Paranoia Plot:

Plotting Apocalypse Jennie Chapman, 2013-09-12 It is the not too distant future and the rapture has occurred Every born again Christian on the planet has without prior warning been snatched from the earth to meet Christ in the heavens while all those without the requisite faith have been left behind to suffer the wrath of the Antichrist as the earth enters into its final days This is the premise that animates the enormously popular cultural phenomenon that is the Left Behind series of prophecy novels co written by Tim LaHaye and Jerry Jenkins and published between 1995 and 2007 But these books are more than fiction it is the sincere belief of many evangelicals that these events actually will occur soon *Plotting Apocalypse* delves into the world of rapture prophecy and tribulation in order to account for the extraordinary cultural salience of these books and the impact of the world they project Through penetrating readings of the novels Chapman shows how the series offers a new model of evangelical agency for its readership The novels teach that although believers are incapable of changing the course of a future that has been preordained by God they can become empowered by learning to read the prophetic books of the Bible and the signs of the times correctly Reading and interpretation become key indices of agency in the world that Left Behind limns *Plotting Apocalypse* reveals the significant cultural work that Left Behind performs in developing a counter narrative to the passivity and fatalism that can characterize evangelical prophecy belief Chapman s arguments may bear profound implications for the future of American evangelicalism and its interactions with culture society and politics

Metacinema David LaRocca,2021-07-27 In ten new essays on a selection of vital canonical films contributors chart explore and advance the ways in which metacinema is at once a mode of filmmaking and a heuristic for studying cinematic attributes

The Metanarrative Hall of Mirrors Garrett Stewart,2022-03-10 With its laser focus on the verbal and visual infrastructure of narrative The Metanarrative Hall of Mirrors is the first sustained comparative study of how image patterns are tracked in prose and cinema In film examples ranging from Citizen Kane through Apocalypse Now to Blade Runner 2049 then on to Christopher Nolan s 2020 Tenet Garrett Stewart follows the shift from celluloid to digital cinema through various narrative manifestations of the image from freeze frames to computer generated special effects By bringing cinema alongside literature Stewart discovers a common tendency in contemporary storytelling in both prose and visual narrative from the ongoing trend of mind game films to the often puzzling narrative eccentricities of such different writers as Nicholson Baker and Richard Powers including the latter s eerie mirroring of reader empathy in his 2021 Bewilderment

Conspiracy Culture Dr Peter Knight,Peter Knight,2013-04-15 Conspiracy theories are everywhere in post war American culture From postmodern novels to The X Files and from gangsta rap to feminist polemic there is a widespread suspicion that sinister forces are conspiring to take control of our national destiny our minds and even our bodies Conspiracy explanations

can no longer be dismissed as the paranoid delusions of far right crackpots. Indeed they have become a necessary response to a risky and increasingly globalized world in which everything is connected but nothing adds up. Peter Knight provides an engaging and cogent analysis of the development of conspiracy culture from 1960s countercultural suspicions about the authorities to the 1990s where a paranoid attitude is both routine and ironic. Conspiracy Culture analyses conspiracy narratives about familiar topics like the Kennedy assassination, alien abduction, body horror, AIDS, crack, cocaine, the New World Order, as well as more unusual ones like the conspiracies of patriarchy and white supremacy. Conspiracy Culture shows how Americans have come to distrust not only the narratives of the authorities but even the authority of narrative itself to explain what is really going on. From the complexities of Thomas Pynchon's novels to the endless mysteries of The X-Files, Knight argues that contemporary conspiracy culture is marked by an infinite regress of suspicion. Trust no one because we have met the enemy and it is us.

Violent Affect Marco Abel, 2007-01-01. Countering previous studies of violent images based on representational and consequently moralistic assumptions which the author argues inevitably reinforce the very violence they critique. He explains how violent images work upon the world.

Closed Circuits Garrett Stewart, 2015-01-30. The recent uproar over NSA dataveillance can obscure the fact that surveillance has been part of our lives for decades. And cinema has long been aware of its power and potential for abuse. In Closed Circuits, Garrett Stewart analyzes a broad spectrum of films from *M* and *Rear Window* through *The Conversation* to *D.J. Vu*, *Source Code* and *The Bourne Legacy* in which cinema has articulated and performed the drama of inspection's unreturned look. While mainstays of the thriller, both the act and the technology of surveillance, Stewart argues, speak to something more foundational in the very work of cinema. The shared axis of montage and espionage with editing designed to draw us in and make us forget the omnipresence of the narrative camera extends to larger questions about the politics of an oversight regime that is increasingly remote and robotic. To such a global technopticon, one telltale response is a proliferating mode of digitally enhanced surveillance cinema.

Plots: Literary Form and Conspiracy Culture Ben Carver, Dana Craciun, Todor Hristov, 2021-11-29. This edited collection contributes to the study of conspiracy culture by analysing the relationship of literary forms to the formation, reception and transformation of conspiracy theories. Conspiracy theories are narratives and their narrative form provides the structure within which their readers situate themselves when interpreting the world and its history. At the same time, conspiracist interpretations of the world may then be transmediated into works of literature and import popular discourse into narrative structures. The suppression and disappearance of books themselves may generate conspiracy theories and become co-opted into political dissent. Additionally, literary criticism itself is shown to adopt conspiracist modes of interpretation. By examining conspiracy plots as literary plots with narrative, rhetorical and symbolic characteristics, this volume is the first systematic study of how conspiracy culture in American and European history is the consequence of its interactions with literature. This book will be of great interest to researchers of conspiracy theories, literature and literary criticism.

Russian Modernism Stephen C. Hutchings, 1997-12-11 This book explores the unique way in which Russian culture constructs the notion of everyday life or *byt* and offers the first unified reading of Silver age narrative which it repositions at the centre of Russian modernism Drawing on semiotics and theology Stephen C Hutchings argues that *byt* emerged from a dialogue between two traditions one reflected in western representational aesthetics for which daily existence figures as neutral and normative the other encapsulated in the Orthodox emphasis on iconic embodiment Hutchings identifies early Decadent formulations of *byt* as a milestone after which writers from Chekhov to Rozanov sought to affirm the iconic potential hidden in Russian realism's critique of representationalism Provocative yet careful textual analyses reveal a consistent urge to redefine art's function as one not of representing life but of transfiguring the everyday

Attention Spans Garrett Stewart, 2024-01-25 *Attention Spans* chronological review of Garrett Stewart's critical approach tracks and maps the evolution of intersecting disciplines from late New Criticism through structuralism deconstruction narrative theory by way of narratology poetics and media studies in which Stewart's has been so persistent and so eloquent a voice Excerpts from his twenty books are framed by editorial retrospect then linked by Stewart's own commentary on the variety and underlying vectors of his interpretive career across aesthetic forms from Victorian narrative to recent American fiction classic celluloid cinema to postfilmic digital effects inert book sculpture and literary wordplay to the soundscape of singing on screen Accompanied by a glossary of his many influential coinages this cornucopia of analyses is also a chronicle of evolving paradigms in the work of intensive reading

Framed Time Garrett Stewart, 2008-09-15 Italian director Michelangelo Antonioni claimed three decades ago that different conceptions of time helped define the split in film between European humanism and American science fiction And as Garrett Stewart argues here this transatlantic division has persisted since cinema's 1995 centenary made more complex by the digital technology that has detached movies from their dependence on the sequential frames of the celluloid strip Brilliantly interpreting dozens of recent films from *Being John Malkovich* *Donnie Darko* and *The Sixth Sense* to *La mala educaci n* and *Cach* Stewart investigates how their treatments of time reflect the

change in media from film's original rolling reel to today's digital pixel. He goes on to show with 140 stills how American and European narratives confront this shift differently while Hollywood movies tend to revolve around ghostly afterlives, psychotic doubles or violent time travel; their European counterparts more often feature second sight, erotic telepathy or spectral memory. Stewart questions why these recent plots in exploring temporality gravitate toward either supernatural or uncanny apparitions rather than themes of digital simulation. In doing so, he provocatively continues the project he began with *Between Film and Screen*, breaking new ground in visual studies, cinema history and media theory.

Conspiracy Theories in the United States and the Middle East Michael Butter, Maurus Reinkowski, 2014-08-19

Conspiracy Theories in the United States and the Middle East is the first book to approach conspiracy theorizing from a decidedly comparative and interdisciplinary perspective. Whereas previous studies have engaged with conspiracy theories within national frameworks, only this collection of essays draws attention to the fact that conspiracist visions are transnational narratives that travel between and connect different cultures. It focuses on the United States and the Middle East because these two regions of the world are entangled in manifold ways and conspiracy theories are currently extremely prominent in both. The contributors to the volume are scholars of Middle Eastern Studies, Anthropology, History, Political Science, Cultural Studies and American Studies who approach the subject from a variety of different theories and methodologies. However, all of them share the fundamental assumption that conspiracy theories must not be dismissed out of hand or ridiculed. Usually wrong and frequently dangerous, they are nevertheless articulations of and distorted responses to needs and anxieties that must be taken seriously. Focusing on individual case studies and displaying a high sensitivity for local conditions and the cultural environment, the essays offer a nuanced image of the workings of conspiracy theories in the United States and the Middle East.

Motherhood Misconceived Heather Addison, Mary Kate Goodwin-Kelly, Elaine Roth, 2009-10-06

As celebrities sporting baby bumps, politicians, Olympic athletes and talk show guests, mothers are ubiquitous throughout U.S. media and popular culture. Like lightning rods, these high-profile mothers attract accolades and judgments associated with ideals of female sexuality, gender roles and constructions of contemporary families. *Motherhood Misconceived* explores this widespread cultural fascination with motherhood through analyses of mothers in contemporary U.S. film, including both mainstream and independent cinematic representations. The contributors draw on a variety of critical approaches to consider the spectacle of pregnancy, mother-daughter relationships, mothers as predators, narcissists and absent victims, and the ways in which cultural anxieties are displaced and projected onto marginalized mothers in films such as *Fargo*, *Transamerica*, *Gas Food Lodging*, *Ordinary People* and *Scream*. Ideal for women's studies or film studies classes, *Motherhood Misconceived* will help students contextualize current debates about motherhood as they play out in popular and independent film.
