Sex Trafficking of Children Online Beatriz Susana Uitts,2022-07-20 This book addresses child sex trafficking in the era of digital technology As a global problem human trafficking frequently victimizes the most vulnerable children Offenders often use the Internet as a vehicle for criminal activities including acts to sexually exploit them With Internet access growing exponentially more children are online every day increasing their risk of becoming involved in sexual exploitation or being treated as a commodity Inconsistent law among countries and the lack of adequate cooperation across borders make combating this issue increasingly difficult Using a human rights approach this book offers alternative solutions and recommendations including establishing a legal protection framework to fight practices that sexually exploit children in cyberspace In addition it promotes multi stakeholder collaboration in the context of corporate social responsibility to prevent and combat these offenses This book explores the intersection of children s human rights online sex trafficking and international legislation It provides helpful insights for lawmakers legal practitioners scholars law enforcement officers child advocates and students interested in human rights law criminal law and child protection **Anthropology and**

Psychoanalysis Ariane Deluz,Suzette Heald,2002-09-11 In Anthropology and Psychoanalysis the contributors both practising anthropologists and psychoanalysts explore in detail the interface between the two disciplines and locate this within the history of both anthropology and psychoanalysis In particular they deal with the distinctive reactions of British French and American anthropology to psychoanalysis and the way in which the present fracturing of each of these national traditions and their post modern turn has led to a new willingness to investigate the relationships between the disciplines and the role of the unconscious in cultural life They also address important issues of methodology and present a critical discussion of the concept of culture and the academic specialisation of knowledge Anthropology and Psychoanalysis will be invaluable reading to all anthropologists and psychoanalysts **Journal** California. Legislature,1860 **Dating, Mating, and Marriage**

Martin King Whyte,2018-02-06 This book examines the American system of dating mate choice and marriage It analyzes a

wide range of established ideas about how dating and mate choice are changing and identifies changes and continuities in premarital experiences in twentieth century America A variety of ideas about what sorts of dating and premarital experiences will make for a successful marriage are tested and for the most part disproven raising serious doubts about our fundamental assumption that dating experience helps individuals make a wise choice for a future mate Marital success turns out to depend not so much on premarital experiences or on the social background characteristics of couples such as race religion and social class as on the way in which couples structure their day to day marital life together Through its detailed examination of a wide range of ideas and predictions about dating mating and marriage and through its dramatic findings Dating Mating and Marriage challenges many previous assumptions and conclusions about the fate of American marriage and elevates our knowledge of the American system of mate choice to a higher level **The Bride's Wedding Music**

Chrisman,1920 **The Hidden Child Brides of the Syrian Civil War** Simona Strungaru,2024-04-17 This book provides a comprehensive account of one significantly underreported aspect of violence affecting young refugee girls today that of forced child marriage It examines the ongoing insidious practice via the lens of international human rights laws and contextualising human rights laws and discourses in relation to Middle Eastern Islamic and Jordanian understandings of international law and human rights where the practice is directly impacting young Syrian refugee girls who are seeking refuge in Jordan with their displaced families The book finds that in a juxtaposition of human rights definitions and obligations between the traditional and modern the religious and the secular there are mixed implications for the realisation of universal human rights and that this has consequences for the most vulnerable child refugees As a result Syrian children exist in a precarious situation They are living in a foreign state with an unclear legal status are largely unidentified and in effect stateless It is in this liminal space that Syrian children are vulnerable and voiceless and highly exposed to forced

marriages and the resultant violence and possibly death While allowed to continue the practice of child marriage not only severely impedes upon progressive international human rights efforts to eliminate gender based violence slavery and discrimination but significantly impacts on children s physical mental and emotional health and their opportunities for growth and development in society As a case study this book seeks to inform how vulnerable Syrian children have come to be increasingly confronted by child marriage and to consider why it occurred and continues to occur even though the idea of children being forcibly marriage is considered ethically and legally objectionable within international human rights law
