Pain and Retribution David Wilson,2014-03-15 Today the Tower of London is a tourist site home only to the crown jewels but not long ago the imposing structure held traitors political prisoners and more often on their way to the chopping block Even outside of this famous building prisons have changed radically since the Norman Conquest in 1066 In the first book on the history of prisons in Britain former prison governor and professor of criminology David Wilson offers unrivaled insight into the penal system in England Scotland and Wales charting the rise and fall of forms of punishments that take place behind their walls Pain and Retribution explores prisons as an institution and examines how they are designed organized and managed Wilson reveals that prisons have to satisfy the demands of three interested parties the public from politicians and media commentators to everyday citizens the prison staff and the prisoners themselves He shows how prevailing concerns and issues of the times allow one faction or another to have more power at varying points in history and he considers how prisons are unable to satisfy all three at the same time leading to the system being seen as a failure despite rising numbers of prisoners and growing funds invested in keeping them incarcerated With intriguing comparisons between the prisons of New York City and Britain and searching questions about the purposes of the current penal system Pain and Retribution provides unparalleled access to prison landings staffs and the people behind the locked doors *Under His Helmet* Melanie

Bosworth,2023-10-10 Creation conjures emotion and thereby shapes how we think and act People fear snakes and enclosed spaces and delight in well watered landscapes Language about nature evokes these emotional meanings and their

consequences We may construe nature as a mother to enhance love of creation and motivate care for our common home Mother nature becomes a caregiving source of life rather than an inert resource Alternatively we may focus on the dangers or uselessness of a swamp so that we may drain it and plant crops Creation and the ways we speak about it reflect and shape emotion and influence behavior Every reference to the natural world in biblical literature involves some emotional resonance Any animal might have intruded into the paradise of Eden but the biblical narrative gives this role to a snake The serpent elicits ominous foreboding because snakes evoke fear and fascination Isaiah amplifies the joy of Israel's restoration by depicting deserts transforming into fertile fields and creation itself rejoicing Biblical authors draw on human emotional responsiveness to creation to express and elicit emotions David A Bosworth analyzes how biblical texts use creation to conjure emotion He draws on the science of emotion including research on human emotional responsiveness to nature Ancient texts correlate with contemporary research on how human environments shape emotion and behavior The chapters unfold how specific emotions emerge from biblical references to aspects of creation
