Management Of Radioactive Wastes Issues For Local Authorities:

Management of Radioactive Waste Stewart Kemp,1991 Radioactive waste poses one of the most divisive environmental problems of the 1990s This book explores key issues facing local government including the implications of current proposals to develop a deep disposal facility for low level and intermediate level radioactive waste **Management of Radioactive Wastes** F. Barker,1998 The catalyst for the conference which gave rise to these proceedings was the decision of the former UK Government to block further investigation by the nuclear waste agency UK Nirex Ltd for a national radioactive waste repository near the Sellafield site This decision made it essential to reconsider the question Where next for radioactive waste management The papers in this volume pinpoint the key issues that need to be addressed

Management of Radioactive Waste Stewart Kemp,1991 Annotation Radioactive waste poses one of the most divisive environmental problems of the 1990s This book explores key issues facing local government including the implications of current proposals to develop a deep disposal facility for low level and intermediate level radioactive waste *The proposals for national policy statements on energy* Great Britain: Parliament: House of Commons: Energy and Climate Change Committee,2010-03-23 proposals for national policy statements on Energy Third report of session 2009 10 Vol 2 Oral and written Evidence Nuclear Waste Politics Matthew Cotton,2017-07-14 The question of what to do with radioactive waste has dogged political administrations of nuclear powered electricity producing nations since the inception of the technology in the 1950s As the issue rises to the forefront of current energy and environmental policy debates a critical policy analysis of radioactive waste management in the UK provides important insights for the future Nuclear Waste Politics sets out a detailed historical and social scientific analysis of radioactive waste management and disposal in the UK from the 1950s up to the present day drawing international comparisons with Sweden Finland Canada and the US A theoretical framework is presented for analysing nuclear politics blending literatures on technology policy environmental ethics and the geography and politics of scale The book proffers a new theory of ethical incrementalism and practical policy suggestions to facilitate a fair and efficient siting process for radioactive waste management facilities The book argues that a move away from centralised high capital investment national siting towards a regional approach using deep borehole disposal could resolve many of the problems that the high stakes inflexible megaproject approach has caused across the world This book is an important resource for academics and researchers in the areas of environmental management energy policy and science and technology studies Parliamentary Assembly, Working Papers BERNAN ASSOC,2008-06-30 Nuclear Waste Disposal: Additional material United States.
