Hydrographic Office, 1917 **Workers of War and Empire from New France to British America,**

1688-1783 Richard H. Tomczak, 2025-02-11 During the eighteenth century the French and British empires mobilized thousands of workers in what is now Canada through a system of mandatory labour known as *corvée*. Rooted in the feudal obligations of peasants to their landlords, *corvée* was introduced by the French and later exploited by the British, becoming part of their arsenal during the American revolutionary wars. Richard Tomczak chronicles the transformation of the *corvée* system over a century. Under the French regime, *corvée* was mostly directed towards local public works projects such as building roads and bridges. After the conquest of Quebec, the system assumed greater scope. The British realized their need for labour in an underpopulated region and co-opted *corvée* for their imperial ends, requiring the male inhabitants of New France to work in state enterprises such as iron mining and logging and conscripting Canadians to support their military expeditions during the American Revolution. This surging demand for labour in the service of the state precipitated widespread protests in New France, forcing the governor to ratify a new provincial code regulating the use of *corvée*. Tomczak also sheds light on the rhythms of French Canadians' working lives, their understanding of *corvée* obligations, and the ways they expressed resistance when the system became burdensome. Exploring a lesser-known aspect of the labour arrangements that propped up the colonial state, *Workers of War and Empire: from New France to British America, 1688-1783* puts French Canadian workers front and centre in the history of early Canada. *No. 95 to 259. Abyssinia to Great Britain and France v. 3. No. 260 to 382. Great Britain and Germany to United States, appendix, and index to the three volumes* Sir Edward Hertslet, 1909

The Fall of Napoleon: Volume 1, The Allied Invasion of France, 1813-1814 Michael V. Leggiere, 2007-11-12 This book tells the story of the invasion of France at the twilight of Napoleon's empire. With more than a million men under arms throughout central Europe, Coalition forces poured over the Rhine River to invade France between late November 1813 and early January 1814. Three principal army groups drove across the great German landmark, smashing the exhausted French forces that attempted to defend the eastern frontier. In less than a month, French forces ingloriously retreated from the Rhine to the Marne. Allied forces were within one week of reaching Paris. This book provides the first complete English language study of the invasion of France along a front that extended from Holland to Switzerland.

The Literary Panorama, 1809

The Roman Remains of Northern and Eastern France James Stephen Bromwich, 2003 This book provides a thorough area-by-area companion to the region's wealth of monuments, excavations, and artefacts from Paris and Boulogne-sur-Mer to Strasbourg and Lyon. Over ninety sites are treated in detail, including major attractions such as the Parc Archéologique in Lyon and the amphitheatre at Autun, numerous local museums, and secluded rural excavations. The guidebook combines a scholarly assessment of the area's Roman heritage, examining and interpreting the surviving remains, with practical visitor information such as directions to sites and opening hours. Comprehensively illustrated with photographs, maps, and plans, it is a unique resource both for academic study and for visitors interested in the region's archaeological and historical background.
