

Modern Hungarian Historiography, by Steven Bela Vardy. *East European Quarterly*, Boulder, Colorado, 1976. (Distributed by Columbia University Press, New York.) xii+309 pp.

It seems self-evident that a serious study of any subject requires a dependable bibliography. In the case of potentially so large a subject as Hungarian Studies the research worker, student and the intelligent reader, particularly those not reading the Hungarian language, need a handbook providing critical evaluation both of the more significant features of Hungary's past and of the more important related historical literature written in Hungarian. The publication of Professor Vardy's new volume provides such a helpful aid. Of its pages, 217 constitute the study proper, sixty-six contain notes to the twenty-one chapters, four a list of abbreviations, nine a bibliography, and eleven an appendix of "Significant Source Publication Series Since 1857" incorporating the *Monumenta Hungariae Historica*, then the groups "Major Source Publications Outside the *Monumenta*," the *Fontes Historiae Hungaricae Aevi Recentioris*, and the *Handbook of Hungarian Historical Sciences*. The final 23 pages accommodate an extensive index. The earlier periods of Hungarian historiography are dealt with here in less detail, but proto-history and oriental studies had to be omitted altogether due to publishing costs. In the contemporary historiography the author has made a great and very laudable effort to go beyond the mere reading of published material and obtain often confidential information from the actual *dramatis personae* through personal interviews in Hungary or by correspondence. Indeed Vardy, seems particularly eager to show the dramatic aspects of political-historical controversies. Through the author's sober and expert evaluation of the intellectual background, work and studies of the more prominent historians of Hungary, this volume is likely to contribute appreciably towards correcting the prevalent ignorance of the achievements of Hungarian historical scholarship.

Although the gradual emergence of scholarly history writing in Hungary through the subsequent stages of the *gesta* and chronicle era, the Humanist historiography, through the age of the earlier modern Hungarian Schools, like the *Staatenkunde*, National Liberal, Positivist, Economic History, Hungarian Civilization, Organic Sociology, National Romantic Schools, is accorded relatively comprehensive treatment, the greatest attention is paid by the author, and justifiably, to the Schools of *Geistesgeschichte* and Ethnohistory. G. Szekfű, the mentor of the former came into prominence for his stance in the "Rákóczi Controversy" in the late years of the dual monarchy of Austria-Hungary. However, it was in the interwar years that with his *The Three Generations: the History of a Declining Age* (1920) Szekfű employed a Dilthey-inspired *Geistesgeschichte* approach to historical interpretation based largely on the assumption that "human history is essentially the manifestations of the human soul" and on the denial of the existence of "objective laws which govern historical and social evolution" [62]. The most momentous achievement of this school, the multivolumed *Hungarian History* (1927-1934) written by B. Homan and G. Szekfű (the "Homan-Szekfű") constituted a synthesis according to the philosophy of the "school." Although Szekfű gave an intellectual airing to Hungarian historical tradition that seemed long overdue, and had numerous supporters, he was also widely attacked for alleged pro-Habsburgism and for neglecting to interpret the Hungarian past from the viewpoint of the Magyar people. One of the most articulate and most consistent critics of Szekfű and his "school" has been E. Mályusz; who refused to regard Szekfű's views on various controversial

Chris Davis, 2019-01-08 Amid the rising nationalism and racial politics that culminated in World War II European countries wishing to purify their nations often forced unwanted populations to migrate The targeted minorities had few options but as R Chris Davis shows they sometimes used creative tactics to fight back redefining their identities to serve their own interests Davis s highly illuminating example is the case of the little known Moldavian Csangos a Hungarian and Romanian speaking community of Roman Catholics in eastern Romania During World War II some in the Romanian government wanted to expel them The Hungarian government saw them as Hungarians and wanted to settle them on lands confiscated from other groups Resisting deportation the clergy of the Csangos enlisted Romania s leading racial anthropologist collected blood samples and rewrote a millennium of history to claim Romanian origins and national belonging thus escaping the discrimination and violence that devastated so many of Europe s Jews Roma Slavs and other minorities In telling their story Davis offers fresh insight to debates about ethnic allegiances the roles of science and religion in shaping identity and minority politics past and present **National History and New Nationalism in the Twenty-First Century** Niels F. May, Thomas Maissen, 2021-06-17 National history has once again become a battlefield In internal political conflicts which are fought on the terrain of popular culture museums schoolbooks and memorial politics it has taken on a newly important and contested role Irrespective of national specifics the narratives of new nationalism are quite similar everywhere National history is said to stretch back many centuries expressing the historical continuity of a homogeneous people and its timeless character This people struggles for independence guided by towering leaders and inspired by the sacrifice of martyrs Unlike earlier forms of nationalism the main enemies are no longer neighbouring states but international and supranational institutions To use national history as an integrative tool new nationalists claim that the media and school history curricula should not contest or question the nation and its great historical deeds as doubts threaten to weaken and dishonour the nation This book offers a broad international overview of the rhetoric contents and contexts of the rise of these renewed national historical narratives and of how professional historians have reacted to these phenomena The contributions focus on a wide range of representative nations from around all over the globe *A History of Modern Political Thought in East Central Europe* Balázs Trencsényi, Maciej Janowski, Monika Baár, Maria Falina, Michal Kopeček, 2016 The volume offers the first ever synthetic overview of the history of modern political thought in East Central Europe **The Afterlife of Austria-Hungary** Adam Kozuchowski, 2014-07-19 The assassination of Archduke Franz Ferdinand in 1914 was just one link in a chain of events leading to World War I and the downfall of the Austro Hungarian empire By 1918 after nearly four hundred years of rule the Habsburg monarchy was expunged in an instant of history Remarkably despite tales of decadence ethnic indifference and a failure to modernize the empire enjoyed a renewed popularity in interwar narratives Today it

remains a crucial point of reference for Central European identity evoking nostalgia among the nations that once dismembered it. *The Afterlife of Austria Hungary* examines histories, journalism and literature in the period between world wars to expose both the positive and the negative treatment of the Habsburg monarchy following its dissolution and the powerful influence of fiction and memory over history. Originally published in Polish, Adam Kozuchowski's study analyzes the myriad factors that contributed to this phenomenon. Chief among these were economic depression, widespread authoritarianism on the continent and the painful rise of aggressive nationalism. Many authors of these narratives were well-known intellectuals who yearned for the high culture and peaceable kingdom of their personal memory. Kozuchowski contrasts these imaginaries with the causal realities of the empire's failure. He considers the aspirations of Czechs, Poles, Romanians, Hungarians and Austrians and their quest for autonomy or domination over their neighbors, coupled with the wave of nationalism spreading across Europe. Kozuchowski then dissects the reign of the legendary Habsburg monarch Franz Joseph and the lasting perceptions that he inspired. To Kozuchowski, the interwar discourse was a reaction to the monumental change wrought by the dissolution of Austria Hungary and the fear of a history lost. Those displaced at the empire's end attempted through collective and selective memory to reconstruct the vision of a once great multinational power. It was an imaginary that would influence future histories of the empire and even became a model for the European Union.

Remembering the Jagiellonians Natalia Nowakowska, 2018-10-10. *Remembering the Jagiellonians* is the first study of international memories of the Jagiellonians, 1386-1596, one of the most powerful but lesser-known royal dynasties of Renaissance Europe. It explores how the Jagiellonian dynasty has been remembered since the early modern period and assesses its role in the development of competing modern national identities across Central, Eastern and Northern Europe. Offering a wide-ranging panoramic analysis of Jagiellonian memory over five hundred years, this book includes coverage of numerous present-day European countries ranging from Bavaria to Kiev and from Stockholm to the Adriatic. In doing so, it allows for a large multi-way comparison of how one shared phenomenon has been and still is remembered in over a dozen neighbouring countries. Specialists in the history of Europe are brought together to apply the latest questions from memory theory and to combine them with debates from social science, medieval and early modern European history to engage in an international and interdisciplinary exploration into the relationship between memory and dynasty through time. The first book to present the Jagiellonians' supranational history in English, *Remembering the Jagiellonians* opens key discussions about the regional memory of Europe and considers the ongoing role of the Jagiellonians in modern-day culture and politics. It is essential reading for students of early modern and late medieval Europe, nineteenth-century nationalism and the history of memory.
