**The Purveyor of Enchantment** Marion CHESNEY,1997 *Allegory and Enchantment* Jason Crawford,2017-01-19 What is modernity Where are modernity's points of origin Where are its boundaries And what lies beyond those boundaries *Allegory and Enchantment* explores these broad questions by considering the work of English writers at the threshold of modernity and by considering in particular the cultural forms these writers want to leave behind From the fourteenth to the seventeenth centuries many English writers fashion themselves as engaged in breaking away from an array of old idols magic superstition tradition the sacramental the medieval Many of these writers persistently use metaphors of disenchantment of awakening from a broken spell to describe their self consciously modern orientation toward a medieval past And many of them associate that repudiated past with the dynamics and conventions of allegory In the hands of the major English practitioners of allegorical narrative William Langland John Skelton Edmund Spenser and John Bunyan allegory shows signs of strain and disintegration The work of these writers seems to suggest a story of modern emergence in which medieval allegory with its search for divine order in the material world breaks down under the pressure of modern disenchantment But these four early modern writers also make possible other understandings of modernity Each of them turns to allegory as a central organizing principle for his most ambitious poetic projects Each discovers in the ancient forms of allegory a vital powerful instrument of disenchantment Each of them therefore opens up surprising possibilities that allegory and modernity are inescapably linked that the story of modern emergence is much older than the early modern period and that the things modernity has tried to repudiate the old enchantments are not as alien or as absent as they seem

**A Rival Creation** Marika Cobbold,2012-03-15 At thirty nine Liberty Turner mother of an illegitimate and nearly grown up son and daughter of a flamboyant father who had never grown up realised that she had no talent Once in more prosperous times her books had been published Now as relentless rejections pulverised her every effort she faced up to the whimsical truth that while she was absolutely bursting with the creative urge

the talent just wasn't there. But as she began to observe her friends and neighbours in the village of Tollymead, not quite the idyllic community that everyone wished it was, she noticed that there were different kinds of creations. Evelyn Brooke, her eccentric and idealistic neighbour, chained herself to condemned oak trees and fought against polluters of the countryside. The vicar, resenting his congregation of middle class, apparently well-adjusted parishioners, sought longingly for a real social problem to deal with. Even Nancy Sanderson, magistrate and secretary of the Women's League, was eventually to revolt against her life style and create something of her own. As Liberty stoically continued her progress through harvest lunches and creative writing classes, she waited for a rival creation of her own to emerge, and when Oscar Brooke moved into the village, she thought perhaps she might have found it.

**Frederick Douglass and Herman Melville** Robert S. Levine, Samuel Otter, 2012-09-01 Frederick Douglass (1818-1895) and Herman Melville (1819-1891) addressed in their writings a range of issues that continue to resonate in American culture: the reach and limits of democracy, the nature of freedom, the roles of race, gender, and sexuality, and the place of the United States in the world. Yet they are rarely discussed together, perhaps because of their differences in race and social position. Douglass escaped from slavery and tied his well-received nonfiction writing to political activism, becoming a figure of international prominence. Melville was the grandson of Revolutionary War heroes and addressed urgent issues through fiction and poetry, laboring in increasing obscurity. In eighteen original essays, the contributors to this collection explore the convergences and divergences of these two extraordinary literary lives. Developing new perspectives on literature, biography, race, gender, and politics, this volume ultimately raises questions that help rewrite the color line in nineteenth-century studies.
