Shearer West

Sculpture Since 1945:

Sculpture Since 1945 Andrew Causey, 1998 This fresh account of post war sculpture examines innovative and avant garde works **SCULPTURE SINCE ~1945œ (NINETEEN HUNDRED AND FORTY-FIVE).** Edward Lucie-Smith, 1987

Sculpture Since 1945 Edward Lucie-Smith, 1987 In *Sculpture since 1945* Edward Lucie Smith classifies the full range of movements and provides an explanation of their development and how they are related to one another He begins by reflecting on the work of the early modernists Auguste Rodin Pablo Picasso Marcel Duchamp and Jacob Epstein and proceeds to look at the succeeding influences and revolutions in sculpture from the Constructivist and neo classical works of the immediate post war years to the Minimalism Pop Conceptual and Land Art of the sixties and seventies and the return to figurative imagery of the 1980 s Many of the new sculptors Henry Moore Alberto Giacometti Marino Marini David Smith are dealt with at length and altogether some 200 artists are discussed **BOOK JACKET** *Portraiture* Shearer West, 2004-04-08

This fascinating new book explores the world of portraiture from a number of vantage points and asks key questions about its nature How has portraiture changed over the centuries How have portraits represented their subjects and how have they been interpreted Issues of identity modernity and gender are considered within a cultural and historical context Shearer West uncovers much intriguing detail about a genre that has often been seen as purely representational featuring examples from African tribes to Renaissance princes and from stars such as David and Victoria Beckham to ordinary people In the process she shows us how to communicate with the past in an exciting new way *British Sculpture Since 1945* Dennis Farr, 1967

Fashion Christopher Breward, 2003-04-24 This lively survey of 150 years of fashion covers everything from Haute Couture to the High Street From Coco Chanel to Alexander McQueen Breward explores fashion as a cultural phenomenon Topics include fashion in film the world of Vogue and advertising and the use of fashion to create identity from the Flapper to the New Look and Dandy to Punk *Joe Fafard* Terrence Heath, National Gallery of Canada, 2007 Few contemporary artists have worked in the sheer variety of styles that Joe Fafard has perfected and won such acclaim for their efforts Born in 1942 in a remote farming hamlet in Saskatchewan the idiosyncratic artist early on chose a radically different direction from the prevailing modernistic aesthetic of the early 1960s boldly exploring new media and new imagery Gaining fame initially as a ceramic sculptor of oversize animals and people in the early 1980s he turned to laser steel and bronze work along the way adding painting to his repertoire This dual biography and critical study features a wealth of illustrations from Fafard s long career generously sampling both the monumental sculptures done as public and private commissions and the more intimate studies of people and prairie that reside in museums worldwide and in the private collections of Oprah Winfrey Bill Cosby and others **Medieval Architecture** Nicola Coldstream, 2002 Medieval architecture comprises much more than the traditional image of Gothic cathedrals and the castles of chivalry A great variety of buildings synagogues halls and barns testify to the diverse communities and interests in western Europe in the centuries between 1150 and 1550 This

book looks at their architecture from an entirely fresh perspective shifting the emphasis away from such areas as France towards the creativity of other regions including central Europe and Spain Treating the subject thematically Coldstream seeks out what all buildings both religious and secular have in common and how they reflect the material and spiritual concerns of the people who built and used them Furthermore the author considers how and why after four centuries of shaping the landscapes and urban patterns of Europe medieval styles were superseded by classicism

Byzantine Art Robin Cormack, 2018-02-27 The opulence of Byzantine art with its extravagant use of gold and silver is well known Highly skilled artists created powerful representations reflecting and promoting this society and its values in icons illuminated manuscripts and mosaics and wallpaintings placed in domed churches and public buildings This complete introduction to the whole period and range of Byzantine art combines immense breadth with interesting historical detail Robin Cormack overturns the myth that Byzantine art remained constant from the inauguration of Constantinople its artistic centre in the year 330 until the fall of the city to the Ottomans in 1453 He shows how the many political and religious upheavals of this period produced a wide range of styles and developments in art This updated colour edition includes new discoveries a revised bibliography and in a new epilogue a rethinking of Byzantine Art for the present day

Renaissance Architecture Christy Anderson, 2013-02-28 The Renaissance was a diverse phenomenon marked by innovation and economic expansion the rise of powerful rulers religious reforms and social change Encompassing the entire continent Renaissance Architecture examines the rich variety of buildings that emerged during these seminal centuries of European history Although marked by the rise of powerful individuals both patrons and architects the Renaissance was equally a time of growing group identities and communities and architecture provided the public face to these new identities Religious reforms in northern Europe spurred on by Martin Luther rejected traditional church function and decoration and proposed new models Political ambitions required new buildings to satisfy court rituals Territory nature and art intersected to shape new landscapes and building types Classicism came to be the international language of an educated architect and an ambitious patron drawing on the legacy of ancient Rome Yet the richness of the medieval tradition continued to be used throughout Europe often alongside classical buildings Examining each of these areas by turn this book offers a broad cultural history of the period as well as a completely new approach to the history of Renaissance architecture The work of well known architects such as Michelangelo and Andrea Palladio is examined alongside lesser known though no less innovative designers such as Juan Guas in Portugal and Benedikt Ried in Prague and Eastern Europe Drawing on the latest research it also covers more recent areas of interest such as the story of women as patrons and the emotional effect of Renaissance buildings as well as the impact of architectural publications and travel on the emerging new architectural culture across Europe As such it provides a compelling introduction to the subject for all those interested in the history of architecture society and culture in the Renaissance and European culture in general
