Managing Chronic Obstructive Pulmonary Disease Laura Blackler, Christine Jones, Caroline Mooney, 2007-09-27 Chronic Obstructive Pulmonary Disease COPD is increasing rapidly worldwide and it s predicted that by 2020 it will represent the third leading cause of death Sadly this slow progressing

debilitating disease not only affects the individual but also has consequences for the family. More positively, the urgent need to improve the care offered and to raise the public profile of the condition has now been recognised. Healthcare providers play a central role in this through health education, early diagnosis and better management through all stages of the disease. Managing Chronic Obstructive Pulmonary Disease provides an insight into this debilitating condition. The book aims to develop nurses and allied health professionals' knowledge and skills in caring for individuals with COPD. It takes the reader on a journey from diagnosis through to end of life care and examines: Initial diagnosis and symptom management; Smoking cessation; Pulmonary rehabilitation; The management of acute episodes; The role of each member of the multi-disciplinary team; Quality of life including nutrition, fatigue management and leisure activities; The future for the care and management of people with the condition. Healthcare professionals from multi-disciplinary teams have contributed to this book to demonstrate that a co-ordinated approach for these patients is required across both primary and secondary care. Managing Chronic Obstructive Pulmonary Disease can be utilised by nurses and allied health professionals caring for patients at all stages of their disease.

Integrative Therapies in Lung Health and Sleep Linda Chlan, Marshall I. Hertz, 2012-01-07. Integrative Therapies in Lung Health and Sleep provides an overview of integrative therapies to assist clinicians caring for patients with acute or chronic lung diseases and sleep disorders, emphasizing the scientific bases for these therapies and their implementation into clinical practice. This volume focuses on complementary and alternative medicine (CAM) treatments, modalities and practices that are integrated with conventional medical treatment and for which there is some evidence of safety and efficacy. Whole Medical Systems, with a specific focus on Traditional Chinese Medicine, are also addressed. Individual chapters are devoted to specific health conditions or illnesses, addressing the current state of the science in the four organizing CAM domains, including available information regarding benefits, risks or safety considerations. Unique aspects of this volume are the chapters related to evaluation of the evidence base for integrative therapies; new animal model research with herbal preparations focused on the serious problem of sepsis in the ICU; guidance for counseling patients with chronic lung illnesses who may be desperate for a cure; and palliative and end of life care for patients with chronic lung conditions. Clinicians in various health care settings will find Integrative Therapies in Lung Health and Sleep beneficial in their practice, particularly as the use of integrative therapies becomes more widespread.
