## **Rhythms Of Academic Life Vol 4 Personal Accounts Of Careers In Academia:**

**Rhythms of Academic Life** Peter J. Frost, M. Susan Taylor, 1996-07-16 Reading this book is like enjoying an exotic buffet. It is exotic to hear unfamiliar teaching voices from familiar researchers. The variety of voices is both quantitatively and qualitatively satisfying to hungry researchers who plan to start their teaching careers soon. Dora Lau, Doctoral Student, Faculty of Commerce and Business Administration, University of British Columbia. A must read for anyone embarking upon a career in academia. *Researchers Hooked on Teaching* provides valuable insights into the trials and tribulations of teaching at the college level. Jennifer Cliff, Doctoral Student, University of British Columbia. Offering support, guidance, and advice for those contemplating or already involved in academic careers, *Rhythms of Academic Life* is a comprehensive manual that surveys important topics relevant to the world of academia, such as publishing, research, teaching, pedagogy, teamwork, sabbaticals, and tenure. Written by an incomparable, diverse group of scholars, this collection provides rich, personal, sometimes poignant, and often humorous accounts of both the common and the unique journeys taken throughout an academic lifetime. The contributors describe the experiences of scholars in different roles and transition points and supply a set of guidelines that will help others make informed choices. This one-of-a-kind volume makes it possible to enter into an academic career well prepared and familiarizes the reader with the academic work climate. Students and professionals in organization studies, management, and across a variety of disciplines will find that this volume greatly enhances their understanding of scholarly life. The illustrious cast of contributors provide a wealth of down-to-earth, reliable advice, proving once and for all that those who can teach. *How to Do Relevant Research* Mirvis, Philip H., Albers, Mohrman, Susan, Worley, Christopher G., 2021-10-22 Amidst rapid and fundamental shifts in the economic, geo-political, technological, and societal landscape, this cutting-edge book makes the timeless case that research can be informed by problems in the real world and make important contributions to theory and practice. *Inquiring into Academic Timescapes* Filip Vostal, 2021-02-01 There is a pervasive sense of incessant acceleration in the academic world. This book puts the temporal ordering of academic life under the microscope and showcases the means of yielding a better understanding of how time and temporality act both as instruments of power and vulnerability within the academic space. **Management Laureates** Arthur G. Bedeian, 2018-04-17 First published in 1998, this volume compiles the autobiographies of the management discipline's most distinguished laureates. Prior to this publication, the available management literature provided little insight into the personal and intellectual lives, the frustrations, as well as the triumphs of the individuals in the management discipline. Although such understanding could be conveyed in many forms, perhaps the most intimate and fascinating of these for gaining behind-the-scenes insights is the autobiography. Thus, the autobiographies in this volume, as in the five companion volumes, offer the reader not only a glimpse of the subjective determinants and personal experiences of the management discipline's most distinguished laureates but also a deeper understanding of what management is and what it is becoming. The various accounts reflect a diversity of approaches.
