Longterm Conflict Prevention And Industrial Development:

Long-Term Conflict Prevention and Industrial Development Ralf Bredel, 2003 After decades of striving to prevent international conflict major armed conflicts in the 1990s have taken place within national boundaries After the series of national independence wars in the 1950s and 1960s and frequent geopolitical wars in the 1970s and 1980s a category of wars of the third kind prevailed The aim of this book is to consider the root causes of recent internal conflicts and to develop long term conflict prevention strategies from here New insights suggest the central role of politico economic inequalities in ethnic religious and cultural conflict The United Nations system has just started to adjust to this new reality of conflict and make long term conflict prevention a priority issue on international agendas Whereas development practitioners should principally conceive their work through a conflict prevention lens there is a shift in focus to United Nations agencies that deal with the economic characteristics of conflict The unbroken significance of a sustainable industrial development process in developing countries may allow the United Nations Industrial Development Organization UNIDO a particular vantage point and role in the long term prevention of conflict Long-term Conflict Prevention and Industrial Development Ralf

The Ethical Economy of Conflict Prevention And Development Ralf Bredel, 2007

Central to the current development debate is the importance of human welfare in the context of group conflict. When considering ethnic, racial, and religious conflict, this debate draws us toward a political economy of conflict. Moreover, notions of an economic paradigm have become prominent when international organizations debate conflict prevention. In looking closer at the political economy of conflict, this publication argues the need to assimilate into our thinking distinct social and ethical economies of conflict prevention. A social economy of conflict prevention considers the interplay of economic with structural and cultural factors in conflict, explaining a much neglected category of conflict, i.e., hidden conflict. The ethical economy of conflict prevention considers implicit ethical statements development practitioners use. From these statements arise ethical paradoxes that influence the evolving economic paradigm in such way as to contradict one of its intrinsic desires, namely, to restrict conflict prevention strategies to effective technical interventions. Eventually, such narrow focus on technical interventions could identify this evolving paradigm as an economical paradigm. In contrast, a rethinking of the ethical economy of conflict prevention provides a useful tool for international organizations when implementing a human rights-based approach to development and long-term conflict prevention.

Strategies, Structures, and Processes for Network and Resources Management in Industrial Parks Tiina Salonen, 2010

In the recent years, the number of industrial parks has grown rapidly worldwide, driven by economic policies and industrial restructuring. The high resource consumption and prices, as well as stringent environmental policies and laws, have pushed the strategic importance of efficient resources management. Due to the proximity of companies, industrial parks offer potential for the development of interorganizational resource exchanges in terms of energy and waste infrastructure sharing and joint services. Utilizing this potential enhances the resource efficiency and added value of companies while often reducing their environmental impacts. Efficient management of resources in industrial parks requires an appropriate management concept. However, the research and literature on the management of industrial parks is very limited. As a solution, the author introduces the concept for integrated resources management. The theoretical status quo of the concept is studied from the perspective of industrial ecology, with the conclusion that the approach lacks a strategic management dimension. To tackle the problem, the author draws upon the strategic management and organizational theories, as well as the approaches of network and environmental management. The empirical insights into the concept are sought by analyzing applied practices to network and resources management in industrial parks. The case studies comprise representative examples of successful

industrial restructuring from Germany such as DOW ValuePark R and Chemical Industrial Park Marl and showcases of China's economic policy such as Shanghai Chemical Industry Park and Tianjin Economic and Technological Development Area A reader will find in this book a sound theoretical framework to accommodate further research and practical decision support to manage resource problems characterized by conflicting stakeholder interests **Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding** Essien, Essien, 2020-03-20 The contemporary conflict scenarios are beyond the reach of standardized approaches to conflict resolution Given the curious datum that culture is implicated in nearly every conflict in the world culture can also be an important aspect of efforts to transform destructive conflicts into more constructive social processes Yet what culture is and how culture matters in conflict scenarios is contested and regrettably unexplored The Handbook of Research on the Impact of Culture in Conflict Prevention and Peacebuilding is a critical publication that examines cultural differences in conflict resolution based on various aspects of culture such as morals traditions and laws Highlighting a wide range of topics such as criminal justice politics and technological development this book is essential for educators social scientists sociologists political leaders government officials academicians conflict resolution practitioners world peace organizations researchers and students ***Consequences of Longterm Conflicts in Northeast India*** V R Raghavan, 2013-05-01 In the case of Northeast India a number of researchers were engaged to study different and multi layered dynamics of the conflict and the consequences This is the second book that encompasses the studies presented by many researchers on different facets of this conflict ***Aquaculture Law and Policy*** David L. VanderZwaag, Gloria Chao, 2006-10-16 The aquaculture industry is fast expanding around the globe and causing major environmental and social disruptions The volume is about getting a good governance grip on this important industry The book highlights the numerous law and policy issues that must be addressed in the search for effective regulation of aquaculture Those issues include among others the equitable and fair assignment of property rights the design of effective dispute resolution mechanisms clarification of what maritime laws apply to aquaculture adoption of a proper taxation system for aquaculture resolution of aboriginal offshore title and rights claims recognition of international trade law restrictions such as labeling limitations and food safety requirements and determination of whether genetically modified fish should be allowed and if so under what controls This book will appeal to a broad range of audiences undergraduate and postgraduate students academic researchers policy makers NGOs practicing lawyers and industry representatives ***States of Fragility 2016 Understanding Violence*** OECD, 2016-11-30 The world is getting more violent and violence is occurring in surprising places Over the past 15 years 3.4 billion people or almost half of the world's population have been affected by violence The number of violent conflicts is decreasing but conflicts are killing more people ***Dispute Resolution and Conflict Management in Construction*** Edward Davies, Peter Fenn, Michael O'Shea, 2005-10-05 Many construction conflicts and disputes are not limited to particular jurisdictions or cultures but are increasingly becoming common across the industry
