Changing Toronto Julie-Anne Boudreau, Roger Keil, Douglas Young, 2009-01-01 With an eye for global forces this panoramic account revolves around a focus on social spatial and environmental justice in the city offering a lively riposte to both dull

academicism and theatrical boosterism Kanishka Goonewardena University of Toronto

Urban Foreign Policy and Domestic Dilemmas Nico van der Heiden, 2024-10-31 City regions have gained economic and political power in the process

of globalisation Many of them use this power to develop their own international activities This book investigates why city regions go global and the consequences of their newly gained self confidence on the international scale The book analyses Swiss and EU city regions international activities with seven in depth case studies The book shows that the local economic setting and the political response in developing international activities are closely linked Not only has urban politics changed due to its international dimension but also the interplay between the core city the agglomeration communities the regional the national and EU levels Understanding the role of the EU in city regions international activities is crucial for comprehending recent trends in urban governance

The State of the World's Cities 2004/2005, 2004 As towns and cities expand at unprecedented rates sustainable urban development is one of the most pressing challenges facing the international community in the 21st century This publication examines the realities faced by urban populations around the world focusing on the impact of globalisation and the way cities are governed and planned on the make up and density of their population and on their cultures and economies Issues considered include the impact of globalisation on urban culture urban renewal and cultural strategies the concept of metropolitanization socio economic and cultural impacts of international migration urban poverty and homelessness social inequality and exclusion urban governance safety and crime trends contemporary planning strategies and the role of civil society progress towards attainment of the Millennium Development Goals targets for sanitation and housing The report highlights the need for a new culture of planning to establish multicultural and inclusive cities involving civil society as well as public authorities

International Handbook of Urban Policy: Contentious global issues H. S. Geyer, 2007-01-01 This first Handbook in a series of three original reference works looks at globally contentious urban policy issues from a wide variety of different angles and perspectives Matters related to urban densification population mobility urban inequality and sustainability are analysed in a manner that will not only interest the advanced student but also the novice Urban policy covers a vast field This first volume combines chapters covering three broad themes policy issues pertaining to the spatial aspects of the city social and mobility issues and issues of urban governance The spotlight initially falls on urban structure urban densification the disappearing urban rural divide the urban economic landscape and the transformation of socialist economies The Handbook then goes on to focus on migration social mobility crime terrorism and social inequality Finally urban sustainability and urban governance come under the spotlight Integration of the planning process flexibilities in infrastructure and areas of neglect in environmental management feature strongly in this section of the Handbook Books of this nature are often slanted in one particular direction however this Handbook's approach is different Not only has the editor avoided shying away from politically sensitive issues but contributions have also been included that reflect distinct differences of opinion on politically sensitive issues hence the volume's subtitle of contentious global issues As a Handbook the chapters have been written not only for the advanced student and academics but also with undergraduate students in mind The Handbook will appeal to scholars and researchers of geography and urban and

development planning demography and social science and environmental scientists for the focus on urban sustainability issues *Environment and Urbanization* International Institute for Environment & Development,2002 **Cities, State and Globalisation** Tassilo Herrschel,2014-01-03 This book investigates the ways in which city regions view themselves as single entities how they are governed what is meant by governance why the question of city regional governance matters and the extent to which the balance between internal and external factors is important for finding governance solutions Examples from North America and Europe are compared and contrasted to gain a better understanding of what matters on the ground to people and policy makers when seeking answers to the challenges of a globalised rapidly changing world In order to analyse the conditions involved in making local decisions the author looks at the impact of established policy making practices socio economic patterns among the population existing views of the local and the regional and their respective roles among the electorate and policy makers and the scope for building city regional governance under given statutory and fiscal provisions The complex interaction of these factors is shown to produce place specific forms and modi operandi for governing city regions as local regional constructs This book will be of interest to urban and regional policy makers and scholars working in the fields of economic geography and political geography *Insurgencies: Essays in Planning Theory* John Friedmann,2011-01-10 This collection of Friedmann s most important and influential essays tells a coherent and compelling story about how the evolution of thinking about planning over several decades has helped to shape its practice An ideal text for the study of planning theory and history each of the chapters is introduced by a brief essay to establish its context and importance and is followed by a series of study questions to help focus classroom discussions as well as suggested readings *Environment and Planning* ,2008 Publishes interdisciplinary research on issues of Government and Policy with an international perspective Committed to a broad range of policy questions not just those related to government and public policy Topics covered include nonstate agents private public collaboration and NGOs nongovernmental organisations All areas of economic social and environmental institutions and policy are included Disciplines from which papers are derived include political science planning geography economics law sociology and public administration

Cities in Transition Nirmala Rao,2008-01-07 This is an up to date and topical treatment of how six major cities in Europe North America and Asia are coping with the new demands on urban government Population expansion the migration of new peoples and disparities between cities and suburbs are longstanding features of the urban crisis Today city governments also face demands for popular participation and better public services while they struggle to position themselves in the new world economy While each of the cities is located in its unique historical setting the emphasis of the book is upon the common dilemmas raised by major planning problems and the search for more suitable approaches to governance and citizen involvement A principal theme is the re engineering of institutional structures designed to foster local responsiveness and popular participation The discussion is set in the context of the globalizing forces that have impacted to

different degrees at different times upon London Tokyo Toronto Berlin Hyderabad and Atlanta Cities in Transition is a major and original addition to the comparative literature on urban governance Current Issues in Globalization Robert E. Westerfield,J. Abbink,2004 People around the globe are more connected to each other than ever before Information and money flow more quickly than ever Goods and services produced in one part of the world are increasingly available to the rest of the world International travel is more frequent International communication is commonplace This phenomenon has been titled globalisation The Era of Globalisation is fast becoming the preferred term for describing the current times Just as the Depression the Cold War Era the Space Age and the Roaring 20 s are used to describe particular periods of history globalisation describes the political economic and cultural atmosphere of today While some people think of globalisation as primarily a synonym for global business it is much more than that not exist also allow social activists labour organisers journalists academics and many others to work on a global stage This book brings together a wide range of expertise addressing these issues from the perspective of authors from around the world Contents Preface From Westernisation to the Whirl of Globality Conceptualising Globalisation and its Effects on Local Societies Globalisation and Competitiveness A Comparative Analysis of Selected Developing Countries vs Industrial Countries Globalisation Marginalisation and Growth in Emerging Market Economies Globalisation of Real Estate Markets and Urban Development in Central Europe The Challenges of Globalisation The Role of the World Bank The Meaning and Limitation of Public Life under Global Capitalism Violence and State Re Formation in the African Context Global and Local Aspects of Crisis and Change State Ideology Global Economy and Coping Strategies Index **Theories of Urban Politics** Jonathan S Davies,David L Imbroscio,2008-11-18 Anybody who thinks the study of urban politics is stagnating needs to pick up a copy of Theories of Urban Politics Insightful analysis of scholarship on traditional topics is supplemented by chapters on nontraditional topics including the new institutionalism network governance and urban leadership If you want to keep up with cutting edge debates in urban studies the Davies and Imbroscio volume is essential Todd Swanstrom Saint Louis University Connects the best traditions of urban political theory with important new contributions on emerging themes This completely revised second edition is an invaluable book for new students and established scholars It is accessible theoretically rich and maps out an exciting and challenging research agenda It will spend more time open and on the desk than closed and on the bookshelf Professor Chris Skelcher University of Birmingham Many colleagues have told us that our edition of Theories of Urban Politics provided great insights and grounding to students and seasoned researchers alike We are delighted that so able a successor has emerged Those that study urban politics need to be challenged and inspired by theory and this book delivers a powerful update for urban scholars David Judge Gerry Stoker and Harold Wolman Editors of the First Edition This long awaited sequel to the pioneering First Edition updates debates and developments through an excellent collection of entirely new essays contributed by some of the leading academics in the field A special feature of the volume is that it links concerns in urban politics in North America and

Europe An excellent read Professor David Wilson De Montfort University Expanding and updating the successful first edition Theories of Urban Politics Second Edition provides a comprehensive introduction to and evaluation of the theoretical approaches to urban governance Restructured into four new parts Power Governance Citizens and Challenges the second edition reflects developments in the field over the last decade with newly commissioned chapters updating and adding to the theoretical material included in the first edition With contributions from many of the key figures in urban theory today this text will be required reading on all urban politics urban planning and public administration courses

Regional Integration and Governance Reshuffling in the Making of China's City-Regions Xianchun Zhang, 2023-08-07 This book for the first time thoroughly investigates the extent of economic and institutional integrations and the underlying governance reshuffling process of China's city regionalism By using the Shenzhen Dongguan Huizhou sub region SDH in southern China as an empirical case this book provides convincing evidence that China's city regionalism is essentially a state orchestrated and institution based process Perspectives from market industry infrastructure and multi level governance MLG have been provided to systematically examine China's city regionalism This book has essentially made a definitive contribution to China's regional governance Methodologically it shows how China's city regionalism can be examined through a problem solving and case by case paradigm through building a bridge between an empirical slogan and an inclusive theoretical term for institutional integration and through MLG and its integrative approaches in China Exhilarating findings are presented using extensive tables graphs and maps along with the integration of quantitative and qualitative methods Undergraduates graduates and researchers who are interested in China's city regionalism and regional governance would be the readership of the book and officers from different levels of government as well as policymakers will find the book inspiring

Urban Livelihoods Carole Rakodi, Tony Lloyd-Jones, 2014-10-14 One of the most promising approaches to poverty reduction in developing countries is to encourage sustainable livelihoods for the poor This takes account of their opportunities and assets and the sources of their vulnerability Based on recent and extensive research this volume thoroughly assesses the value of the livelihoods approach to urban poverty The book reviews the situation and strategies of the urban poor and identifies the policies and practical programmes that work best Lasting improvements depend not just on economic development but on political commitment and structures that are responsive to the claims and needs of different groups of poor people

Transforming Urban Economies Andrea Colantonio, Richard Burdett, Philipp Rode, 2013-08-15 Cities house the majority of the world's population and are the dynamic centres of 21st century life at the heart of economic social and environmental change They are still beset by difficult problems but often demonstrate resilience in the face of regional and national economic decline Faced by the combined threats of globalisation and world recession cities and their metropolitan regions have had to fight hard to maintain their global competitiveness and protect the quality of life of urban residents Transforming Urban Economies Policy Lessons from European and Asian Cities the first in an ongoing series of research volumes by LSE

Cities provides insights in how cities can respond positively to these challenges The fine grained and authoritative analysis of how Barcelona Turin Munich and Seoul have been transformed in the last 20 years examines comparative patterns of decline adaptation and recovery of cities that have successfully managed to transform their economies in the face of economic hardship This in depth and practical analysis is aimed at urban leaders designers planners policymakers and scholars who want to understand the dynamics of economic resilience while cities are still suffering from the aftershocks of the 2008 recession The book highlights the importance of aligned and multi level governance the need for strategic public investments and the role of the private sector universities and foundations in leading and guiding complex processes of urban recovery in an increasingly uncertain age

Australia's Competitiveness Michael J. Enright, Richard Petty, 2016-03-15 In this in depth overview of Australia s economy Michael Enright and Richard Petty leading scholars on international competition look at the data behind the news reports to offer a complete view of Australia s stable and wealthy economy The book compares Australia with other similarly sized OECD economies as well as other Asia Pacific economies and looks at fifteen international sources of data on competitiveness It features a large scale survey on Australian companies and offers deep insight on the country s future in terms of economics and economic policy Revealing an honest assessment of Australia s true position in the world the book looks at how Australian businesses see themselves and offers policy positions for government and firms to make the most of Australia s unique global economic position Backed by CPA Australia one of the world s largest accounting bodies Written by two global authorities on economic competitiveness Captures the thinking of more than 6 000 business leaders both within and outside of Australia Explains how Australia has weathered the global recession and looks at Australia s relationship with China For business leaders and policy makers in need of an in depth look at the current and future state of Australia s economy this book offers valuable and comprehensive information
