**Polluting for Pleasure** Andre Mele, 1993 In the tradition of Silent Spring and Unsafe at Any Speed comes this frightening landmark environmental study The message seemingly innocuous recreational boats particularly outboards are polluting as much as all the cars and trucks in America and the marine industry has been holding its breath hoping that nobody notices Polluting for Pleasure begins with the author accidentally discovering that pleasure boats have been spilling oil into the environment on a magnitude that is staggering In addition to being 80 times more polluting than automobile engines the more than 8 million two cycle outboard engines put more oil into American waters than 15 Exxon Valdez oil spills annually Oil like dirt collecting on the sides of a bathtub contaminates the shores and marshlands of our lakes and rivers the cradles of all marine life This important new book not only studies the problem of pollution from powerboats and the environmental effects it also offers constructive suggestions for alleviating the problem      *Auxiliary Sail Vessel Operations*

G. Andy Chase, 1997 Initially created as a course curriculum for classes in sail vessel operations at the Maine Maritime Academy this work has been developed to provide a firm foundation for men and women working toward earning U S Coast Guard licenses to operate auxiliary powered sailing yachts and vessels The book addresses seamanship aboard sailing vessels relevant hydrodynamic and aerodynamic theory basic and advanced sailing maneuvers planning and managing for crew and vessel safety meteorology for sailors heavy weather sailing emergencies at sea and vessel administration as related to Coast Guard rules and regulations Designed to accompany the sailor as a study guide and point of reference the work in both theory and practice calls attention to the myriad constant and critical elements of professional yacht and vessel management
