Rezeption Im Zeitalter Der Konfrontation:

German Scholars in Exile Axel Fair-Schulz, Mario Kessler, 2011-05-26 German Scholars in Exile deals with intellectuals who fled Nazi Germany and found refuge in either the United States or in American Services in Great Britain and post WWII Germany. The volume focuses on scholars who were outside the commonly known Max Horkheimer Hannah Arendt circles who are less well known but not less important. Their experiences ranged from an outstanding career at an Ivy League university to a return to the German Democratic Republic and a position as an economic advisor to East Berlin's party leadership. None had actual political power but many asserted some degree of influence. Their intellectual legacies can still be seen in today's political culture.

Opponents of the Annales School Joseph Tandler, 2013-03-08 Based on analysis of archival and published sources *Opponents of the Annales School* examines for the first time those who have dared to criticise and ignore one of the most successful currents of thought in modern historiography. It offers an original contribution to the understanding of an unavoidable chapter in modern intellectual history.

German Refugee Historians and Friedrich Meinecke Gerhard A. Ritter, 2010-05-10 The book deals with the relationship between Friedrich Meinecke who is often considered to be the leading German historian of the first half of the twentieth century and several of his students who after the Nazi seizure of power were forced to emigrate because of their Jewish descent or their political views. The letters published here to Meinecke from Hans Rothfels, Dietrich Gerhard Hajo Holborn, Felix Gilbert, Hans Rosenberg and others show these scholars' deep respect for their old teacher but also their growing distance from his historical interests and methods. In a period of struggle between democracy and Nazi dictatorship the letters address the problems of emigration and remigration, German Jewish and German American identity and historiography in both Germany and the United States.

A Global History of Modern Historiography Georg G. Iggers, Q. Edward Wang, Supriya Mukherjee, 2013-09-13 So far histories of historiography have concentrated almost exclusively on the West. This is the first book to offer a history of modern historiography from a global perspective. Tracing the transformation of historical writings over the past two and half centuries, the book portrays the transformation of historical writings under the effect of professionalization which served as a model not only for Western but also for much of non-Western historical studies. At the same time it critically examines the reactions in post-modern and post-colonial thought to established conceptions of scientific historiography. A main theme of the book is how historians in the non-Western world not only adopted or adapted Western ideas but also explored different approaches rooted in their own cultures.

Storia della storiografia, 2007 *A Global History of Modern Historiography* Georg Iggers, Q. Edward Wang, Supriya Mukherjee, 2016-09-01 The first book on historiography to adopt a global and comparative perspective on the topic, *A Global History of Modern Historiography* looks not just at developments in the West but also at the other great historiographical traditions in Asia, the Middle East and elsewhere around the world over the course of the past two and a half centuries. This second edition contains fully updated sections on Latin American and African

historiography discussion of the development of global history environmental history and feminist and gender history in recent years and new coverage of Russian historical practices Beginning in the mid eighteenth century the authors analyse historical currents in a changing political social and cultural context examining both the adaptation and modification of the Western influence on historiography and how societies outside Europe and America found their own ways in the face of modernization and globalization Supported by online resources including a selection of excerpts from key historiographical texts this book offers an up to date account of the status of historical writing in the global era and is essential reading for all students of modern historiography History of Universities Mordechai Feingold, 2004-04-08 Volume XIX 1 of History of Universities contains the customary mix of learned articles book reviews conference reports and bibliographical information which makes this publication such an indispensable tool for the historian of higher education Its contributions range widely geographically chronologically and in subject matter The volume is as always a lively combination of original research and invaluable reference material Die junge Rechtsgeschichte Johannes Liebrecht, 2018-09-25 English summary Between the world wars German scholars committed themselves to a search for new methods of engaging with legal history In addition to this an obvious generational change almost a rupture took place among German legal historians Johannes Liebrecht depicts the characteristics of young legal history and its entanglement with the crisis of historicism between the 1880s and 1930s German description In der Epoche zwischen etwa 1880 und 1930 durchliefen die Humanwissenschaften international einen tiefgreifenden Wandel und Umorientierungsprozess Auch die Rechtshistoriographie war während der Zwischenkriegszeit von einer engagierten Suche nach methodischen Neuanfängen gezeichnet Mit dem Zusammenbruch der Monarchie sah sich insbesondere die sogenannte Germanistik nach 1918 abrupt der Krise des Historismus ausgesetzt begleitet wurde dies von einem augenfälligen Generationenwandel unter den Gelehrten Johannes Liebrecht identifiziert die unterschiedlichen Impulse und hauptsächlichen Erneuerungsdiskurse dieser Jahre und versucht die Rechtsgeschichtswissenschaft in ihrem Prozess der Modernisierung abzubilden **Freedom, Imprisonment, and Slavery in the Pre-Modern World** Albrecht Classen, 2021-04-19 Contrary to common assumptions medieval and early modern writers and poets often addressed the high value of freedom whether we think of such fable authors as Marie de France or Ulrich Bonerius Similarly medieval history knows of numerous struggles by various peoples to maintain their own freedom or political independence Nevertheless as this study illustrates throughout the pre modern period the loss of freedom could happen quite easily affecting high and low including kings and princes and there are many literary texts and historical documents that address the problems of imprisonment and even enslavement Georgius of Hungary Johann Schiltberger Hans Ulrich Krafft etc Simultaneously philosophers and theologians discussed intensively the fundamental question regarding free will e g Augustine and political freedom e g John of Salisbury Moreover quite a large number of major pre modern poets spent a long time in prison where they composed some of their major works Boethius Marco Polo Charles d Orlans Thomas Malory etc This book brings to light

a vast range of relevant sources that confirm the existence of this fundamental and impactful discourse on freedom imprisonment and enslavement Prof Albrecht Classen is the joint winner of The Literary Encyclopedia book prize for 2023 Literatures written in languages other than English for this book https://www.litencyc.com/book/prizes/book_prizes_2023.php
