industrialized part of the global agri food system which increasingly depends on seasonal labour Simultaneously consumer demand for year round supply has caused relocations of the industry within Europe areas of intensive greenhouse production have moved further south and even into North Africa The authors investigate this Mediterranean agri food system that transcends borders and is largely constituted by invisible seasonal work By revealing the story of food commodities loaded with implications of private profit seeking exploitation exclusion and multiple insecurities the book unmasks the hidden costs of fresh food provisioning Three case study areas are considered in detail the French region of Provence a traditional centre of fresh fruit and vegetable cultivation the Spanish Almer a region where intensive production has accelerated dramatically since the 1970s and Morocco where counter seasonal production has recently been expanding The book also includes commentaries that refer to complementary insights on US Mexico Philippines Canada and South Pacific mobilities

Westoff,Elise F. Jones,1979 **Social Institutions Of France** Pierre Laroque,Patricia Evans,Roy Evans,2021-10-14 First Published in 1983 Social problems have assumed a growing importance in France as in all developed countries especially since the end of the last century While traditional early nineteenth century liberalism denied the existence of social problems as such believing the greatest possible economic freedom to be the sole solution to all evils the emphasis is still placed more and more insistently on the need for a definite and concerted welfare effort to increase the material well being of individuals and families Since the second edition of this book was published in 1962 legislation and welfare services and social reality itself have changed as much through circumstances as through political and economic evolution It follows that the present edition of this book is in fact an almost wholly new book It attempts to present a comprehensive view of French social life drawing attention especially to welfare services and legislation as they are at the beginning of 1979 **Policies on**
