Taylor,2022-06-29 Have you experienced a life changing event that began on the closet floor Paul Taylor did This singular
event occurred late in the afternoon on Friday March 6 1987 The tranquility of the morning s beauty shattered when Paul
answered the phone Shocked to hear his wife s anguished words Mark has Down syndrome he collapsed to the closet floor So
began Paul s odyssey from despair to eventual gratitude for the gift Mark is His wife s words the apparent harbinger of
permanent darkness would instead become the lighted beacon beaming brightly dispelling the blackness and opening his
eyes to one of his family s choicest blessings The road has not been easy Those on a similar journey know the same It taxes
one to physical mental and emotional limits But Paul would not trade his journey Why Because living with Mark helps Paul
continually reassess his life Several core concepts developed from this relationship Mark s positive influence teaches Paul to
be a better person Assisting Mark in his unique needs provides Paul the opportunity to look outward and be more observant
of those around him who may need assistance Mark s life demonstrates spiritual lessons we need to learn for eternity What
will you find in Mark and Me Paul writes as a father outlining his road of discovery the challenges faced from Mark s birth to
today Additionally the book includes different but complementary voices from others who know Mark which affirm the
premise that those who are disabled in uence people around them Do not expect a guide on How to Raise a Child with
Disabilities Instead it celebrates an individual life one whose disabilities are unique gifts to bless the lives around him A more
accurate title might read How to Train the Father of a Child with Disabilities The book will engage the reader with more than
80 stories vignettes and lessons which are funny poignant surprising scary profound and spiritual Read the Snow Cave
chapter where Paul and Mark were buried in a collapsed high mountain snowbank and when Paul believing they would
undoubtedly die was overcome by multiple waves of Divine love that words are inadequate to express Read how Mark s

purchase of a Santa Claus suit developed into a much larger story touching not only those directly involved but others who followed on Facebook Mark's definition of favorite which means everyone has taught Paul to judge less by the outer trappings and see people as Mark does without judgment Mark's definition of hurry which is limited to one speed only teaches Paul to slow down observe and enjoy people situations and circumstances that he would usually not notice Mark demonstrates qualities we can incorporate into our daily interactions more fully How different would life be if we all adopted more of the qualities manifested by Mark and his peers Beyond these beautiful qualities there is an even greater one Mark demonstrates the virtues we must refine to enjoy eternal life Mark's barber summarized this by saying Mark is where God is trying to bring the rest of us

Maritime Power and the Law of the Sea: James Kraska, 2011-01-19 In *Maritime Power and the Law of the Sea* Expeditionary Operations in World Politics Commander James Kraska analyzes the evolving rules governing freedom of the seas and their impact on expeditionary operations in the littoral near shore coastal zone Coastal state practice and international law are developing in ways that restrict naval access to the littorals and associated coastal communities and inshore regions that have become the fulcrum of world geopolitics Consequently the ability of naval forces to project expeditionary power throughout semi enclosed seas exclusive economic zones EEZs and along the important sea shore interface is diminishing and as a result limiting strategic access and freedom of action where it is most needed Commander Kraska describes how control of the global commons coupled with new approaches to sea power and expeditionary force projection has given the United States and its allies the ability to assert overwhelming sea power to nearly any area of the globe But as the law of the sea gravitates away from a classic liberal order of the oceans naval forces are finding it more challenging to accomplish the spectrum of maritime missions in the coastal littorals including forward presence power projection deterrence humanitarian assistance and sea control The developing legal order of the oceans fuses diplomacy strategy and international law to directly challenge unimpeded access to coastal areas with profound implications for American grand strategy and world politics
