Management Consulting Stephen J. Porth,Michael Saltis,1999-04-30 This book is written and designed with two distinct but in many ways related audiences in mind First and foremost it is written for the practicing consultant Research and specialized knowledge of small business consulting are scarce at a time when both the size and economic impact of the small business sector is growing and the demand for consulting services flourishes This book is designed to help consultants understand the needs of small businesses and to succeed in their small business interventions Practical experience based strategies and tools are described for use in the field In addition we have written the book for those who want to learn more about management consulting especially students This book may be used as a resource in management consulting project management and other experiential business courses These types of courses where students manage a project and interact with a live organization client are part of a growth market on college campuses as more business schools respond to the call to make their curricula real and practical *The Oxford Handbook of Management Consulting* Matthias Kipping,Timothy Clark,2012-03-29 Management consultants of various kinds play an important role in the world of business and other organizations This Handbook provides a comprehensive overview of research and thinking on the role history and function of management consultants Management Consulting Matthias Kipping,Lars Engwall,2002-06-20 This volume makes an important contribution to the growing literature on management consulting It brings together international contributors from a wide variety of backgrounds and draws on recent empirical research from a diverse range of countries consultancy firms and client companies The analysis focuses on three key areas The first part of the book looks at the emergence and development of the consulting industry in different countries and time periods The interplay between national systemic context and outside influences is stressed and the efforts of consultants to become recognized as legitimate knowledge carriers by their clients is highlighted in competition and sometimes cooperation with other suppliers of management knowledge notably academia The volume goes on to consider the generation management and validation of consulting knowledge by consultancy organizations and management gurus showing how these activities are influenced not only by the consultancies own characteristics in terms of size structure and national origin but also by the national and cultural context in which they are operating and by the role of gatekeepers such as book publishers or journalists The third part of the book focuses on the nature and dynamics of the consultancy client relationship focusing especially on the ways in which consultants convince managers of the need to hire outside advisors on the reaction of those concerned in the client organization towards the consultants recommendations and on the methods used by the consultants to overcome the possible reluctance and resistance from within the organization From a more theoretical point of view the chapters in this volume also show that research on management consulting has to take into account different levels of analysis the consulting industry as

a whole and its position relative to other knowledge providers such as academia the specific consultancy organization and its relationships with internal and external sources of knowledge and the particular consultancy project and notably the interplay between the consultants and the various stakeholders within and outside the client organization

Current Trends in Management Consulting Anthony F. Buono, 2001-10-01 Volume One in this series focuses on current trends in the management consulting industry It is divided into three sections 1 a look at some of the broad changes taking place in the management consulting industry 2 an examination of recent trends and techniques in the practice of management consulting and 3 reflections on the current state of affairs in the industry As this brief overview has hopefully captured the first volume in this series provides ample insight into and differing perspectives on the multi faceted world of management consulting Thanks are due to all the authors for their thoughtful work good natured collegueship and willingness to contribute their thoughts and insights about the consulting field This volume would not have been possible without their efforts

Current Business Reports ,1997 The Client-Consultant Relationship in Professional Business Service Firms Natalia Nikolova,2019-02-02 The interaction between clients and consultants during consulting projects is essential for their success and therefore for the long term survival of consulting companies The aim of this book is to further advance our understanding of the nature of client consultant relationships Building upon a critical discussion of the contributions and shortcoming of existing research Natalia Nikolova proposes an innovative conceptual model which provides a critical yet constructive platform for the development of a more differentiated view of professional work The framework concentrates on the cultural and political relations between clients and consultants during service production It represents a prolific platform for further research and provides practitioners with an increased awareness of hitherto under explored issues of client consultant relationships This book is aimed at scholars of professional business service firms and those interested in multidisciplinary studies of human relations in general It will also appeal to students interested in these areas and to clients and consultants involved in consulting projects

Towards Competition in Network Industries Paul J.J. Welfens,George Yarrow,Ruslan Grinberg,Cornelius Graack,2012-12-06 Competition in network industries faces particular problems which are analyzed from both a theoretical and policy perspective Issues of vertical integration deregulation and privatization are covered While competition and privatization are rapidly unfolding in telecommunications in Western and Eastern Europe energy and railway transportation represent sectors of more gradual liberalization The different market characteristics of telecommunications energy and transportation raise consistency problems in the fields of deregulation investment strategies and internationalization While transformation policies create opportunities for liberalization in Eastern Europe and Russia the latter shows critical problems in ending monopoly and state ownership Network industries could be subject to competition and promise major investment opportunities plus consumer benefits

Organisational Change: Development and Transformation Dianne Waddell,Andrew Creed,Thomas G. Cummings,Christopher G. Worley,2019-08-01 Change Management is a crucial process for gaining the competitive advantage that is the goal of many organisations Leaders and change agents are often faced with conflicting challenges of motivating and understanding increasingly diverse workforces accounting to stakeholders and planning for the future in a chaotic environment Organisation Change Development and Transformation 7e takes both an organisational development and transformational approach to change to reflect the environment of change faced by organisations today With the field of organisational change continuing to evolve especially in an international context future directions of change management are also discussed To emphasise the relationship between theory to practice this text provides 10 local and
