On The Tracks:

The Tracks and Landfalls of Bering and Chirikof on the Northwest Coast of America George Davidson, 1901

On the Track Henry Lawson, 2025-08-15 Reproduction of the original The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage Blood on the Tracks Willson, S. Brian, 2011-08-01 We are not worth more they are not worth less This is the mantra of S Brian Willson and the theme that runs throughout his compelling psycho historical memoir Willson s story begins in small town rural America where he grew up as a Commie hating baseball loving Baptist moves through life changing experiences in Viet Nam Nicaragua and elsewhere and culminates with his commitment to a localized sustainable lifestyle In telling his story Willson provides numerous examples of the types of personal risk taking nonviolent actions he and others have taken in attempts to educate and effect political change tax refusal which requires simplification of one s lifestyle fasting done publicly in strategic political and or therapeutic spiritual contexts and obstruction tactics strategically placing one s body in the way of business as usual It was such actions that thrust Brian Willson into the public eye in the mid 80s first as a participant in a high profile water only Veterans Fast for Life against the Contra war being waged by his government in Nicaragua Then on a fateful day in September 1987 the world watched in horror as Willson was run over by a U S government munitions train during a nonviolent blocking action in which he expected to be removed from the tracks and arrested Losing his legs only strengthened Willson s identity with millions of unnamed victims of U S policy around the world He provides details of his travels to countries in Latin America and the Middle East and bears witness to the harm done to poor people as well as to the environment by the steamroller of U S imperialism These heart rending accounts are offered side by side with inspirational stories of nonviolent struggle and the survival of resilient communities Willson s expanding consciousness also uncovers injustices within his own country including insights gained through his study and service within the U S criminal justice system and personal experiences addressing racial injustices He discusses coming to terms with his identity as a Viet Nam veteran and the subsequent service he provides to others as director of a veterans outreach center in New England He draws much inspiration from friends he encounters along the way as he finds himself continually drawn to the path leading to a simpler life that seeks to do no harm rdquo Throughout his personal journey Willson struggles with the question Why was it so easy for me a good man to follow orders to travel 9 000 miles from home to participate in killing people who clearly were not a threat to me or any of my fellow citizens He eventually comes to the realization that the American Way of Life is AWOL from humanity and that the only way to recover our humanity is by changing our consciousness one individual at a time while striving for collective cultural changes toward less and local Thus Willson offers up his personal story as a metaphorical map for anyone who feels the need to be liberated from the American Way of Life a guidebook for anyone called by conscience to question continued obedience to vertical power structures while

Tracks Clare Hammond,2024-06-06 On the Shadow Tracks harnesses the railway lines of Myanmar s complicated past to its turbulent present and the result is part travelogue part history and completely absorbing An astonishing achievement Joanna Lumley In 2016 while working as a journalist in Yangon Clare Hammond discovered an obscure map that showed a web of new railways spanning the length and breadth of the country railways not shown on any other publicly available maps She was determined to uncover the railways origins purpose and most of all the silence that surrounded them She would spend three months travelling on these mysterious railways and the next five years piecing their story together Her journey would take her from Myanmar s tropical south to the embattled mountain towns that border India and China In dilapidated carriages along tracks in disrepair through contested ethnic states and former sites of forced labour visiting temples tea shops and festivals Clare encountered a colourful and contradictory Myanmar through the stories of its people Simultaneously a lush and evocative travelogue an unsparing account of Myanmar s recent history and an astonishing conversation shifting engagement with Britain s colonial legacy On the Shadow Tracks is that rare and necessary thing a book that finds and tells the truth **Hypsometry** William Bowie,U.S. Coast and Geodetic Survey, Henry Godfrey

Avers,1914 *On the Same Track* Carol Corbett Burris,2014-03-18 A public school principal s account of the courageous leaders who have dismantled the tracking systems in their schools in order to desegregate classrooms What would happen if a school eliminated the tracks that rank students based on their perceived intellectual abilities Would low achieving students fall behind and become frustrated Would their higher achieving peers suffer from a watered down curriculum Or is tracking itself the problem A growing body of research shows that tracking doesn t increase learning for the minority and low income students who are overrepresented in low track classrooms This de facto segregation has led many civil rights advocates to argue that tracking is turning back the clock on equal education As a principal at a New York high school Carol Corbett Burris believed that the curriculum for the best students was the best curriculum for all She helped lead a bold plan to eliminate tracking from her school and the results couldn t have been further from the doom and gloom scenarios of tracking

proponents Instead there was a dramatic improvement in the achievement of all students across racial and socioeconomic divisions and a near elimination of the achievement gap Today due to those efforts International Baccalaureate English is the twelfth grade curriculum for South Side students and all students take the same challenging courses together to prepare them for college In *On the Same Track* Burris draws on her own experience on the experiences of other schools and on the latest research to make an impassioned case for detracking Not only does the practice of tracking fail to benefit lower tracked students as Burris shows but it also results in the resegregation of classrooms Furthermore she argues that many of today s popular reforms emanate from the same sort and select mentality that reinforces social stratification based on race and class *On the Same Track* is a rousing controversial and yet optimistic account of how we need to change our assumptions and policies if we are to live up to the promise of democratic public education Only by holding all students to the same high standards can we ensure that all have the same opportunity to live up to their full potential
