Razones Y Las Obras:

Las razones y las obras , **Obras Completas** Jaime Luciano Balmes,1925 **Feeding Mexico** Enrique C.

Ochoa,2001-09-01 Winner of the 1998 Michael C Meyer Manuscript Prize Feeding Mexico The Political Uses of Food since 1910 traces the Mexican government s intervention in the regulation production and distribution of food from the days of Cardenas to the recent privatization inspired by NAFTA Professor Ochoa argues that the real goals of the government s food subsidies were political driven by presidential desires to court urban labor Many of the agencies and policies were hastily set in place in response to short term political or economic crises Since the goals were not to alleviate poverty but to provide modest subsidies to urban consumers the policies did not eliminate destitution or malnutrition in the country Despite the minimal achievements of these interventionist policies the State Food Agency provided a symbol of the state s concern for the workers The elimination of the Agency in the 1990s prompted social protest and unrest Feeding Mexico is the first study to examine the creation of networks to deliver food products the relationship of these channels of distribution to the food crisis and the role of the state in trying to ameliorate the problem Based on exhaustive research of new archival material and richly documented with statistical tables this book exposes the dynamics and outcome of social policy in twentieth century Mexico

Market Reforms in Mexico Mark Eric Williams,2001-07-17 The last two decades saw a host of governments abandon statist development models for more market friendly ones However not all reform attempts fared equally well Why do some governments succeed in implementing market reforms while others fail Why might the same government succeed in one policy area but not another Market Reforms in Mexico explores these central questions by examining Mexico s reform experience in privatization deregulation and environmental policy More than simply a book on Mexican politics this study speaks to the broader political dynamics behind the success or failure to implement reforms first by assessing new policy initiatives in multiple arenas across presidential administrations in Mexico then by comparing Mexico s privatization experience to that of Argentina s Through structured focused comparison of select case studies the author argues that the fate of dramatic reform initiatives turned on coalition politics both inside and outside the state and explains how institutional dynamics and the capacity to solve the problem of policy costs strongly affected reformers prospects of success
