Some of Dybek s characters recur in these stories while others appear only briefly Throughout they and we are confronted with vaguely familiar scents and images reminiscent of love but strangely disconcerting so that we might wonder whether we are looking in a mirror or down the barrel of a gun After the ragged discharge Dybek writes when the smoke has cleared who will be left standing and who will be shattered into shards Paper Lantern brims with the intoxicating elixirs known to every love struck lovelorn heart and it marks the magnificent return of one of America s most important fiction writers at the height of his powers *ERS.*
