Redfield, 1994 By focusing on the story of Hector James M Redfield presents an imaginative perspective not only on the Iliad but also on the whole of Homeric culture In an expansive discussion informed by a reinterpretation of Aristotle's Poetics and a reflection on the human meaning of narrative art the analysis of Hector leads to an inquiry into the fundamental features of Homeric culture and of culture generally in its relation to nature Through Hector as the true tragic hero of the poem the events and themes of the Iliad are understood and the function of tragedy within culture is examined Redfield's work represents a significant application of anthropological perspectives to Homeric poetry Originally published in 1975 University of Chicago Press this revised edition includes a new preface and concluding chapter by the author **The Iliad by Homer (Illustrated)** Homer, 2021-03-17 No library's complete without the classics Probably composed in the eighth century B C and based on an actual historical event of the thirteenth century B C Homer's Iliad is one of the great epics of the Western world The poem unfolds near the end of the ten year long Trojan War detailing the quarrel between the great warrior hero Achilles and King Agamemnon the battle between Paris and Menelaus for Helen of Troy the Greek assault on the city and the Trojan counterattacks the intervention of the gods on the part of their favorites and numerous other incidents and events Complete Original Unabridged Illustrated with book end doodles about reading [A Guide to The Iliad](#) James C.
