Sudhansu S. Tunga,2023-10-11 It is our common belief and conviction for most people that God created this universe and all that it possesses including mankind This knowledge is obtained from the religious literature of most religions which is hardly five thousand years old But the universe was born 13.8 billion years earlier and man has appeared on earth just two hundred thousand years ago At that time there was no God Religious beliefs stand upon man's ignorance and superstitions not on any sound scientific examination ascribing that it is man who has created God in his fancy and not the other way round Therefore the concept of God and religion should be forsaken for the betterment of all The book deals with this subject in an objective and rational way analyzing all the relevant literature including religious books history archaeology as also physical sciences and other relevant subjects **If God Made the Universe, Who Made God?** Holman Bible Publishers,2012-02-01 Perhaps you remember being in a university class feeling frustrated when the respected professor dismissed questions from a student because of her religious faith Or maybe over a business lunch one of your colleagues referred to Christianity as a fairytale

and you said nothing Many Christians find themselves in such situations but don't speak up because they don't fully realize the strength of their own position They feel incapable of giving reasons for the hope that is theirs Christian apologetics is the discipline and growing body of knowledge that equips believers to address their own doubts to converse with seekers and critics from a position of strength and to bear witness to Christ with confidence In the spirit of the title question If God Made the Universe Who Made God collects 130 essays written in defense of the Christian faith Contributors include some of the pre eminent apologists of our time from Lee Strobel and Charles Colson to Hank Hanegraaff J P Moreland and Ravi Zacharias The content is grouped into ten topics Apologetics Introductory Issues Jesus Christ Science and Faith Cults and World Religions The Existence of God Ethics Theology The Scriptures Heaven and Hell Evangelism Who Made God? political philosophers in the Western tradition This volume provides an unequalled introduction to the thought of chief contributors to the Western tradition of political philosophy from classical Greek antiquity to the twentieth century Written by specialists on the various philosophers this third edition has been expanded significantly to include both new and revised essays Fethullah Gulen Jon Pahl,2019-04-22 In this first critical biography of Fethullah Gulen in English historian Jon

Pahl takes us on a journey where we discover wisdom and controversy from 1940 s Turkey to the U S in the twenty first century Pahl tells the story of a pious Muslim boy from a tiny and remote Turkish village who on the one hand has inspired a global movement of millions of individuals dedicated to literacy social enterprise and interreligious dialogue but who on the other hand has been monitored by Turkish police seen as a threat by autocrats and recently declared number one enemy by the current Turkish dictator With lively prose and extensive research Pahl traces Fethullah Gulen s life and thought in its contexts states clearly his own positions and then lets readers draw their own conclusions from the evidence about this undeniably significant historical figure

Reason of the Hope Ronie F. Magcamit,2020-04-08 For many years the secular world has treated the word faith as a jargon that cannot be proven by anything tangible People who still believe in God are considered unreasonable and lack understanding of the real world Sadly some Christians who join churches rely on blind faith with no or very minimal ability to defend their beliefs when they get cross examined by a non believer In Reason of the Hope author Ronie F Magcamit focuses on ten major faith related topics or issues asked by young Christians and secular people He discusses the reliability of scriptures creation versus evolution end time events reformation ten commandments apologetics life and miracles of Jesus teachings in parables the resurrection of Christ and the second coming of Jesus Ronie presents some of the usual objections to Christianity and provides practical responses for a new generation of Christians Reason of the Hope encourages you to build your faith in Christ and enables you to help others build their faith as well

If Only God Used His Brain Snofla Sacul,2011-08-15 In order to understand this provocative article as my personal analogy that is concerning my outlook on life and religion especially my critical view referring to the creation of our universe and life including all diseases here on earth I will try my best to present my analogy in a most rational way explaining all the short comings in reference to our life including my belief in the Judeo Catholic religion I will especially scrutinize the Judeo Christian religion to which I was introduced in my childhood Unfortunately history and my passed life are now in a distant passed Yes I soon realized that I had to change my stalemated view on life to which I was introduced in my childhood I had to bring it to a platform of a new concept to view Nature and religion from a different angle to a platform of reality As for myself I sense a negative opinion as to my most open and forward references concerning religion and God Some may call me The Diablo s Incarnates Surely each one of us has the privilege to his own opinion This book has no intention to change anyone s mind Its porpoise is to expose the hidden truth which may never be exposed to you otherwise I also would like to point out that in many instances I have repeated myself only to accentuate and highlight the subject in a given paragraph In

anticipated criticism and religious hate I am asking to stay anonymous for various reasons If truth is the reason to hate and cause mental unhappiness then one must have objection to the existence of God as God is the only truth **The World Without God** Madhav Desai,2014-11-28 Sufficient scientific evidence has emerged for the science minded people to accept that our universe was created and is run without God And that life was created and has evolved without external power The concept of God was mans creation and in the dark ages before science it was inevitable that man should create God But those who accept in the face of the scientific discoveries that God does not have to exist to explain the existence of universe or life on Earth are now faced with an important question Is there a God that plays a role in the personal life of every individual If we delete God from all other explanations is it rational to still believe in an entity that micromanages the lives of all individuals on the Earth Is it possible to visualize how the world and our lives could go on without somebody up there who listens to our prayers intervenes in our lives and rewards or punishes our deeds The World without God is a thought provoking treatise which describes this universe and the human life without depending on concepts like the existence of God the divine mission destiny divine justice soul with existence independent of the body and life after death **Who Made God, Anyway?** Portia Turner Merriweather,2020-08-28 Christian teenagers often face a variety of challenges in life that prompt introspective questions about faith and God s role in their lives Buoyed by the belief the answer to every spiritual and secular question can be found in the Holy Bible Portia Turner Merriweather asked teens to submit their most perplexing questions to test her theory Within an easy to understand resource Merriweather utilizes a modified scientific method to investigate the Bible prove her hypothesis and ultimately provide the answers to seventy challenging questions posed by teens such as Can I be sure of my salvation and What is the purpose of life or How bad can vaping be and Why does God allow suffering After each question Merriweather shares biblical answers and concise explanations that invite teens to apply scripture as inspiration to not only solve daily challenges but also build a solid foundation created from God s Word Who Made God Anyway is a spiritual guide for teens that inspires godly living while providing clear biblical answers to seventy introspective questions about faith and life The Radiance of God Tucker Boaz,2025-05-29 Every day our brain is inserted with thousands of new and pertinent data One of the categories of data is our concept of God This concept of God recorded in our youth is now being crowded into a smaller and smaller proportion of what is logged While many bits of information get lost or lose their prominence our concept of God lingers on but gets challenged It continues to shine through as spiritual This booklet explains how and why this spiritual component gets brighter through consecutive generations The Palpable Universe Mohammed Muflahi,2014-03 In a feeble attempt to deceive mankind Stephen W Hawking and Richard Dawkins among others of their ilk have painstakingly persevered in creating a Godless society in the hope intelligent people will accept the theory of evolution as the source that caused the universe to exist Bringing forward arguments they create a multitude of problems they cannot answer resulting in guesses and lies Not knowing where we came from and why we are

here scientists will never cease their search for the Truth I have written this book in refutation of their claims and expounded on the subject for clarification This is Not Just a Painting Bernard Lahire, 2019-04-15 In 2008 the Musée des Beaux Arts de Lyon acquired a painting called *The Flight into Egypt* which was attributed to the French artist Nicolas Poussin Thought to have been painted in 1657 the painting had gone missing for more than three centuries Several versions were rediscovered in the 1980s and one was passed from hand to hand from a family who had no idea of its value to gallery owners and eventually to the museum A painting that had been sold as a decorative object in 1986 for around 12 000 euros was acquired two decades later by the Musée des Beaux Arts de Lyon for 17 million euros What does this remarkable story tell us about the nature of art and the way that it is valued How is it that what seemed to be just an ordinary canvas could be transformed into a masterpiece that a decorative object could become a national treasure This is a story permeated by social magic the social alchemy that transforms lead into gold the ordinary into the extraordinary the profane into the sacred Focusing on this extraordinary case Bernard Lahire lays bare the beliefs and social processes that underpin the creation of a masterpiece Like a detective piecing together the clues in an unsolved mystery he carefully reconstructs the steps that led from the same material object being treated as a copy of insignificant value to being endowed with the status of a highly prized painting commanding a record breaking price He thereby shows that a painting is never just a painting and is always more than a piece of stretched canvass to which brush strokes of paint have been applied this object and the value we attach to it is also the product of a complex array of social processes with its distinctive institutions and experts that lies behind it And through the history of this painting Lahire uncovers some of the fundamental structures of our social world For the social magic that can transform a painting from a simple copy into a masterpiece is similar to the social magic that is present throughout our societies in economics and politics as much as art and religion a magic that results from the spell cast by power on those who tacitly recognize its authority By following the trail of a single work of art Lahire interrogates the foundations on which our perceptions of value and our belief in institutions rest and exposes the forms of domination which lie hidden behind our admiration of works of art
