Nuer A Description Of The Modes Of Live:

The Nuer, a Description of the Modes of Livelihood and Political Institutions of a Nilotic People Edward Evan Evans-Pritchard, 1968 **Handbook of Ethnography** Paul Atkinson, Sara Delamont, Amanda Coffey, John Lofland, Lyn Lofland, 2007-04-25 I wish the Handbook of Ethnography had been available to me as a fledgling ethnographer I would recommend it for any graduate student who contemplates a career in the field Likewise for experienced ethnographers who would like the equivalent of a world atlas to help pinpoint their own locations in the field Journal of Contemporary Ethnography No self respecting qualitative researcher should be without Paul Atkinson s handbook on ethnography This really is encyclopaedic in concept and scope Many big names in the field have contributed so this has to be the starting point for anyone looking to understand the field in substantive topic theoretical tradition and methodology SRA News Ethnography is one of the chief research methods in sociology anthropology and other cognate disciplines in the social sciences This Handbook provides an unparalleled critical guide to its principles and practice The volume is organized into three sections The first systematically locates ethnography firmly in its relevant historical and intellectual contexts The roots of ethnography are pinpointed and the pattern of its development is demonstrated The second section examines the contribution of ethnography to major fields of substantive research The impact and strengths and weaknesses of ethnographic method are dealt with authoritatively and accessibly The third section moves on to examine key debates and issues in ethnography from the conduct of research through to contemporary arguments The result is a landmark work in the field which draws on the expertise of an internationally renowned group of interdisciplinary scholars The Handbook of Ethnography provides readers with a one stop critical guide to the past present and future of ethnography It will quickly establish itself as the ethnographer s bible **Islam & Ethnicity in Northern Kenya & Southern Ethiopia** Günther Schlee, Abdullahi A. Shongolo, 2012 A study of the longue dur e of a marginalized part of northern Kenya examining the process of territorialization and the role of Islam in politicizing ethnicity Live Stock and Dead Things Hannah Chazin, 2024-12-20 Reconceptualizes human animal relationships and their political significance in ancient and modern societies In Live Stock and Dead Things Hannah Chazin combines zooarchaeology and anthropology to challenge familiar narratives about the role of nonhuman animals in the rise of modern societies Conventional views of this process tend to see a mostly linear development from hunter gatherer societies to horticultural and pastoral ones to large scale agricultural ones and then industrial ones Along the way traditional accounts argue that owning livestock as property along with land and other valuable commodities introduced social inequality and stratification Against this Chazin raises a provocative question What if domestication wasn t the origin of instrumentalizing nonhuman animals after all Chazin argues that these conventional narratives are inherited from conjectural histories and ignore the archaeological data In her view the category of domestication flattens the more complex dimensions of humans relationship to herd animals In the book s first half Chazin

offers a new understanding of the political possibilities of pastoralism one that recognizes the powerful role herd animals have played in shaping human notions of power and authority In the second half she takes readers into her archaeological fieldwork in the South Caucasus which sheds further light on herd animals transformative effect on the economy social life and ritual Appealing to anthropologists and archaeologists alike this daring book offers a reconceptualization of human animal relationships and their political significance *Visual Methods in Social Research* Marcus Banks,David

Zeitlyn,2015-05-18 The Second Edition of this popular text confirms the book s status as an important forerunner in the field of visual methods Combining the theoretical practical and technical the authors discuss changing technologies the role of the internet and the impact of social media Presenting an interdisciplinary guide to visual methods they explore both the creation and interpretation of visual images and their use within different methodological approaches This clear articulate book is full of practical tips on publishing and presenting the results of visual research and how to use film and photographic archives

This book will be an indispensable guide for anyone using or creating visual images in their research *Modes of Thought* Wolfgang Fikentscher,2004 Explaining Social Life John Parker,Hilary Stanworth,2017-09-16 This distinctive text makes

social theory accessible to and usable by students Whereas social theory is often seen as abstract esoteric and separate from our understanding of the social world here it is shown to be a flexible and practical resource for anyone wanting to explain social phenomena This expanded and updated second edition actively encourages readers to develop and practice their own capacities for social explanation Providing readers with a powerful tool kit of five social theoretical concepts Individuals Nature Culture Action and Social Structure that are fundamental to social explanation Drawing on a historically and geographically wide range of examples of social phenomena to show how these theoretical concepts operate and why they re important Offering end of chapter questions that enable readers to put theory into practice and begin theorising for themselves Explaining Social Life is ideal for anyone interested in social theory including students of sociology anthropology and related social sciences both those engaging with social theory for the first time and more advanced students looking to

build upon their understanding The Anthropological Lens Christopher Morton,2020-02-08 Sir Edward Evan Evans Pritchard 1902 1973 is widely considered the most influential British anthropologist of the twentieth century known to generations of students for his seminal works on South Sudanese ethnography Witchcraft Oracles and Magic Among the Azande OUP 1937 and The Nuer OUP 1940 In these works now classics in the anthropological literature Evans Pritchard broke new ground on questions of rationality social accountability kinship social and political organization and religion as well as influentially moving the discipline in Britain away from the natural sciences and towards history Yet despite much discussion about his theoretical contributions to anthropology no study has yet explored his fieldwork in detail in order to get a better understanding of its historical contexts local circumstances or the social encounters out of which it emerged This book then is just such an exploration of Evans Pritchard the fieldworker through the lens of his fieldwork photography

Through an engagement with his photographic archive and by thinking with it alongside his written ethnographies and other unpublished evidence the book offers a new insight into the way in which Evans Pritchard's theoretical contributions to the discipline were shaped by his fieldwork and the numerous local people in Africa with whom he collaborated. By writing history through field photographs we move back towards the fieldwork experiences exploring the vivid traces lived realities and local presences at the heart of the social encounter that formed the basis of Evans Pritchard's anthropology. **The Leiden Tradition in Structural Anthropology** Ridder, Karremans, 2023-07-31 The Publishers' Trade List Annual, 1965
