How to Do Science with Models Axel Gelfert, 2015-12-21 Taking scientific practice as its starting point this book charts the complex territory of models used in science It examines what scientific models are and what their function is Reliance on models is pervasive in science and scientists often need to construct models in order to explain or predict anything of interest at all The diversity of kinds of models one finds in science ranging from toy models and scale models to theoretical and mathematical models has attracted attention not only from scientists but also from philosophers sociologists and historians of science This has given rise to a wide variety of case studies that look at the different uses to which models have been put in specific scientific contexts By exploring current debates on the use and building of models via cutting edge examples drawn from physics and biology the book provides broad insight into the methodology of modelling in the natural sciences It pairs specific arguments with introductory material relating to the ontology and the function of models and provides some historical context to the debates as well as a sketch of general positions in the philosophy of scientific models in the process

The Eternal Food R. S. Khare, 1992-08-25 The interdisciplinary approaches presented here investigate food in India and Sri Lanka for its wide ranging cultural meaning and uses The authors examine food in religious and literary contexts where saints ritualists poets and the divine often provide grounds for a practically inexhaustible hermeneutics The Eternal Food focuses on reflexive cultural expressions and personal experiences that food elicits in the region Concerned with food as an essence and as an essential experience the authors give special attention to Hindu saints for whom food firmly grounded in moral ideals and practice represents a cosmic divine principle at one level and a most immediate and intimate material reality at another In the cultural diversity of India the authors work with several conceptual models and meanings of food They demonstrate how it reflects common social understandings about social caste the cure and prevention of ailments its ability to alter moods and motivations or affect innate personal dispositions personal spiritual pursuits and attainments In its sweep and depth food presents a powerful cultural lens for seeing how practical ritual and spiritual spheres of life conjoin

Syncretism in Religion Anita Maria Leopold, Jeppe Sinding Jensen, 2016-04-01 Syncretism the fusion of different beliefs into one religious system has long been controversial in scholarship It is widely held that religion culture and ethnicity are pure entities that may become mixed in encounter and lead to impure hybrid forms Syncretism in Religion presents a selection of essays committed to solving the problems of syncretism The essays reflect the full breadth of religious traditions that could be called syncretistic An overview of the historical background of syncretism is given alongside classical readings from the history of religion definitions of syncretism in relation to theories of power and an assessment of the future of the subject This volume brings together the work of authors who have made significant contributions in the field some appearing for the first time in English It will be of interest to any student or scholar of religion philosophy or anthropology concerned with the dynamics of cultural contact and change

The Modal Future Fabrizio Cariani, 2021-07-01 It is commonly

assumed that we conceive of the past and the future as symmetrical In this book Fabrizio Cariani develops a new theory of future directed discourse and thought that shows that our linguistic and philosophical conceptions of the past and future are in fact fundamentally different Future thought and talk Cariani suggests are best understood in terms of a systematic analogy with counterfactual thought and talk and are not just mirror images of the past Cariani makes this case by developing detailed formal semantic theories as well as by advancing less technical views about the nature of future directed judgment and prediction His book addresses in a thought provoking way several important debates in contemporary philosophy and his synthesis of parallel threads of research will benefit scholars in the philosophy of language metaphysics epistemology linguistics and cognitive science **Bowker's Complete Video Directory** ,2000 **Index to Theses with Abstracts Accepted for Higher Degrees by the Universities of Great Britain and Ireland and the Council for National Academic Awards** ,2006 All Music Guide Vladimir Bogdanov,Chris Woodstra,Stephen Thomas Erlewine,2001-11 Arranged in sixteen musical categories provides entries for twenty thousand releases from four thousand artists and includes a history of each musical genre Comprehensive Dissertation Index ,1984 Vols for 1973 include the following subject areas Biological sciences Agriculture Chemistry Environmental sciences Health sciences Engineering Mathematics and statistics Earth sciences Physics Education Psychology Sociology Anthropology History Law political science Business economics Geography regional planning Language literature Fine arts Library information science Mass communications Music Philosophy and Religion **Small Press Record of Books in Print** ,1986 **CD Review Digest** ,1990
