Long Lightning:

The Bugatti Story William Boddy, 2013-08-19 Ettore Bugatti was by common consent one of the most brilliant designers ever to work in the automotive field He produced a greater range of models than any other single designer ever has done racing machines sports cars and limousines automobiles of all sizes The Bugatti was probably the most sought after and admired pre World War II car existing the world over Ettore Bugatti mad inventor or mechanical genius Viewed from the point of view of his car designs and productions he was certainly a mechanical genius 1960 W Boddy In this new digital edition have been included links to the original Bugatti patents complete documentation The contents of the ebook also relate the victories the types of cars family albums and everything about the Bugatti story **MotorBoating** ,2009-05 **Myths of the Modocs** Jeremiah Curtin, The majority of Americans know who the Modocs are and where they live for on a time their bravery and so called treachery gave them widespread notoriety but for those who do not know the following sketch may be helpful The Old Modoc Country was the valley of Lost River in Oregon and the country adjacent to the shores of Little Klamath Lake and Tula Lake which in main lies within the boundary of California The country around Tula Lake is of volcanic formation and at the southern end of the lake are the lava beds about which so much was written during the Modoc War of 1872 1873 Along the rivers and lakes the scenery is pleasing and in places grand Lake Klamath nearly surrounded by mountains is as beautiful as are the famed lakes of Italy and Switzerland Mount Pitt which from a distance seems to rise from the very shore of the lake is snow crowned except for a few weeks in midsummer Mount Shasta is seen from its summit to the snow line The Modoc people believe that Kumush created the world the world in Modoc myth means the country inhabited by the Modocs and the tribes they come in contact with He made the mountains lakes and rivers and gave them names We are not told about the creation of the first people those wonderful beings who inhabited the world before man was created and were so numerous that if a count could be made of all the stars in the sky all the feathers on birds all the hairs and fur on animals and all the hairs on our heads they would not be as numerous No man knows how long those first people lived but after countless ages a time came when they were transformed into beasts reptiles birds fishes insects plants stones snow earthquake sun moon and stars in fact into every living thing object phenomenon and power outside of man This transformation took place about the time that Kumush created the Modoc and other Indian tribes and gave them names told them where their homes would be designated the Klamath country for the Modocs and established the present order of things For the Modocs the valley of Lost River and the lands around Klamath and Tula Lake are sacred We who endeavor to trace our origin back to a monkey or still farther to a bit of protoplasm or who believe in and search far and wide for the Garden of Eden cannot revere a country which is ours simply by chance of birth as the Indian reveres the country where his tribe originated We cannot estimate the love an Indian has for his country His holy places are not in far off Palestine they are before his eyes in his own birthplace where every river hill and mountain has a story connected with it an account of its

origin No people could be more religious than were the Indians before the advent of the white man they had no observance rite or custom which they did not believe to be God given **Storm Data** United States. Environmental Data Service,1972
