Managing Crisis And Change In Health Care The Organizational Response To Hiv Aids:

Managing Crisis and Change in Health Management Chris Bennett, Ewan Ferlie, 1994 **Managing Crisis and Change in Health Management** Chris Bennett, 1994 Managing AIDS Patrick Kenis, Bernd Marin, 2018-12-20 First published in 1997 this volume examines how in the last 15 years HIV AIDS has become a challenge for public health public policy and research Reducing further HIV transmissions as well reducing the personal and social impact of HIV AIDS requires a wide range of activities developed by a wide range of organizations the supply of which varies widely between countries regions and social groups The book describes the programmes which seem particularly effective in dealing with HIV AIDS and sets out to explain the disparities in their distribution It documents and tries to understand both similarities as well as the variety of national approaches taken to cope with HIV AIDS in a number of European countries On the basis of the welfare mix model six country studies and an introductory chapter draw particular attention to the different mixes of public policies and private non profit community based activities the functional mixes between different types of services in the areas of prevention care research control and monitoring interest representation fund raising The mixes between specialized so called exclusive HIV AIDS service organizations and services made available by general comprehensive or so called inclusive institutions which provide AIDS specific programmes among other activities will also be elaborated The whole range of HIV AIDS activities from professional services to self help is analysed in a comparative perspective The book is based on data from the European Centre WHO Collaborative Study Managing AIDS It is a comparative policy study focused on the role of non profit organizations in public health and welfare policy covering several thousands of organizations and HIV AIDS programmes in six European countries Unexpected similarities and divergence in AIDS service organizations across Europe were found The sheer multitude of programmes offered called a surprise to experts in the field as did remaining conspicuous blank spots or deficiencies in services Degrees of AIDS policy coherence prevention efforts service density and quality self help and professionalization medicalization vs social integration of HIV AIDS programmes sectoral specialization and institutionalization all vary tremendously as do the efficiency and effectiveness of organizational responses to HIV AIDS Interestingly variations in the supply of activities can hardly be explained by epidemiological patterns and corresponding demand and needs AIDS management requires long term institutional strategies and information which cannot be provided by epidemiological or behavioural analysis alone An effective struggle against HIV AIDS also requires institution building inter organizational development and policy field analysis **AIDS Bibliography**, 1994 **Making Wicked Problems Governable?** Ewan Ferlie, 2013-03-28 The book analyses the developments of inter organizational networks in the UK National Health Service during the New Labour period combining empirical case studies from various policy arenas clinical genetics cancer networks sexual health networks and long term care with a theoretically informed analysis *Strategic Management in Public Services Organizations* Ewan Ferlie, Edoardo Ongaro, 2015-02-20 Strategic Management in Public

Services Organizations sets out to connect the two traditionally disparate academic literatures of public management and strategic management. The authors argue that some models of strategic management are now of enhanced relevance for contemporary public services organizations especially when considering successive New Public Management reforms. This observation has important consequences for the requisite work practices, skills and knowledge bases of current public managers as they are increasingly being asked to act as strategic as well as operational managers. Strategic Management in Public Services Organizations takes a strongly comparative and international perspective in addressing the fundamental issue of strategic management within diverse public administrative traditions. The impact of strategic management on the performance of public agencies is examined and it is argued that the appropriate use of strategic management models depends on the politico-administrative and cultural contexts of the public services organization in question, concluding that there is no single best way to strategically lead public organisations. This is an advanced textbook aimed at the postgraduate level, particularly students on MPAs and MBAs with a public sector option or MScs in Public Policy and Public Management.

Shaping Health Policy Mark Exworthy, 2012. This collection, written by leading health policy researchers, examines the role that case studies play in British health policy, covering key health policy literatures in the policy process, analytical frameworks and seminal moments of the NHS. *Ibss: Political Science: 1994* British Library of Political and Economic Science at the London School of Economics, 1995-12-08. The IBSS is the essential tool for librarians, university departments, research institutions and any public or private institution whose work requires access to up-to-date and comprehensive knowledge of the social sciences. [Encyclopedia of Government and Politics](#) M. E. Hawkesworth, Maurice Kogan, 2004. This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium. Providing a penetrating analysis of government and politics at a global, regional and nation-state level, the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research. The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject. Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life. With its expanded, revised and updated coverage, Encyclopedia of Government and Politics is more than ever an indispensable tool for students, teachers, professional analysts and policy makers. *Disease and Democracy* Peter Baldwin, 2005. A historical masterpiece. Just when we thought we knew everything about the politics and policies of the HIV/AIDS pandemic, Peter Baldwin surprises us with innovative insights about the sharp differences in policy among countries as well as complex tradeoffs between civil liberties and public goods. This is a refreshing and readable book in which AIDS is used as a lens to understand the public health enterprise ranging from leprosy and syphilis to tuberculosis and SARS. Baldwin offers a deeply historical and comparative understanding of HIV in the

industrialized world Lawrence O Gostin author of Public Health Law Power Duty Restraint Although a vast literature has emerged to chronicle and reflect on the history of the AIDS epidemic since it was first reported almost a quarter of a century ago there is nothing like Peter Baldwin's probing and synthetic analysis of AIDS in the industrialized world Building on his masterful Contagion and the State in Europe 1830 1930 Baldwin has provided a complex historical tapestry of how an epidemic threat has challenged and exposed democracies that thought infectious threats a thing of the past Ronald Bayer author of Private Acts Social Consequences Aids and the Politics Of Public Health and coauthor with Gerald Oppenheimer of AIDS Doctors Voices from the Epidemic

AIDS in the UK Virginia Berridge, 1996 Fifteen years ago the AIDS epidemic did not exist on the public agenda In just over a decade the public and official response to the disease has resulted in the development of a whole network of organizations devoted to the study containment and practical treatment of AIDS In this important and original analysis of AIDS policy Virginia Berridge examines the speed and nature of the official and unofficial response to this new and critical historical event The policy reaction in Britain passed through three stages From 1981 1986 the outbreak of a new contagious disease led to public alarm and social stigmatization with a lack of scientific certainty about the nature of the disorder AIDS was a new and open policy area there were no established departmental local or health authority mechanisms for dealing with the problem This was a period of policy development from below with relatively little official action and many voluntary initiatives behind the scenes This phase was succeeded in 1986 1987 by a brief stage of quasi wartime emergency in which national politicians and senior civil servants intervened and a high level political response emerged That response was a liberal one of safe sex and harm minimization rather than draconian notification or isolation of carriers The author demonstrates that despite the Thatcher revolution in government in the 1980s crisis could still stimulate a consensual response The current period of normalization of the disease sees panic levels subsiding as the rate of growth slows and the fear of the unknown recedes Official institutions have been established and formal procedures adopted and reviewed paid professionals have replaced the earlier volunteers The 1990s have seen change in the liberal consensus towards a harsher response and the partial repoliticization of AIDS In this fascinating and scholarly account Virginia Berridge analyses a remarkable period in contemporary British history and exposes the reaction of the British political and medical elites and of the British public to one of the most challenging issues of this century

Success and Failure in Public Governance M. A. P. Bovens, Paul T'Hart, B. Guy Peters, 2002-01-01 Why do some policies succeed so well while others in the same sector or country fail dramatically The aim of this book is to answer this question and provide systematic research on the nature sources and consequences of policy failure The expert contributors analyse and evaluate the success and failure of four policy areas Steel Health Care Finance HIV and the Blood Supply in six European countries namely France Germany the Netherlands the UK Spain and Sweden The book is therefore able to compare success and failure across countries as well as policy areas enabling a test of a variety of theoretical assumptions about policy making and

government Private Organisations in Global Politics Karsten Ronit, Volker Schneider, 2000 This study brings together a broad range of empirical case studies on topics of interest such as environmental movements human rights organizations and the international women's movement

Encyclopedia of AIDS Raymond A. Smith, 1998-08-27 The Encyclopedia of AIDS covers all major aspects of the first 15 years of the AIDS epidemic including the breakthroughs in treatment announced at the International AIDS Conference in July 1996 The encyclopedia provides extensive coverage of major topics in eight areas basic science and epidemiology transmission and prevention pathology and treatment impacted populations policy and law politics and activism culture and society and the global epidemic With more than 300 entries written by 175 specialists and illustrated with more than 100 photographs and charts the Encyclopedia of AIDS is an essential reference work for students at the undergraduate and graduate levels professionals in a wide variety of medical service and care fields academics researchers journalists and general readers

Organizing Aids Derek Adam-Smith, David Goss, 2005-06-28 It is estimated that 90% of those who are HIV positive are in employment However the significant body of literature into HIV AIDS to date has primarily focused on the medical aspects of the disease and its implications for health social policy There has been little analysis of the employment implications of HIV AIDS and what does exist is essentially descriptive and usually limited to legal features of the employment relationship This text provides a review of the theoretical and practical issues which bear upon organisational responses to HIV AIDS The authors set these responses in a historical and international context before analysing recent research findings In the first three chapters issues are explored through an analysis which highlights international convergences and divergences The remaining chapters draw on the authors research to explore the internal dynamics of HIV AIDS in the workplace

Encyclopedia of Government and Politics Mary Hawkesworth, Maurice Kogan, 2013-11-07 This is a brand new edition of the critically acclaimed Encyclopedia of Government and Politics which has been fully revised and updated to provide a systematic account of politics and political studies at the beginning of the new millennium Providing a penetrating analysis of government and politics at a global regional and nation state level the Encyclopedia assesses both traditional and contemporary approaches and projects the paths of future research The articles provide a degree of critical analysis far beyond a simple descriptive outline of the subject Internationally respected contributors have been carefully selected to present contending approaches to related topics both to clarify the political implications of the various methodologies and to enrich the portrayal of political life With its expanded revised and updated coverage Encyclopedia of Government and Politics is more than ever an indispensable tool for students teachers professional analysts and policy makers

Researching Health Mike Saks, Judith Allsop, 2012-11-30 The second edition of Researching Health covers everything that a student or new researcher will need when starting to conduct their own research in a range of healthcare settings The chapters guide the reader through each specific qualitative quantitative and mixed method and show how these work in practice In the second edition the authors place particular focus on the critical appraisal of research

asking not only how different forms of research can be conducted but also how we can use the research of others effectively Two new chapters have also been included on Gender and Health Research Public Health Research A full companion website accompanies the book with a range of teaching materials for lecturers and online learning resources for students It is an ideal companion for undergraduate and postgraduate students on health programmes The book is also valuable reading for researchers academics managers and practitioners working across the healthcare field **AIDS and Contemporary History** Virginia Berridge, Philip Strong, 2002-08-22 A collection of essays on the pre history of the impact of AIDS and its subsequent history **Schools on Probation** Heinrich Mintrop, 2004 This book analyzes what happens when schools are put on probation for failing to meet their accountability improvement targets The author examines accountability design issues organizational development teacher motivation and curriculum changes in 11 schools on probation and offers empirical evidence of how effective probationary sanctions and penalties are guiding school change and what their limitations are Health Care Management and the Law Hammaker, Thomas M. Knadig, 2017-03-02 Health Care Management and the Law 2nd Edition is a comprehensive practical health law text relevant to students seeking the basic management skills required to work in health care organizations as well as students currently working in health care organizations This text is also relevant to those general health care consumers who are simply attempting to navigate the complex American health care system Every attempt is made within the text to support health law and management theory with practical applications to current issues
