Chinese Among Others Philip A. Kuhn,2008

New Developments in Asian Studies Paul van der Velde,Alex McKay,1998 This wide ranging volume presents new developments in Asian studies across many fields and

periods of history The geographical scope of the work ranges from Gujerat to the mountains of western Japan and from Tibet to Madagascar They cover a time scale from tenth century China to the present situation in the Pacific Rim and deal with such political issues as minority rights and legal reforms and analyses of academic discourse in Asia *Chinese New Migrants in Suriname* Paul B. Tjon Sie Fat, 2009 This book covers various aspects of New Chinese Migration in Suriname in the 1990s and early 2000s It is an ethnography of New Chinese Migrants in the context of South South migration but also a first ethnography of Chinese in Suriname as well as an analysis of Surinamese ethnic discourse and ethnopolitics Starting in the 1990s renewed immigration from China changed the dynamics of the Surinamese Chinese community which developed from a Hakka enclave to a culturally and linguistically diverse modern Chinese migrant group Local positioning strategies of Chinese had always depended on ethnic entrepreneurship and political participation but were now complicated by anti immigrant sentiments European Newsletter of Southeast Asian Studies, 1998 Beyond Informality Douglas de Toledo Piza, 2025-08-19 Chinese migrants are playing increasingly large stratified roles in the informal economies of South America One of the clearest examples of this phenomenon is in the region's largest informal economy of counterfeit and smuggled goods spanning from Ciudad del Este the Paraguayan border city to S o Paulo Brazil's largest metropolis Here Chinese vendors on the one hand are some of the most marginalized workers facing a doubly difficult landscape due to their precarious immigration status and their illegal economic activities They bear the brunt of working on the margins of the law and as a result do not always reap the benefits of their own labor A transnational elite of Chinese businesspeople on the other hand profits and profiteers from the booming market They leverage their economic social and political power to bend the law to their favor and get away with irregularities violations and criminal behavior In *Beyond Informality* Douglas de Toledo Piza reveals the complex ways these actors interact with each other and how the law shapes those interactions He argues that structural inequalities in the global economy push Chinese migrants to South America while placing them surprisingly in positions to overhaul markets and tip the scales of deep seated power structures in the Global South **Conflict and Innovation: Joint Ventures in China** Leo Douw, Kwok-bun Chan, 2006-06-01 This book features China's newly emergent transnational management culture It uses established and new methodologies to analyze how different types of Sino foreign joint enterprises manage cultural differences between various layers of managers and employees while negotiating strategies that contain conflicts uncertainties and frustrations Much of the book focuses on the relations among personnel and management within Sino foreign businesses It highlights how new elements have been introduced in the daily practices of management at the work floor and in the managerial offices specifically in relation to improving human resource development and resolving conflicts The book also examines how these transnational firms function in the broader context of Chinese society and politics In providing freshly researched cases and methodological studies by experienced researchers in the field the book suggests alternative pathways toward innovative business management in China thus making it attractive

to academics and business managers alike **Ambition and Identity** Andrew R. Wilson, 2004-02-28 What binds overseas Chinese communities together Traditionally scholars have stressed the interplay of external factors discrimination local hostility and internal forces shared language native place ties family to account for the cohesion and Chineseness of these overseas groups Andrew Wilson challenges this Manichean explanation of identity by introducing a third factor the ambitions of the Chinese merchant elite which played an equal if not greater role in the formation of ethnic identity among the Chinese in colonial Manila Drawing on Chinese Spanish and American sources and applying a broad range of historiographical approaches this volume dissects the structures of authority and identity within Manila's Chinese community over a period of dramatic socioeconomic change and political upheaval It reveals the ways in which wealthy Chinese merchants dealt in not only goods and services but also political influence and the movement of human talent from China to the Philippines Their influence and status extended across the physical and political divide between China and the Philippines from the villages of southern China to the streets of Manila making them a truly transnational elite Control of community institutions and especially migration networks accounts for the cohesiveness of Manila's Chinese enclave argues Wilson and the most successful members of the elite self consciously chose to identify themselves and their progenies as Chinese **In the Face of Diversity** Nathan D. Gardner Molina, 2025-05-01 The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from across the country over five decades that draws on the English and Chinese language materials these organisations have produced over the years as well as interviews with ten past and present leaders Instead of a single community the evidence demonstrates the existence of many diverse Chinese Australian communities Consequently the book advances two ideas Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations Imagining the Chinese Australian community has nonetheless produced real world outcomes the most prominent being a highly participatory style of Australian multiculturalism These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities I Am You Are We Are conveys Chinese Australian history in clear and evocative prose while remaining academically authoritative and socially conscious The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions

made by Chinese Australian communities **Dear China** Gregor Benton, Hong Liu, 2018-07-24 Qiaopi is one of several names given to the silver letters Chinese emigrants sent home in the nineteenth and twentieth centuries. These letters cum remittances document the changing history of the Chinese diaspora in different parts of the world and in different times. Dear China is the first book-length study in English of qiaopi and of the origins, structure, and operations of the qiaopi trade. The authors explore the characteristics and transformations of qiaopi, showing how such institutionalized and cross-national mechanisms helped sustain families separated by distance and state frontiers and contributed to the sending regions' socioeconomic development. Dear China contributes substantially to our understanding of modern Chinese history and to the comparative study of global migration.

Contested Community Miriam Herrera Jerez, Mario Castillo Santana, 2017-02-13 In Contested Community the authors analyze the Chinese immigrant community in Cuba between the years 1900-1968. While popular literature of the era portrayed the diasporic group as a closed, inassimilable ethnic enclave, closer inspection instead reveals numerous economic, political, and ethnic divisions. As with all organizations, asymmetrical power relations permeated Havana's Barrio Chino and the larger Chinese Cuban community. The authors of Contested Community use difficult-to-access materials from Cuba's national archive to offer a unique and insightful interpretation of a little-understood immigrant group.
