Sea Dogs Clowns Gypsies:

Sea Dogs, Clowns, and Gypsies Fatty Goodlander,1991-09-01 The Sailing Mind Roberto Casati,2022-06-01 This book scrutinizes the practice of sailing and its relation to philosophy of mind Sailing brings about a peculiar human artifact interaction which can lead to unexplored research paths The idea behind this collection is that this interaction is better scrutinized by sailor scientists philosophers to open up new possible pathways in research Fascinating theoretical breakthroughs have been provided by observing sailing practices with the most well known being Hutchins introduction in cognitive science of the concept of distributed cognition However in times past sailing has both fueled philosophical metaphors from Theseus ship to Plato s image of the intellect as the boatperson of the soul and inspired philosophers views as happened to Herder during a stormy sea trip The ecology of sailing is highly constrained sailboats move at the surface between a compressible fluid and an incompressible fluid Wind originates in certain specific circumstances Only certain sequences of actions are possible to take advantage of this ecology The ontology of sailing is both of the boat and of the ocean wind system It highlights the fact that sailboats have been for centuries arguably the most complex technological artifacts in each culture that developed them precisely because the environment they are engaging is so peculiar and demanding almost the precise dual of Sapiens adaptive environment This volume will appeal to philosophers of mind cognitive psychologists and marine professionals Merchant Vessels of the United States United States.
