circumstances of those living in the Republics enabled such thinkers as Dante and Petrarch to create art that corresponded with that newfound sense of individuality The third section discusses one of the key elements of Renaissance culture the revival of interest in the cultural products of the ancient world especially Greece and Rome Part four focuses on the prominence of discovery in Renaissance culture for which Burckhardt looks to the colonial expedition of Columbus the growth of the natural sciences and the achievements of such poets and writers as Dante Petrarch and Boccaccio in discovering new ways to describe humanity and the human spirit In the fifth section the importance of societal customs and festivals is discussed and in the sixth and final part Burckhardt observes the profound shifts undergone by religion and morality in Italy at the time The Civilization of the Renaissance in Italy is a thorough dynamic work of art history that not only changed the study of history at universities around the world but elevated the status of art in understanding the process of cultural change With a beautifully designed cover and professionally typeset manuscript this edition of Jacob Burckhardt's The Civilization of the Renaissance in Italy is a classic of European art history reimagined for modern readers *The constitutional compromise of the eighteenth century.
