This comprehensive book provides a multi dimensional analysis of Hong Kong s development and her political socio economic and cultural relations with China Jinnah Ian Bryant Wells,2006 This book analyses the development of Jinnah s relationship with India s Muslims from his entry into politics until 1934 It shows that a dominant view of Jinnah that he was an ambassador of Hindu Muslim unity in the 1920s who became a communalist in the 1940s is far from the truth The book argues that the two Jinnahs approach over simplifies the trajectory of a complex and evolving political thinker and strategist

The primary changes in Jinnah's politics were the strategies he employed to achieve his goals rather than the goals themselves. Amongst the many aspects of Jinnah's political thought and career analysed here are his elitism and distance from mass politics, his relations with Gandhi, Motilal and Jawaharlal Nehru, Willingdon, Ramsay MacDonald and Irwin, his attitude to the Rowlatt Act, the Khilafat movement and non-cooperation, and his troubled and complex relations with other nationalist Muslim leaders.

Empire Building Rosie Llewellyn-Jones, 2023-02-08 Empire Building is a new account of the East India Company's impact on India focussing on how it changed the sub-continent's built environment in the context of defence, urbanisation and infrastructural development. Rosie Llewellyn-Jones examines these initiatives through a lens of political building using Indian contractors and labourers. Railways, docks, municipal buildings, freemasons' lodges, hotels, race courses, barracks, cemeteries, statues, canals, everything the British erected made a political statement even if unconsciously, hence this book is concerned less with architectural styles more with subtle infiltration into the minds of those who saw and used these structures. It assesses in turn Indian responses to the changing landscape. Indians often reacted favourably to new manufacturing technologies from Britain like minting and gunpowder while the British learnt from and adapted local methods. From military engineers and cartography to imported raw metals and steam power, Llewellyn-Jones considers the social and environmental changes wrought by colonialism. This period was marked by a shift from formerly private Indian-controlled functions like education, entertainment, trading and healing to British public institutions like universities, theatres, chambers of commerce and hospitals. Stepping aside from ongoing colonialism debates, this is a fascinating account of India's physical transformation during the Company period.

Generalissimo Jonathan Fenby, 2003 Following his acclaimed studies of the state of modern France and how Hong Kong has changed since the 1997 handover, Jonathan Fenby now turns his attention to one of the most interesting yet under-reported figures of twentieth-century history. Chiang Kai-shek was the man who lost China to the Communists. As leader of the nationalist movement, the Kuomintang, Chiang established himself as head of the government in Nanking in 1928. Yet although he laid claim to power throughout the 1930s and was the only Chinese figure of sufficient stature to attend a conference with Churchill and Roosevelt during the Second World War, his desire for unity was always thwarted by threats on two fronts. Between them, the Japanese and the Communists succeeded in undermining Chiang's power plays, and after Hiroshima it was Mao Zedong who ended up victorious. Brilliantly re-creating pre-Communist China in all its colour, danger and complexity, Jonathan Fenby's magisterial survey of this brave but unfulfilled life is destined to become the definitive account in the English language.

Buddhism In Late Ch'ing Political Thought Sin-wai Chan, 2019-03-05 This book is a revised version of the doctoral thesis I presented to the School of Oriental and African Studies, University of London, in 1977. It is basically an attempt to study the religious, cultural and political significance of Buddhism in late Ch'ing intellectual thought through an examination of the writings of a few influential figures like Liang Ch'i-ch'ao, Kang Yu-wei, Chang Ping-lin and particularly T'an Ssu-t'ung. My findings reveal that Buddhism

came to play a part in these reformers thought as a result of several factors the rekindled interest in Buddhism brought about through the efforts of laymen such as Yang Wen hui the need to find a counter balance to Christianity the search for a new unifying ideology for China as Confucianism crumbled before the challenge from the West and the immense potentiality of Buddhism to cater for the intellectuals diverse cultural and political purposes The masterpiece of Tan Ssu tung entitled An Exposition of Benevolence Jen hsiieh is chosen here to exemplify the use of Buddhism in late Ching political thought Buddhism not only served as the all embracing school of his eclectic synthesis it also formed the foundation of the major concepts in the treatise and was closely related to his radical thinking

Some Did it for Civilisation, Some Did it for Their Country Jane E. Elliott, 2002 This book marks a total departure from previous studies of the Boxer War It evaluates the way the war was perceived and portrayed at the time by the mass media As such the book offers insights to a wider audience than that of sinologists or Chinese historians The important distinction made by the author is between image makers and eyewitnesses Whole categories of powerful image makers both Chinese and foreign never saw anything of the Boxer War but were responsible for disseminating images of that war to millions of people in China and throughout the world
