Museum of Modern Art J. Szarkowski, 1976 Nearby History David E. Kyvig, Myron A. Marty, 2000 In the Second Edition of Nearby History the authors have updated all chapters introduced information about internet sources and uses of newer technologies as well as updated the appendices *Psychology of the Image* Michael A. Forrester, 2000 Psychology of the Image outlines a theoretical framework bringing together the semiotic concepts developed by Charles Peirce the sociological insights of Ervin Goffman and the psychoanalytic ideas of Jacques Lacan Image studies in fashion advertising photography film studies and psychology have been influenced by these theorists in significant ways The framework presented helps the reader understand how these ideas relate to the study of different domains of the image the internal imagery of dreams external images such as the photograph and image processes which span both contexts e g images we have about ourselves The topics discussed are organised into three themes The first considers mental imagery including sound and dreams The second addresses the interdependent nature of internal and external images e g the gendered self and social identity In the third theme attention turns to external images including television film photography the computer and the internet Psychology of the Image will be of interest to undergraduates postgraduates lecturers and researchers in the fields of psychology media studies and sociology Looking at photographs, 1973 **Understanding Pictures** Dominic Lopes, 1996-03-28 There is not one but many ways to picture the world Australian x ray pictures cubist collages Amerindian split style figures and pictures in two point perspective each draw attention to different features of what they represent The premise of Understanding Pictures is that this diversity is the central fact with which a theory of figurative pictures must reckon Lopes argues that identifying pictures subjects is akin to recognizing objects whose appearances have changed over time He develops a schema for categorizing the different ways pictures represent the different kinds of meaning they have and he contends that depiction's epistemic value lies in its representational diversity He also offers a novel account of the phenomenology of pictorial experience comparing pictures to visual prostheses like mirrors and binoculars The book concludes with a discussion of works of art which have made pictorial meaning their theme demonstrating the importance of the issues this book raises for understanding the aesthetics of pictures **Active Landscape Photography** Anne C Godfrey, 2023-04-28 Diverse Practices the third book in the Active Landscape Photography series presents a set of unique photographic examples for site specific investigations of landscape places Contributed by authors across academia practice and photography each chapter serves as a rigorous discussion about photographic methods for the landscape and their underlying concepts Chapters also serve as unique case studies about specific projects places and landscape issues Project sites include the Miller Garden Olana XX Miller Prize and the Philando Castile Peace Garden Landscape places discussed include the archeological landscapes of North Peru watery littoral zones the remote White Pass in Alaska Sao Paulo and New York City's Chinatown Photographic image making approaches include the use of lidar repeat photography collage mapping remote image capture portraiture image mining of internet sources visual impact assessment cameraless photography

transect walking and interviewing These diverse practices demonstrate how photography when utilized through a set of specific critical methods becomes a rich process for investigating the landscape Exploring this concept in relationship to specific contemporary sites and landscape issues reveals the intricacy and subtlety that exists when photography is used actively Practitioners academics students and researchers will be inspired by the underlying concepts of these examples and come away with a better understanding about how to create their own rigorous photographic practices
