Modern European Educators And Their Work:

Modern European Educators and Their Work Adolphe Erich Meyer, 1934 *Modern European Educators and Their Work* Adolph E. Meyer, 1979-03-01 Modern European Educators and Their Work Adolphe Erich Meyer, 1971 *The History of American Art Education* Peter Smith, 1996-07-22 The ideas people and events that developed art education are described and analyzed so that art educators and educators in general will have a better understanding of what has happened and is happening to visual art in the schools Peter Smith raises the issue of art education's inordinate emphasis on Eurocentric art He challenges the often expressed notion that the field of education is the cause of art education's problems and proposes that confused conceptions within the art world are just as much a root of the difficulty No other book in art education history gives such close and analytical attention to the careers of women in the field The materials on Germanic cultural and historical influences are unequalled as is the scholarly treatment of Viktor Lowenfeld probably the most influential single figure in 20th century American art education **Russian and Soviet Education 1731-1989** John T. Zepper, William W. Brickman, 2014-02-04 Volume 9 in the series of Reference Books in International Education This bibliography is intended to provide a reference aid to mature Russian Soviet scholars to those beginning a life long study of this field and to students in Russian Soviet Studies and allied fields This title provides a resource to scholars students and professionals seeking to understand the role played by education in various societies or regions of the world The Politics of Progressive Education Dennis Shirley, 1992 In March 1933 Nazi storm troopers seized control of the Odenwaldschule a small German boarding school near Heidelberg Founded in 1910 by educational reformer Paul Geheeb the Odenwaldschule was a crown jewel of the progressive education movement renowned for its emancipatory pedagogical innovations and sweeping curricular reforms In the tumultuous year that followed that fateful spring Geheeb moved from an initial effort to accommodate Nazi reforms to an active opposition to the Third Reich's transformation of the school Convinced at last that humanistic education was all but impossible under the new regime he emigrated to Switzerland in March 1934 There he opened a new school the Ecole d'Humanit  which became a haven for children escaping the horrors of World War II In this intimate chronicle of the collision between a progressive educator and fascist ideology during Hitler's rise to power Dennis Shirley explores how Nazi school reforms catalyzed Geheeb's alienation from the regime and galvanized his determination to close the school and leave Germany Drawing on a wealth of unpublished documents such as Geheeb's exhaustive correspondence with government officials and transcripts of combative faculty meetings Shirley is able to reconstruct in detail the entire drama as it unfolded Others have examined the intellectual antecedents of Nazism and the regime's success at developing themes from popular culture for its political purposes Shirley goes further by analyzing the many ways in which German educators could and did respond to Nazi reforms In the process he identifies the myriad forces that led individuals to accept or resist the regime's transformation of education *The Politics of Progressive Education* offers a richly rewarding

examination of how education in general and progressive education in particular fared in the turbulent political currents of Nazi Germany It brings to light a remarkable story hitherto untold of one individual s successful attempt to uphold humanistic values in the darkest of circumstances Catalog of Copyright Entries. The present volume is the fifth in the series of yearbooks with the title Globalistics and Globalization Studies The subtitle of the present volume is Global Transformations and Global Future We become more and more accustomed to think globally and to see global processes And our future can all means be global However is this statement justified Indeed in recent years many have begun to claim that globalization has stalled that we are rather dealing with the process of anti globalization Will not we find ourselves at some point again in an edifice spanning across the globe but divided into national apartments separated by walls of high tariffs and mutual suspicion Of course some setbacks are always possible because the process of globalization cannot develop smoothly It is a process which is itself emerging from contradictions and is shaped by a new contradiction They often go much further than underlying systemic changes allow They break forward as the vanguard of a victorious army and then often meet resistance of various social and political forces and may suddenly start to roll back just at the moment when everyone expects their further offensive We believe that this is what is happening with globalization at present The yearbook will be interesting to a wide range of researchers teachers students and all those who are concerned about global issues *Social Work Education, Research and Practice* Ilango Ponnuswami,Abraham P. Challenging the 'European Area of Lifelong Learning' George K. Zarifis, Maria N. Gravani, 2013-10-29 This book critically reflects on the context in which lifelong learning policies and practices are organized in Europe with contributions of researchers and policy makers in the field Through a critical lens the book reinterprets the core content of the messages that are conveyed by the European Commission in the Memorandum for Lifelong Learning the most important policy document in the area which after a decade from its publication still remains the vehicle for all current developments in lifelong learning in Europe With references to research findings proposed actions and applications to immediate practice that have an added value for Europeans but which either do not appear to correspond directly to what is stipulated by the European Commission or are completely ignored as part of the lifelong learning process the book offers an analytic and systematic outlook of the main challenges in creating the European Area of Lifelong Learning In times as decisive as the ones we are going through today both in social and economic terms a critical perspective of the practices and policies adopted by the EU Member States is essential The book follows the same structure as the Memorandum in order to debate and critically approach in separate

sections the core issues that Europe faces today in relation to the idea of making a European area of Lifelong Learning
