Modern Dictionary Of Sociology:

A Modern Dictionary of Sociology George A. Theodorson, Achilles G. Theodorson, 1969 The entries are from the closely related fields of psychology social psychology and anthropology and statistics Economics and political science are also represented with terms that are frequently used by sociologists **A Modern Dictionary of Sociology** Achilles G.

Theodorson, 1990 A Modern Dictionary of Sociology Achilles G. Theodorson, 1979 *A Modern Dictionary Sociology* George A. Theodorson, 1834 *A Modern Dictionary of Sociology* Achilles G. Theodorson, 1969 **Max Weber, Critical Assessments 2** Peter Hamilton, 1991 *Library of the World's Best Literature, Ancient and Modern: Dictionary of authors*, 1902 **Ethnonationalism in the Contemporary World** Daniele Conversi, 2004 Essential reading for anyone interested in problems associated with ethnicity and nationalism it offers a guide to understanding the ethnonational forces that underpin much of recent terrorist activity *Library of the World's Best Literature, Ancient and Modern: Dictionary of authors* Charles Dudley Warner, Hamilton Wright Mabie, Lucia Isabella Gilbert Runkle, George Henry Warner, 1897

Thesaurus of ERIC Descriptors, 1977 Structures of Scientific Collaboration Wesley Shrum, Joel Genuth, Ivan Chompalov, 2007 How technology and bureaucracy shape collaborative scientific research projects an empirical study of multiorganizational collaboration in the physical sciences Collaboration among organizations is rapidly becoming common in scientific research as globalization and new communication technologies make it possible for researchers from different locations and institutions to work together on common projects These scientific and technological collaborations are part of a general trend toward more fluid flexible and temporary organizational arrangements but they have received very limited scholarly attention Structures of Scientific Collaboration is the first study to examine multi organizational collaboration systematically drawing on a database of 53 collaborations documented for the Center for History of Physics of the American Institute of Physics By integrating quantitative sociological analyses with detailed case histories Shrum Genuth and Chompalov pioneer a new and truly interdisciplinary method for the study of science and technology Scientists undertake multi organizational collaborations because individual institutions often lack sufficient resources including the latest technology to achieve a given research objective The authors find that collaborative research depends on both technology and bureaucracy scientists claim to abhor bureaucracy but most collaborations use it constructively to achieve their goals The book analyzes the structural elements of collaboration among them formation size and duration organization technological practices and participant experiences and the relationships among them The authors find that trust though viewed as positive is not necessarily associated with successful projects indeed the formal structures of bureaucracy reduce the need for high levels of trust and make possible the independence so valued by participating scientists **Where There Are Mountains** Donald Edward Davis, 2011-03-15 A timely study of change in a complex environment Where There Are Mountains explores the relationship between human inhabitants of the southern Appalachians and their environment

Incorporating a wide variety of disciplines in the natural and social sciences the study draws information from several viewpoints and spans more than four hundred years of geological ecological anthropological and historical development in the Appalachian region The book begins with a description of the indigenous Mississippian culture in 1500 and ends with the destructive effects of industrial logging and dam building during the first three decades of the twentieth century Donald Edward Davis discusses the degradation of the southern Appalachians on a number of levels from the general effects of settlement and industry to the extinction of the American chestnut due to blight and logging in the early 1900s This portrait of environmental destruction is echoed by the human struggle to survive in one of our nation s poorest areas The farming livestock raising dam building and pearl and logging industries that have gradually destroyed this region have also been the livelihood of the Appalachian people The author explores the sometimes conflicting needs of humans and nature in the mountains while presenting impressive and comprehensive research on the increasingly threatened environment of the southern Appalachians

Social Administration Roger A. Lohmann, Nancy Lohmann, 2002 Encompassing management approaches such as Theory Z and research of nonprofit studies this book addresses ways in which skills and activities of social administration can further social work practice in the areas of social justice confronting oppression

Shakespeare's Criminals Victoria M. Time, 1999-11-30 By exploring Shakespeare s use of law and justice themes in the context of historical and contemporary criminological thinking this book challenges criminologists to expand their spheres of inquiry to avenues that have yet to be explored or integrated into the discipline Crime writers including William Shakespeare were some of the earliest investigators of the criminal mind However since the formalization of criminology as a discipline citations from literary works have often been omitted despite their interdisciplinary nature Taking various Shakespearean plays and characters as case studies this book opens novel theoretical avenues for conceptualizing crime and justice issues What types of crimes did Shakespeare s characters commit What were the motivations put forth for these crimes What type of social control did Shakespeare advocate By utilizing a content analysis procedure the author confirms that many of the crimes that plague society today were also prevalent in Shakespeare s time She gleans twelve criminological theories as motivations for character deviance Character analysis also provides valuable insight into Shakespeare s notions of formal and informal social control

Sport and Modern Social Theorists Richard Giulianotti, 2004-08-03 *Sport and Modern Social Theorists* is an innovative and exciting new collection The chapters are written by leading social analysts of sport from across the world and examine the contributions of major social theorists towards our critical understanding of modern sport Social theorists under critical examination include Marx Weber Durkheim Adorno Gramsci Habermas Merton C Wright Mills Goffman Giddens Elias Bourdieu and Foucault This book will appeal to students and scholars of sport studies cultural studies modern social theory and to social scientists generally

The Sociological Perspective Michael Leming, Raymond De Vries, Brendan Furnish, 2009-10-10 Sociology and Christianity Attempting to bring sociology and Christianity together is like

trying to mix oil and water Christians seem to have as little regard for sociology as sociologists generally have for Christianity However in the middle of this conflict there is a group bold enough to call themselves Christian sociologists they are not willing to be stereotyped but are seriously committed to both realms This collection of essays covers topics that are typically addressed in introductory sociology courses Written from a Christian point of view these essays are also geared for a wide range of readers from undergraduates to professional sociologists who bring faith commitments to the sociological task The editors goal is to provide an understanding of societal forces that is informed by a Christian conscience Toward that end certain recurring themes are found in this book the need for informed Christian social action the conflict between the individual and the community the conflict between freedom and determinism and the significance of social sin

Clinical Behavioral Science F.S. Sierles,2012-12-06 This short text is designed to present those aspects of the behavioral sciences that are clinically relevant to physicians in all branches of medicine It should also be helpful to medical students studying for the behavioral sciences section of Part 1 of the national boards to physicians taking the behavioral sciences portion of the FLEX exam and to psychiatrists preparing for their American Board of Psychiatry certifying exam Behavior is a product of brain function and is manifested by actions in response to stimuli It is fundamental to the maintenance of health and plays a role in causing and intensifying many illnesses Abnormal behaviors can reveal to us and even allow us to localize brain dysfunction and disease And they can cause for patients their families and friends considerable suffering On an intellectual level trying to comprehend the behavior of our patients and our own behavior as well contributes to making medicine a truly intriguing profession

Religion and Modern Society Bryan S. Turner,2011-03-31 Religion is now high on the public agenda with recent events focusing the world's attention on Islam in particular This book provides a unique historical and comparative analysis of the place of religion in the emergence of modern secular society Bryan S Turner considers the problems of multicultural multi faith societies and legal pluralism in terms of citizenship and the state with special emphasis on the problems of defining religion and the sacred in the secularisation debate He explores a range of issues central to current debates the secularisation thesis itself the communications revolution the rise of youth spirituality feminism piety and religious revival Religion and Modern Society contributes to political and ethical controversies through discussions of cosmopolitanism religion and globalisation It concludes with a pessimistic analysis of the erosion of the social in modern society and the inability of new religions to provide social repair
