The Sociologically Examined Life Michael Schwalbe, 2018 While the usual introductory sociology text emphasizes defining key concepts in the field the rigidity of this structure creates a need for a text that teaches real world application of these concepts The Sociologically Examined Life Pieces of the Conversation prides itself on being an anti text a tool that demonstrates how to recognize and utilize sociological thinking in the real world The conversational writing encourages discussion and debate over ideas that are provocative and personal and pushes students to think critically about what makes them feel the way they do The Sociologically Examined Life draws from examples that are culturally relevant to today's students and encourages students to apply sociological thinking to their everyday lives and to reflect on their own roles as active players in the social world *Handbook of Social Justice in Loss and Grief* Darcy L. Harris, Tashel C. Bordere, 2016-02-05 The Handbook of Social Justice in Loss and Grief is a scholarly work of social criticism richly grounded in personal experience evocative case studies and current multicultural and sociocultural theories and research It is also consistently practical and reflective challenging readers to think through responses to ethically complex scenarios in which

social justice is undermined by radically uneven opportunity structures hierarchies of voice and privilege personal and professional power and unconscious assumptions at the very junctures when people are most vulnerable at points of serious illness confrontation with end of life decision making and in the throes of grief and bereavement Harris and Bordere give the reader an active and engaged take on the field enticing readers to interrogate their own assumptions and practices while increasing chapter after chapter their cultural literacy regarding important groups and contexts The Handbook of Social Justice in Loss and Grief deeply and uniquely addresses a hot topic in the helping professions and social sciences and does so with uncommon readability

Decolonizing “Multicultural” Counseling through Social Justice Rachael D. Goodman, Paul C. Gorski, 2014-11-03 Multicultural counseling and psychology evolved as a response to the Eurocentrism prevalent in the Western healing professions and has been used to challenge the Eurocentric patriarchal and heteronormative constructs commonly embedded in counseling and psychology Ironically some of the practices and paradigms commonly associated with multiculturalism reinforce the very hegemonic practices and paradigms that multicultural counseling and psychology approaches were created to correct In Decolonizing Multicultural Counseling through Social Justice counseling and psychology scholars and practitioners examine this paradox through a social justice lens by questioning and challenging the infrastructure of dominance in society as well as by challenging ourselves as practitioners scholars and activists to rethink our commitments The authors analyze the ways well meaning clinicians might marginalize clients and contribute to structural inequities despite multicultural or cross cultural training and offer new frameworks and skills to replace the essentializing and stereotyping practices that are widespread in the field By addressing the power imbalances embedded in key areas of multicultural theory and practice

contributors present innovative methods for revising research paradigms professional education and hands on practice to reflect a commitment to equity and social justice Together the chapters in this book model transformative practice in the clinic the schools the community and the discipline Among the topics covered Rethinking racial identity development models Queering multicultural competence in counseling Developing a liberatory approach to trauma counseling Decolonizing psychological practice in the context of poverty Utilizing indigenous paradigms in counseling research Addressing racism through intersectionality A mind opening text for multicultural counseling and psychology courses as well as other foundational courses in counseling and psychology education Decolonizing Multicultural Counseling through Social Justice challenges us to let go of simplistic approaches however well intended and to embrace a more transformative approach to counseling and psychology practice and scholarship

Thompson, 2017-09-11 The GCC is a major player in the post 2011 reordering of the Middle East Despite the rise in prominence of individual Gulf states especially Kuwait Qatar Saudi Arabia and the United Arab Emirates and the growth of the GCC as a collective entity surprisingly little attention has been paid to the actual mechanics of policy making in the region This book analyses the vital role that institutions are coming to play in shaping policy in the Gulf Arab states The research coincides with two key developments that have given institutions new importance in the policy process the emergence of a new generation of leaders in the Gulf and the era of low oil prices Both developments along with dramatic demographic change have compelled state and citizens to re evaluate the nature of the social contract that binds them together Contributors assess the changing relationship between state and citizen and evaluate the role that formal and informal institutions play in mediating such change and informing policy The book shows how academic social and economic institutions are responding to the increasingly complex process of decision making where citizens demand better services and further empowerment and states are obliged to seek wider counsel although wanting to retain ultimate authority With contributions from both academics and practitioners this book will be highly relevant for researchers and policymakers alike
