Modern Japan A Concise Survey

Peter B. E. Hill

Modern Japan A Concise Survey:

Modern Japan Hugh Cortazzi, 1994 Modern Japan: Concise Survey Cortazzi S., **Modern Japan** Sir Hugh Cortazzi, 2016-07-27 After a brief description of Japan's geography, people and language and a summary of Japanese history and culture, the book gives an account of the Japanese constitution, the Diet and the organization of government, central and local. Separate chapters follow on law and order, foreign affairs and defence, finance, industry and commerce, agriculture and infrastructure, employment, health and welfare and finally education and culture. Seven appendices provide additional facts and figures. A full list of suggestions for further reading is included. *Modern Japan* Hugh Cortazzi, 1993 After a description of Japan's geography, people and language and a summary of Japanese history and culture, this book gives an account of the Japanese constitution, the Diet and the organization of government, central and local. Separate chapters follow on law and order and foreign affairs. *The Political Ideas of Modern Japan* Kiyoshi Karl Kawakami, 1903 **Japan 1868-1945** Takao Matsumura, John Benson, 2014-09-25 The history of Imperial Japan from the Meiji Restoration through to defeat and occupation at the end of the Second World War is central to any understanding of the way in which modern Japan has developed and will continue to develop in the future. This wide-ranging, accessible and up-to-date interpretation of Japanese history between 1868 and 1945 provides both a narrative and analysis. Describing the major changes that took place in Japanese political, economic and social life during this period, it challenges widely held views about the uniqueness of Japanese history and the homogeneity of Japanese society. **Modern Japanese Drama** Ted T. Takaya, 1979 Home to the New York Yankees, the Bronx Zoo and the Grand Concourse, the Bronx was at one time a haven for upwardly mobile second-generation immigrants eager to leave the crowded tenements of Manhattan in pursuit of the American dream. Once hailed as a wonder borough of beautiful homes, parks and universities, the Bronx became during the 1960s and 1970s a national symbol of urban deterioration. Thriving neighborhoods that had long been home to generations of families dissolved under waves of arson, crime and housing abandonment, turning blocks of apartment buildings into gutted, graffiti-covered shells and empty trash-filled lots. In this revealing history of the Bronx, Evelyn Gonzalez describes how the once infamous New York City borough underwent one of the most successful and inspiring community revivals in American history. From its earliest beginnings as a loose cluster of commuter villages to its current status as a densely populated home for New York's growing and increasingly more diverse African American and Hispanic populations, this book shows how the Bronx interacted with and was affected by the rest of New York City as it grew from a small colony on the tip of Manhattan into a sprawling metropolis. This is the story of the clattering of elevated subways and the cacophony of crowded neighborhoods, the heady optimism of industrial progress and the despair of economic recession, and the vibrancy of ethnic cultures and the resilience of local grassroots coalitions crucial to the borough's rejuvenation. In recounting the varied and extreme transformations, this remarkable community has undergone, Evelyn Gonzalez argues that it was not racial discrimination rampant crime postwar

liberalism or big government thought that was to blame for the urban crisis that assailed the Bronx during the late 1960s Rather the decline was inextricably connected to the same kinds of social initiatives economic transactions political decisions and simple human choices that had once been central to the development and vitality of the borough Although the history of the Bronx is unquestionably a success story crime poverty and substandard housing still afflict the community today Yet the process of building and rebuilding carries on and the revitalization of neighborhoods and a resurgence of economic growth continue to offer hope for the future

The Japanese War Sadao Oba,2018-12-07 Translated by Ann Kaneko How British school pupils were recruited to learn in 18 months or less what was then considered to be the most difficult language in the world in order to become translators interpreters and interrogators for the allied effort in the Pacific War a staggering 648 experts in the period 1942-47

Japanese Education Reform Christopher P. Hood,2003-09-02 The Japanese education system has attracted increasing attention over the past 20 years largely due to the belief that it has been central to Japan's economic growth Many have felt however that the system is stunted by an inability or perhaps even on an incapacity to change This study challenges these contentions It examines the reform policies implemented by Prime Minister Nakasone during the 1980s and argues that not only has the system changed considerably as a result of Nakasone's work but that it continues to do so It analyses the key areas of the education reform debate in particular internationalism government control of education increased liberalization and various social problems and considers the degree to which response to them have been successful This book will be of great interest to all those interested in the Japanese educational system

Japan and Back Hugh Cortazzi,2023-12-14 Sir Hugh Cortazzi one of Britain's most prominent post war Ambassadors to Japan who was in Tokyo to receive Margaret Thatcher on her historic handbagging visit in 1982 was never a so called traditional diplomat Having gained entry to the Foreign Service in 1949 his diplomatic life was hardly conventional it was most certainly at times controversial from London to Bonn to Washington at the time of Watergate but principally Japan where he undertook three tours of duty the last as Ambassador 1980-84 After retiring from the Diplomatic Service he became a high profile Chairman of the Japan Society in 1985 a post he held for ten years This memoir is a real tour de force providing the reader with an informed critical perspective on world affairs in general but with a particular emphasis on Japan

~~~~~

~~~~~.~~~~~. ~~~~~,1994

The Legacy of Supranationalism P. Close,2000-08-22 The doctrine of supranationalism has been most evident in Europe but has become increasingly a global tour de force Supranationalism is the ideological driving force behind the process of European integration and so the European Union the first supranational regional regime SRR But the same doctrine has bequeathed other gifts to the world and to posterity The EU is evolving as a prominent global player and as a result appears to have become an inspiration and model for the proliferation of other SRRs

and proto SRRs However as SRRs acquire greater power relative to traditional global players such as nation states a further state of development has ensued entailing the creation of supranational global regimes SGRs signalled by the progress of the United Nations and the World Trade Organisation Christianity in Modern Japan Ernest Wilson Clement,1905 *The Japanese Mafia* Peter B. E. Hill,2003-09-04 The Japanese mafia known collectively as yakuza has had a considerable influence on Japanese society over the past fifty years Based on extensive interviews with criminals police officers lawyers journalists and academics this is the first academic analysis in English of Japan s criminal syndicates Peter Hill argues that the essential characteristic of Japan s criminal syndicates is their provision of protection to consumers in Japan s under and upper worlds In this respect they are analogous to the Sicilian Mafia and the mafias of Russia Hong Kong and the United States Although the yakuza s protective mafia role has existed at least since the end of the Second World War and arguably longer their sources of income have not remained constant The yakuza have undergone considerable change in their business activities over the last half century The two key factors driving this evolution have been the changes in the legal and law enforcement environment within which these groups must operate and the economic opportunities available to them This first factor demonstrates that the complex and ambiguous relationship between the yakuza and the state has always been more than purely symbiotic With the introduction of the boryokudan yakuza countermeasures law in 1992 the relationship between the yakuza and the state has become more unambiguously antagonistic Assessing the impact of this law is however problematic the contemporaneous bursting of Japan s economic bubble at the beginning of the 1990s also profoundly and adversely influenced yakuza sources of income It is impossible to completely disentangle the effects of these two events By the end of the twentieth century the outlook for the yakuza was bleak and offered no short term prospect of amelioration More profoundly state expropriation of protection markets formerly dominated by the yakuza suggests that the longer term prospects for these groups are bleaker still no longer therefore need the yakuza be seen as an inevitable and necessary evil

Religion and Psychotherapy in Modern Japan Christopher Harding,Iwata Fumiaki,Yoshinaga Shin'ichi,2014-09-15 Since the late nineteenth century religious ideas and practices in Japan have become increasingly intertwined with those associated with mental health and healing This relationship developed against the backdrop of a far broader and deeply consequential meeting between Japan s long standing Chinese influenced intellectual and institutional forms and the politics science philosophy and religion of the post Enlightenment West In striving to craft a modern society and culture that could exist on terms with rather than be subsumed by western power and influence Japan became home to a religion psy dialogue informed by pressing political priorities and rapidly shifting cultural concerns This book provides a historically contextualized introduction to the dialogue between religion and psychotherapy in modern Japan In doing so it draws out connections between developments in medicine government policy Japanese religion and spirituality social and cultural criticism regional dynamics and gender relations The chapters all focus on the meeting and intermingling of religious with psychotherapeutic

ideas and draw on a wide range of case studies including how temple and shrine cures of early modern Japan fared in the light of German neuropsychiatry how Japanese Buddhist theories of mind body and self cultivation negotiated with the findings of western medicine how Buddhists Christians and other organizations and groups drew and redrew the lines between religious praxis and psychological healing how major European therapies such as Freud's fed into self consciously Japanese analyses of and treatments for the ills of the age and how distress suffering and individuality came to be reinterpreted across the twentieth and early twenty first centuries from the southern islands of Okinawa to the devastated northern neighbourhoods of the Tohoku region after the earthquake tsunami and nuclear disasters of March 2011 *Religion and Psychotherapy in Modern Japan* will be welcomed by students and scholars working across a broad range of subjects including Japanese culture and society religious studies psychology and psychotherapy mental health and international history

Race and Racism in Modern East Asia Rotem Kowner, Walter D'Amico, 2015-04-21 A sequel to the groundbreaking volume *Race and Racism in Modern East Asia Western and Eastern Constructions* the present volume examines in depth interactions between Western racial constructions of East Asians and local constructions of race and their outcomes in modern times Focusing on China Japan and the two Koreas it also analyzes the close ties between race racism and nationalism as well as the links race has had with gender and lineage in the region Written by some of the field's leading authorities this insightful and engaging 23 chapter volume offers a sweeping overview and analysis of racial constructions and racism in modern and contemporary East Asia that is unsurpassed in previous scholarship

Education in Japan Edward R. Beauchamp, Richard Rubinger, 2017-12-12 This book first published in 1989 includes essays on a number of the most important topics in Japanese education as well as the highly selected and annotated bibliographies It is the editors' belief that understanding educational matters requires insight into the historical context and have therefore placed contemporary Japanese educational matters in historical perspective

Routledge Library Editions: Education in Asia Various, 2021-07-14 This set of reissued books examines education in Asia from a variety of different angles From the westernisation of early twentieth century Chinese education to the impact of the Communist revolution on education and society in Korea to Asian women's experiences of education this set collects some key texts by a range of original thinkers

The Enigmatic Realm of **Modern Japan A Concise Survey**: Unleashing the Language is Inner Magic
