The North American Model of Wildlife Conservation Shane P. Mahoney, Valerius Geist, 2019-09-10 The foremost experts on the North American Model of Wildlife Conservation come together to discuss its role in the rescue recovery and future of our wildlife resources At the end of the nineteenth century North America suffered a catastrophic loss of wildlife driven by unbridled resource extraction market hunting and unrelenting subsistence killing This crisis led powerful political forces in the United States and Canada to collaborate in the hopes of reversing the process not merely halting the extinctions but returning wildlife to abundance While there was great understanding of how to manage wildlife in Europe where wildlife management was an old mature profession Continental methods depended on social values often unacceptable to North Americans Even Canada a loyal colony of England abandoned wildlife management as practiced in the mother country and joined forces with like minded Americans to develop

a revolutionary system of wildlife conservation In time and surviving the close scrutiny and hard ongoing debate of open democratic societies this series of conservation practices became known as the North American Model of Wildlife Conservation In this book editors Shane P Mahoney and Valerius Geist both leading authorities on the North American Model bring together their expert colleagues to provide a comprehensive overview of the origins achievements and shortcomings of this highly successful conservation approach This volume reviews the emergence of conservation in late nineteenth early twentieth century North America provides detailed explorations of the Model s institutions principles laws and policies places the Model within ecological cultural and socioeconomic contexts describes the many economic social and cultural benefits of wildlife restoration and management addresses the Model s challenges and limitations while pointing to emerging opportunities for increasing inclusivity and optimizing implementation Studying the North American experience offers insight into how institutionalizing policies and laws while incentivizing citizen engagement can result in a resilient framework for conservation Written for wildlife professionals researchers and students this book explores the factors that helped fashion an enduring conservation system one that has not only rescued recovered and sustainably utilized wildlife for over a century but that has also advanced a significant economic driver and a greater scientific understanding of wildlife ecology Contributors Leonard A Brennan Rosie Cooney James L Cummins Kathryn Frens Valerius Geist James R Heffelfinger David G Hewitt Paul R Krausman Shane P Mahoney John F Organ James Peek William Porter John Sandlos James A Schaefer **The**

Alma-Bacon County Story: A Model for Rural America United States. Congress. Senate. Agriculture and Forestry Committee,1972 [An African-centered Model of Prevention for African-American Youth at High Risk](#) Lawford L. Goddard,1993 [Eight Women, Two Model Ts, and the American West](#) Joanne Wilke,2007-01-01 Tells the story of a group of farm girls who met while attending Iowa s Teacher s College and who shared a yen to see some things A blend of oral and written history adventure memoir and just plain heartfelt living this book presents a story of ordinary people doing extraordinary things *The Settlement of the American Continents* C. Michael Barton,2004-10 When many scholars are asked about early human settlement in the Americas they might point to a handful of archaeological sites as evidence Yet the process was not a simple one and today there is no consistent argument favoring a particular scenario for the peopling of the New World This book approaches the human settlement of the Americas from a biogeographical perspective in order to provide a better understanding of the mechanisms and consequences of this unique event It considers many of the questions that continue to surround the peopling of the Western Hemisphere focusing not on sites dates and artifacts but rather on theories and models that attempt to explain how the colonization occurred Unlike other studies this book draws on a wide range of disciplines archaeology human genetics and osteology linguistics ethnology and ecology to present the big picture of this migration Its wide ranging content considers who the Pleistocene settlers were and where they came from their likely routes of migration and the ecological role of these pioneers and the consequences of colonization Comprehensive in both

geographic and topical coverage the contributions include an explanation of how the first inhabitants could have spread across North America within several centuries the most comprehensive review of new mitochondrial DNA and Y chromosome data relating to the colonization and a critique of recent linguistic theories Although the authors lean toward a conservative rather than an extreme chronology this volume goes beyond the simplistic emphasis on dating that has dominated the debate so far to a concern with late Pleistocene forager adaptations and how foragers may have coped with a wide range of environmental and ecological factors It offers researchers in this exciting field the most complete summary of current knowledge and provides non specialists and general readers with new answers to the questions surrounding the origins of the first Americans

Washington the Model of Character for American Youth J. N. M'Jilton,2022-09-16 In Washington the Model of Character for American Youth J N M Jilton presents a compelling exploration of George Washington as an archetype of virtue for young Americans Through an engaging narrative interspersed with anecdotes the author employs a didactic style that eloquently illuminates Washington s moral discipline leadership qualities and unwavering commitment to patriotism M Jilton artfully situates Washington within the broader context of 19th century American values emphasizing the importance of character education during a period of nation building and societal formation This work serves not only as a biography but also as a moral compass for its readers urging them to emulate Washington s exemplary traits such as integrity resilience and humility J N M Jilton was an educator and moral philosopher whose own experiences in the rapidly evolving socio political landscape of the United States profoundly shaped his ideals about character formation His commitment to the development of youth through robust moral education is evident in his selection of Washington as a central figure in this discourse M Jilton s insights reflect a genuine belief that the principles embodied by Washington can serve as guiding tenets for future generations fostering responsible citizenship in a democratic society This book is highly recommended for educators parents and young readers who seek inspiration from historical figures The rich narrative coupled with practical lessons makes it an invaluable resource for teaching character education thus ensuring that Washington s legacy continues to influence and guide young minds as they navigate their own paths in life *Daily Life*

through American History in Primary Documents Randall M. Miller,Theodore J. Zeman,Francis J. Sicius,Jolyon P. Girard,2011-12-12 With this book students teachers and general readers get a most important look at primary documents essentially history s first draft revealing rare insights into how American life in past eras really was and also about how professional historians begin their work *Daily Life through American History in Primary Documents* presents a large sweep of American history through the voices of the American people themselves This multivolume work explores the daily lives of American people from colonial times to the present through primary documents that include diaries letters memoirs speeches sermons pamphlets and all manner of public and private writings from the people The emphasis is on the variety of people s experiences as they ordered and lived their daily lives The cast includes Americans of every class and condition men and

women parents and children free and unfree native born and immigrant Hundreds of images further illustrate American life as it developed over more than four centuries and as Americans moved across a continent Organized both chronologically and topically this collection invites many uses by students teachers librarians and anyone wanting to discover what counted in American lives at any one time and over time Its focus on primary documents encourages readers of the volume to explore specific and critical events by taking a firsthand look at the actual documents from which those events draw historical meaning The documents show Americans at work at home at play in the public square in places of worship and on the move As such they perfectly complement the acclaimed Greenwood Encyclopedia of Daily Life in America and will enrich any American history social science and sociology classroom **American Shipping** ,1923 Geography, History, and the American Political Economy John Heppen,2009-08-16 This collection takes on the call issued by reviewers of The American Way for a critical application of Carville Earle s framework to more geographical examples of political and economic shifts in America s past The essays illustrate changes in U S settlement development and political structure through the lens of the restructuring of the American economy and society over approximately fifty year cycles of crisis and recovery They demonstrate the extension of American s sphere of influence outside of the United States as a larger scalar shift and they underscore the utility of geography in answering very local questions concerning questions of poorly documented settlement histories Focusing on the geographic responses to periodic cycles of crisis and recovery and the more general underlying intertwining of geography and history Geography History and the American Political Economy is an incisive demonstration of how the constant restructuring of American politics and economy occurs within spatial and historical constructs *Scientific American* ,1895 Hearings United States. Congress Senate,1958
