Quantum Leap Camikazi Kid:

Time-Travel Television Sherry Ginn, Gillian I. Leitch, 2015-10-08 Stories of time travel have been part of science fiction since H G Wells sent his nameless hero hurtling into Earth's distant future in *The Time Machine*. Time travel enables the storyteller to depict alternate realities, bring fictional characters face to face with historical figures and depict moral and ethical dilemmas in which millions of lives or the world as we know it are at stake. From *Doctor Who* and *Quantum Leap* to the multiple incarnations of *Star Trek*, time travel has been a staple of science fiction television for more than fifty years. *Time Travel Television: The Past from the Present, the Future from the Past* surveys the whole range of time travel stories on the small screen. The essays in this collection explore time travel series both familiar (*Babylon 5*, *Stargate SG-1*) and forgotten (*The Time Tunnel*, *Voyagers*) as well as time travel themed episodes and arcs in series where it is not central such as *Red Dwarf*, *Lost* and *Heroes*. Contributors to this volume consider some of the classic themes of time travel stories: the promise and peril of fixing the past, the chance to experience and choose possible futures, and the potential for small changes to have great effects. Exploring time travel as a teaching tool, as a vehicle for moral lessons, and as a background for high adventure, this book offers new perspectives on many familiar programs and the first serious study of several unjustly neglected ones. *Time Travel Television* is essential reading for science fiction scholars and fans and for anyone interested in the many ways that television brings the fantastic into viewers' living rooms.

Sherlock Holmes Is Like: Sixty Comparisons for an Incomparable Character Christopher Redmond, 2019-01-07 What do Superman, Gertrude Stein, the Beatles, Lord Shiva, the Wizard of Oz, and Hermione Granger have in common? They share essential characteristics with iconic detective Sherlock Holmes. Explored in *Sherlock Holmes Is Like: Sixty Comparisons for an Incomparable Character*. In his introduction, editor Christopher Redmond says: "The essays in this collection are not an analysis of what Sherlock Holmes is like; brilliant, unsociable, hawk-nosed, but rather case studies of whom he can be said to be like. Their sixty suggestions range across centuries and continents and include figures from belief and legend as well as from contemporary fiction and film. Some are household names, while others will be unknown to nearly all readers. In each case, while the author has been encouraged to provide an introduction to the character in question, the ultimate purpose of the comparison is to shed light on some aspect of the character of Sherlock Holmes, whose complexities are far from exhausted more than 130 years after he
