An in depth study of how the famed Bloomsbury Group expressed their liberal philosophies and collective identity in visual form Fascinating and wide ranging Will be enjoyed by both Bloomsbury aficionados and newcomers alike Lucinda Willan V A Magazine The Bloomsbury Group was a loose collective of forward thinking writers artists and intellectuals in London with Virginia Woolf John Maynard Keynes and E M Forster among its esteemed members The group's works and radical beliefs spanning literature economics politics and non normative relationships changed the course of 20th century culture and society Although its members resisted definition their art and dress imparted a coherent distinctive group identity Drawing on unpublished photographs and extensive new research The Bloomsbury Look is the first in depth analysis of how the Bloomsbury Group generated and broadcast its self fashioned aesthetic One chapter is dedicated to photography which was essential to the group's visual narrative from casual snapshots to amateur studio portraits to family albums Others examine the Omega Workshops as a design center and the evidence for its dress collections spreading the Bloomsbury aesthetic to the general public Finally the book considers the group's extensive participation in 20th century modernism as artists models curators critics and collectors **Images of Crisis (Routledge Revivals)** George P. Landow, 2014-08-01 First published in 1982 *Images of Crisis* explores the premise that literature and art exploit various images to present culturally prevalent ideas and thus create their own form of iconology George Landow shows how the tumultuous history of the past two hundred years has resulted in a plethora of metaphors associated with moments of human crisis Avalanches and volcanoes emerge as focal images in an aesthetic that concerns itself increasingly with the vulnerability of humanity However it is in the transformation of traditional religious images that the ideas of the vacant universe are most dramatically presented Associated with this central idea are ironic transformations of other images that formerly had been associated with Christianity as paradigms of belief the journey of Odysseus the rainbow of the Covenant and Robinson Crusoe Combining close textual analysis with a theory of literary iconology this fascinating reissue will be of particular value to students with an interest in literary images and literary and cultural history **Academy Notes** Buffalo Fine Arts Academy, 1905 **Looking at Pictures** Colin Maclean, Moira Maclean, 1970 **The Cornhill Magazine** William Makepeace Thackeray, 1921 The Athenaeum, 1920
