**The Modern American Urban Novel** Arnold L. Goldsmith, 1991 Goldsmith challenges the view that nature is absent in the modern urban novel and interprets the phrase the interweaving of physical description and symbolism metaphor and characterization and theme and imagery that give internal form to external narrative He provides a textual analysis of seven 20th century American novels Manhattan transfer Studs Lonigan Call it sleep The Dollmaker The Assistant The Pawnbroker and Mr Sammler s planet Annotation copyrighted by Book News Inc Portland OR Faulkner and the Ecology of the South Joseph R. Urgo, Ann J. Abadie, 2009-09-18 In 1952 Faulkner noted the exceptional nature of the South when he characterized it as the only really authentic region in the United States because a deep indestructible bond still exists between man and his environment The essays collected in Faulkner and the Ecology of the South explore Faulkner s environmental imagination seeking what Ann Fisher Wirth calls the ecological counter melody of his texts Ecology was not a term in common use outside the sciences in Faulkner s time However the word environment seems to have held deep meaning for Faulkner Often he repeated his abiding interest in man in conflict with himself with his fellow man or with his time and place his environment Eco criticism has led to a renewed interest among literary scholars for what in this volume Cecelia Tichi calls humanness within congeries of habitats and environments Philip Weinstein draws on Pierre Bourdieu s notion of habitus Eric Anderson argues that Faulkner s fiction has much to do with ecology in the sense that his work often examines the ways in which human communities interact with the natural world and Francois Pitavy sees Faulkner s wilderness as unnatural in the ways it represents reflections of man s longings and frustrations Throughout these essays scholars illuminate in fresh ways the precarious ecosystem of Yoknapatawpha County **The Oxford Handbook of Nineteenth-Century American Literature** Russ Castronovo, 2014-02 The Oxford Handbook of Nineteenth Century American Literature will offer a cutting edge assessment of the period s literature offering readers practical insights and proactive strategies for exploring novels poems and other literary creations **Modern American Literature** Catherine Morley, 2012-05-11 An incisive study of modern American literature casting new light on its origins and themes Consuming Urban Culture in Contemporary Vietnam Lisa Drummond, Mandy Thomas, 2005-07-25 Vietnam is currently undergoing a metamorphosis from a relatively closed society with a centrally planned economy to a rapidly urbanising one with a global outlook These changes have been the catalyst for an exciting ferment of activity in popular culture This volume contains contributions from scholars engaged in the most up to date social research in Vietnam as well as some of Vietnam s most popular cultural producers who are forging new ways of imagining the present whilst at the same time engaging actively in reinterpreting the past The diverse ways that Vietnam is culturally and socially negotiating the future are examined as the book addresses issues of indigenisation of cultural influences ambivalence surrounding change and the consistent blurring of boundaries between informal non state cultural activities and formal institutional structures in the evolution of a civil society in Vietnam **The Palgrave Handbook of**

**Literature and the City** Jeremy Tambling, 2017-02-17 This book is about the impact of literature upon cities world wide and cities upon literature It examines why the city matters so much to contemporary critical theory and why it has inspired so many forms of writing which have attempted to deal with its challenges to think about it and to represent it Gathering together 40 contributors who look at different modes of writing and film making in throughout the world this handbook asks how the modern city has engendered so much theoretical consideration and looks at cities and their literature from China to Peru from New York to Paris from London to Kinshasa It looks at some of the ways in which modern cities whether capitals shanty towns industrial or rust belt have forced themselves on people s ways of thinking and writing *Literature and the Environment* George Hart, Scott Slovic, 2004-07-30 The phrase literature and environment only achieved popularity in recent decades yet writers dating back to the explorers of the 1500s and later such 19th century Romanticists as Thoreau have long been addressing environmental issues through literary expression This volume introduces students and educators to the field by tracing the evolution of environmental writing in the United States Chapters written by distinguished scholars offer new perspectives on important environmental issues guiding readers through 11 carefully selected literary works Each chapter provides brief biographical information on the author discussions of the work s structural thematic and stylistic components and insights into the historical context that relates the work to relevant environmental issues Each chapter concludes with information on works cited The analyzed works cover a wide spectrum of literature and span nearly 100 years Included are early writings such as Mary Austin s 1903 *The Land of Little Rain* and famous groundbreaking works such as Rachel Carson s *Silent Spring* 1962 and Gary Snyder s *Turtle Island* 1974 Also included are frequently assigned works of special interest to students such as *The Monkey Wrench Gang* 1975 *The Earthsea Trilogy* 1977 and *Ceremony* 1977 A list of selected further suggested readings completes the volume Students of literature as well as educators looking for new ways to present social issues will find many ideas and much inspiration in this volume

**Mixed Media in Contemporary American Literature** Joelle Mann, 2021-06-28 *Mixed Media in Contemporary American Literature* *Voices Gone Viral* investigates the formation and formulation of the contemporary novel through a historical analysis of voice studies and media studies After situating research through voices of nineteenth and twentieth century American literature this book examines the expressions of a multi media vocality examining the interactions among cultural polemics aesthetic forms and changing media in the twenty first century The novel studies shown here trace the ways in which the viral aesthetics of the contemporary novel move language out of context recontextualizing human testimony by galvanizing mixed media forms that shape contemporary literature in our age of networks Through readings of American authors such as Claudia Rankine David Foster Wallace Jennifer Egan Junot Diaz Michael Chabon Joseph O Neill Michael Cunningham and Colum McCann the book considers how voice acts as a site where identities combine conform and are questioned relationally By listening to and tracing the spoken and unspoken voices of the novel the author identifies a politics of listening and speaking in our mediated informational

society      **Lean Down Your Ear Upon the Earth, and Listen** Robert Taylor Ensign, 2003 Ensign traces the engagement of Wolfe's characters with the nonhuman world to roots in a romantic tradition of American literature as exemplified by Nathaniel Hawthorne **BOOK JACKET      Publishers Trade List Annual, 1992**, 1992      *Subversive Voices* Evelyn Jaffe Schreiber, 2001 In *Subversive Voices* Evelyn Jaffe Schreiber investigates the intersection of identity and culture as manifested in the novels of William Faulkner and Toni Morrison Drawing on the psychoanalytic theory of Jacques Lacan as well as on various cultural studies theories Schreiber offers provocative new insights into these two writers and what their work reveals about the possibilities of social change Schreiber considers how blacks and women through their subversive voices and articulation of difference produce change despite the psychic and cultural structures that would determine identity The author begins her examination of these marginalized voices by analyzing the patriarchal structure depicted in Faulkner's *Go Down Moses* She goes on to trace the subversive voices of women in the *Snopes* trilogy before considering the emergent voices of blacks in Faulkner's work generally as well as specifically in *Intruder in the Dust* In the second half of the book Schreiber analyzes the articulation of difference that Morrison presents through the black and female characters of *The Bluest Eye* *Song of Solomon* *Beloved* and *Paradise* In Faulkner's work Schreiber argues nostalgia provides a screen that preserves the power of patriarchal structures and serves to eroticize the other for the dominant culture by using marginalized others to fulfill the desire for an imagined wholeness Yet in spite of this screen agency or empowerment does emerge for these marginalized voices in Faulkner In Morrison's novels the absence of a nostalgic screen highlights these subversive voices the dominant culture's eroticized imagined other becomes a threatening entity and gains agency Schreiber suggests that meaningful action and change can occur through encounters with what Lacan calls the real an awareness of the nothingness at the core of identity Recognition of this nothingness allows the reality of the other to manifest itself and have agency in the social world The works of both Faulkner and Morrison reveal whether obliquely or directly how subversive voices emerge to expose this lack Such exposure then creates a form of self awareness that can lead to cultural transformation The Author Evelyn Jaffe Schreiber is an assistant professor of English at George Washington University Her articles have appeared in the *Faulkner Journal* *Style* *Mississippi Quarterly* and other publications      **Writing the City** Desmond Harding, 2004-06 This work examines and challenges the traditional transatlantic axis London Paris New York that marks the intersection between western thinking about the City and the advent of literary modernism      **City Codes** Hana Wirth-Nesher, 1996-01-26 *City Codes* is a study of the representation of the city in the modern novel that takes difference as its point of departure so that cities are read according to the cultural and social position of the urbanite These urban narratives are analysed in the context of a cultural repertoire of city codes from the architectural features of window and street to the social and historical signs of the landmark and the passer by with the emphasis on the subject's construction of his or her place as shaped by history politics nationality gender class and race The study moves from boundaries inscribed

onto the cityscape to distances experienced by the city dwellers its real and textual cities are Warsaw Jerusalem New York Chicago Paris London and Dublin The novels discussed are by Isaac Bashevis Singer Amos Oz Theodore Dreiser Ralph Ellison Henry James Henry Roth James Joyce and Virginia Woolf      **Annual Report** Wayne State University. Press,1990      **The Palgrave Encyclopedia of Urban Literary Studies** Jeremy Tambling,2022-10-29 This encyclopaedia will be an indispensable resource and recourse for all who are thinking about cities and the urban and the relation of cities to literature and to ways of writing about cities Covering a vast terrain this work will include entries on theorists individual writers individual cities countries cities in relation to the arts film and music urban space pre early and modern cities concepts and movements and definitions amongst others Written by an international team of contributors this will be the first resource of its kind to pull together such a comprehensive overview of the field      **AB Bookman's Weekly** ,1994      **Literary Criticism Register** ,1991      Publishers Trade List Annual, 1996, 1 R R Bowker Publishing,Trade List Annual 199 Publishers',1996-09      **Neither Here Nor There** Christopher Bolander,2009-10 From the beginning Montr al has played a significant role in French writing of North America While it is relatively easy to find novels to support the idea of Montr al as the center of the French Canadian universe a more interesting challenge has been to examine the ways in which writers avoid the city sometimes even effacing a character s and perhaps their own montréalité in the process In this book I examine the various roles of Montr al agent setting allegory theme character trope in a wide range of novels and short stories I reveal how Montr al s topography serves to offset the notion of a uniform citizenry while simultaneously reinforcing class differences I also reject the traditional rural urban rivalry by examining texts that draw attention to a failed romanticized view of rurality yet highlight the fact that Montr al s urban egocentrism can be considered no less an idealized view of society Perhaps the most valuable inquiry into the literature of Montr al found in the book is the subversion of the monolithic and homogeneous image of the city by detailing individual particularities which reflect the diversity of Montr al s various neighborhoods      Reader's Guide to Literature in English Mark Hawkins-Dady,2012-12-06 Reader s Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study
