Pauvreté Et Marché Du Travail Urbain En Afrique Subsaharienne Analyse Comparative:

Pauvreté et marché du travail urbain en Afrique subsaharienne Jean-Pierre Lachaud, 1994 *Pauvreté et marché du travail urbain en Afrique au sud du Sahara* Jean-Pierre Lachaud, 1993 **Urban Labor Markets in Sub-Saharan Africa** Philippe De Vreyer, François Roubaud, 2013-06-07 Although labor is usually the unique asset upon which poor people can make a living little is known about the functioning of labor markets in Sub-Saharan Africa The purpose of this volume is to contribute to the building of knowledge in this area In this book the authors use a unique set of identical and simultaneous labor force surveys conducted in seven capitals of Western Africa as well as in some other African countries Cameroon Madagascar Democratic Republic of Congo in the 2000s They present innovative and original results on how people are faring in these labour markets using up to date econometric and statistical methods Because so little is known about labor markets in the region each chapter starts with detailed descriptive statistics that aim to shed light onto specific aspects of African urban labor markets Comparisons between the ten cities are systematically carried out Descriptive sections are followed by in depth analyses on various issues The book is divided into four parts that examine 13 topics Part I presents the main stylised facts which are investigated further in a more analytical way throughout the volume Part II focuses on job quality and labor market conditions such as unemployment and underemployment vulnerability and job satisfaction Part III explores the many dimensions of labor market inequalities through various lenses such as returns on education segmentation life cycle inequality with a particular focus on old age inter generational mobility time related inequality and gender and ethnic earnings discrimination Part IV addresses some key coping mechanisms and private responses with a focus on migration and child labor The book concludes with recommendations for future research **Poverty and Policy in Post-apartheid South Africa** Haroon Borat, S. M. Ravi Kanbur, 2006 The political freedoms ushered in by the post 1994 transition were seen at that time as the basis for redressing long standing economic deprivations suffered by the majority of the population The reduction of poverty in all its dimensions was the goal The volume will be of interest to researchers graduate students and to the technical staff of international agencies and government ministries **Population and Poverty** Naunihal Singh, 2002 *On the Postcolony* Achille Mbembe, 2001 Refreshing a stale debate about power in the postcolonial state this book addresses a topic debated across the humanities and social sciences how to define discuss and address power and the subjective experience of ordinary people in the face of power *L'extrême pauvreté au Niger* Patrick Gilliard, 2005 En Afrique subsaharienne le Niger est l'un des pays où la question de la pauvreté se pose avec le plus d'acuité Pendant les vingt dernières années la situation est devenue très difficile pour les segments les plus fragiles des sociétés rurales et urbaines On a assisté au déploiement d'un ensemble d'activités de survie comme la croissance de l'économie informelle et plus récemment des migrations vers les villes Beaucoup d'études sur la pauvreté en Afrique ont été faites par les grandes institutions internationales comme les Nations unies et la Banque mondiale Si les indicateurs soulignent la dimension

catastrophique du phénomène la question de la pauvreté reste partiellement abordée au-delà des chiffres. L'approche adoptée dans cet ouvrage est au contraire une vision par le bas au service d'un modèle de lutte contre la pauvreté définie à partir de la logique d'acteurs impliqués dans le vécu. Cette recherche est partie d'un contact direct avec la mendicité urbaine. À chaque coin de rue en grappes autour des feux rouges les mendiants sollicitent les passants. La mendicité est une pratique très présente dans la capitale Niamey. Il est humainement difficile de supporter cette réalité au quotidien sans se sentir profondément interpellé. Peu de recherches font état de la mendicité car les différentes études sur la pauvreté menées à partir des années 1990 n'y accordaient que peu d'importance. Ce livre a l'ambition de combler une lacune dans le domaine.

L'extrême pauvreté au Niger - Mendié ou mourir ? Romain Bertrand, 2005-03-01

En Afrique subsaharienne le Niger est l'un des pays où la question de la pauvreté se pose avec le plus d'acuité. Pendant les vingt dernières années la situation est devenue très difficile pour les segments les plus fragiles des sociétés rurales et urbaines. On a assisté au déploiement d'un ensemble d'activités de survie comme la croissance de l'économie informelle et plus récemment des migrations vers les villes. L'approche adoptée dans cet ouvrage est une vision par le bas au service d'un modèle de lutte contre la pauvreté définie à partir de la logique d'acteurs impliqués dans le vécu. Pauvreté, vulnérabilité et marché du travail au Burkina Faso Jean-Pierre Lachaud, 1997 Briefly discusses economic and social development in Burkina Faso from the early 1980s to 1994 Focuses on the period 1994-1995

Travail et apprentissage en Afrique de l'Ouest. Sénégal, Côte d'Ivoire, Togo VITI Fabio, 2013-10-30 12 pages de photos couleurs Ce livre est né de la rencontre avec des jeunes gens qui travaillent gratuitement et dont les familles payent parfois pour assurer leur formation dans des spécialités artisanales du secteur informel des grandes villes africaines. Face à ce constat une série de questionnements s'est imposée qu'il y a-t-il derrière le comportement de ces jeunes quels rapports sociaux encadrent leur apprentissage et déterminent leur avenir quelle est leur position dans le monde de la production et du travail. Pour répondre l'auteur veut d'abord chapper l'alternative faite d'attendrissement ou d'indignation et manifester toute son insatisfaction vis-à-vis de la rhétorique des petits maîtres et des vertus de l'économie informelle. Il a fallu alors largir le champ de l'analyse en remontant aux sources de certaines notions fondamentales telles celles de travail et de dépendance personnelle. Ce n'est qu'après une réflexion sur ces catégories qu'il devenait possible d'aborder de manière plus systématique et critique l'univers du travail en Afrique dans ses formes traditionnelles et communautaires salariées et modernes rémunérées ou gratuites. Cette nécessité d'élargissement du regard s'est manifestée au fur et mesure que progressait l'enquête sur l'apprentissage urbain donnant lieu à un long parcours travers les notions théoriques de travail et de dépendance.

Population and Poverty in the Developing World Massimo Livi-Bacci,Gustavo De Santis,1999-04-01 The increasing gap between developed and developing world will be one of the most important themes of the 21st century The contributions contained in this volume take a multidisciplinary approach to the problem offering a comprehensive review of the theoretical issues and empirical findings that relate to the complex and multidirectional link between poverty and demographic behaviours and outcomes in the contemporary developing world The starting point of the volume is an exact definition of poverty The contributors go on to analyse in the detail its causes and effects both at the micro and macro level concentrating on those factors and consequences which relate more directly to the demographic sphere Population growth household structure and labour fertility AIDS urbanization migration and mortality are amongst the areas covered with the major themes discussed and elaborated in an introductory overview chapter

Le cadre comptable macroéconomique et les pays en développement André Martens,Bernard Decaluwé,1996-01-01 Petits patrons africains Y.-A. des points de contraste suffisamment forts pour clarifier la diversité des situations prévalant en Afrique de l'Ouest dans le monde des entreprises et dans le domaine de l'appui. L'étude est sous-tendue par une série d'interrogations qui ne laissent pas de troubler ceux qui s'intéressent aux contextes de développement et aux changements d'environnement : les choix arrêtés en matière de soutien aux entreprises tiennent-ils réellement compte des paramètres nationaux et locaux, notamment régionaux et socio-économiques et des opportunités de croissance des secteurs privés concernés ? Dans quelle mesure les organismes d'appui intègrent-ils les multiples facteurs limitant la création ou l'essor des exploitations qui ne se réduisent pas loin s'en faut aux seuls problèmes de financement ? La prolifération des concours actuels garantit-elle contre les échecs largement avérés des dispositifs publics d'aide au cours des dernières années passées ? Élément-clé des nouvelles politiques de développement, l'appui au secteur privé semble dans l'immédiat manquer son but et ses insuffisances alimentent l'interrogation : faut-il cesser d'aider ou doit-on réguler ? Si le retour de l'interventionnisme est exclu, il faut aussi prendre acte des limites d'un libéralisme d'appoint pourvu de marchés d'acteurs et de réglementations. Ainsi, entre appui et laisser-faire, la position des petits patrons africains est-elle l'une des plus inconfortables qui soit dans les systèmes socio-économiques contemporains du continent ?

L'Afrique des citadins - Sociétés civiles en chantier (Abidjan, Dakar) François LEIMDORFER et Alain MARIE (eds), 2003-02-14 Au-delà de l'actualité qui fait craindre tout moment un basculement tragique de l'histoire du continent des identités communautaires ethniques ou religieuses mobilisées par certains discours politiques, l'émergence d'une société civile véritable ne nécessite-t-elle pas une réelle démocratisation où chaque individu devient citoyen et acteur de ses projets comme de ses prises de paroles ? Mais il y a encore un développement qui passe par une répartition quitte des sacrifices et des bénéfices : exige-t-elle que seul un État respectueux des droits peut satisfaire ? Dynamique de pauvreté, inégalité et urbanisation au Burkina Faso Jean-Pierre Lachaud, 2004 Examines 1 the evolution of monetary poverty among households 2 the impact of urbanization on poverty and 3 structural changes of rural poverty in the 1990s Considers children's mortality and malnutrition as poverty indicators Poverty Eradication Mbaya Kankwenda, 2000 Alleviating poverty requires defining the concept of poverty identifying the underlying causes and designing multidimensional operational poverty reduction strategies This book examines in detail poverty reduction policies and strategies and outlines a new methodological approach to the process of designing national poverty reduction strategies in Africa It also endeavors to define the roles of the various national stakeholders and external partners such as UNDP This book is a useful tool for development stakeholders particularly governments civil society universities as well as the private sector It should also foster reflection and consultation among all of Africa's external partners BOOK JACKET **La lutte contre la pauvreté en Afrique subsaharienne** Kankwenda Mbaya, 1999 Se analizan las acciones de lucha contra la pobreza tanto en el ámbito nacional de los países afectados como en el marco de programas de organismos supranacionales tales como el Programa para el Desarrollo de Naciones Unidas **Bibliographie Mensuelle.
