Wheeler,2019-08-21 HandiLand looks at young adult novels fantasy series graphic memoirs and picture books of the last 25 years in which characters with disabilities take center stage for the first time These books take what others regard as weaknesses for instance Harry Potter s headaches or Hazel Lancaster s oxygen tank and redefine them as part of the hero s journey HandiLand places this movement from sidekick to hero in the political contexts of disability rights movements in the United States the United Kingdom and Ghana Elizabeth A Wheeler invokes the fantasy of HandiLand an ideal society ready for young people with disabilities before they get there as a yardstick to measure how far we ve come and how far we still need to go toward the goal of total inclusion The book moves through the public spaces young people with disabilities have entered including schools nature and online communities As a disabled person and parent of children with disabilities Wheeler offers an inside look into families who collude with their kids in shaping a better world Moving funny and beautifully written HandiLand The Crippiest Place on Earth is the definitive study of disability in contemporary literature for young readers **Surfer the Seal** Jane Burton,1989 Depicts a seal in its early life as it grows plays and learns to feed itself

Disability Studies and the Environmental Humanities Sarah Jaquette Ray,Jay Sibara,2017-06 Although scholars in the environmental humanities have been exploring the dichotomy between wild and built environments for several years few have focused on the field of disability studies a discipline that enlists the contingency between environments and bodies as a foundation of its scholarship On the other hand scholars in disability studies have demonstrated the ways in which the built environment privileges some bodies and minds over others yet they have rarely examined the ways in which toxic environments engender chronic illness and disability or how environmental illnesses disrupt dominant paradigms for scrutinizing disability Designed as a reader for undergraduate and graduate courses Disability Studies and the Environmental Humanities employs interdisciplinary perspectives to examine such issues as slow violence imperialism race toxicity eco sickness the body in environmental justice ableism and other topics With a historical scope spanning the seventeenth century to the present this collection not only presents the foundational documents informing this intersection of fields but also showcases the most current work making it an indispensable reference *The Pinnipeds* Marianne Riedman,2023-12-22 *Rats* Paul Zindel,2012-10-06 Sarah and her brother have grown up next to the world s largest garbage dump on Staten Island in New York City Little do they know thousands of rodents at the dump have mutated into gruesome killer rats and one of the workers there has just been badly mauled Without mercy the rats wreak havoc and devastation upon the once peaceful neighborhood entering homes through kitchen sinks and toilets Now the entire city stands on the brink of total infestation Can the kids save millions of innocent people from the approaching and unrelenting rat horde
