Searching For The Morning Star:

Search for the Red Dragon James A. Owen, 2010-04-29 John Jack and Charles who met nine years ago when they became Caretakers of the Imaginarium Geographica an atlas of all the lands we think of as imaginary have come together again Someone is kidnapping the children of the Archipelago of Dreams and the legendary Dragonships which can cross between the two worlds have disappeared Their search takes them from Sir James Barrie and Peter Pan to Jason and the Argonauts Medea the Pied Piper of Hamelin and much more An inventive magical adventure that will keep readers riveted

In Search of the Swan Maiden Barbara Fass Leavy, 1995-07-01 In her compendious study of the folktale of the runaway wife Leavy argues that the contradictory claims of nature and culture are embodied in the legendary figure of the swan maiden a woman torn between the human and bestial worlds The New York Times Book Review This is a study of the meaning of gender as framed by the swan maiden tale a story found in the folklore of virtually every culture The swan maiden is a supernatural woman forced to marry keep house and bear children for a mortal man who holds the key to her imprisonment When she manages to regain this key she escapes to the otherworld never to return These tales have most often been interpreted as depicting exogamous marriages describing the girl from another tribe trapped in a world where she will always be the outsider Barbara Fass Leavy believes that in the societies in which the tale and its variants endured woman was the other the outsider trapped in a society that could never be her own Leavy shows how the tale though rarely explicitly recognized is frequently replayed in modern literature Beautifully written this book reveals the myriad ways in which the folktales of a society reflect its cultural values and particularly how folktales are allegories of gender relations It will interest anyone involved in literary gender and cultural studies

Morning Star

Rises: Doorway Series Merrilyn Grove, 2007-02-24 Soft cover Morning Star Rises finds Mockingbird and Morning Star in the city of Ilhuactl The Doorway Between Heaven and Earth an abandoned city in the jungles of Central America where they and their followers have created a new society based on the tenets of love and peace as taught by the prophet Quetzalcoatl During the Oneness Celebration forces are at work to destroy the leaders and to take the new city as their own How will they protect themselves while following the Law of One **Critical Neurophilosophy & Indigenous Wisdom** Four

Arrows, Gerg Cajete, Jongmin Lee, 2010-01-01 This book begins a long overdue dialogue between Western neuropsychology and Indigenous wisdom The latter holds that technology including that which supports the neurosciences is an important aspect of humanity but that without a deeper understanding of the sacred natural world its consequences will continue to disrupt the balance of life on Earth This book argues that without incorporating Indigenous wisdom into theories relating to brain research and scientific assumptions about human nature humanity may never learn how to avoid this problem After summarizing current studies about such important topics as generosity truthfulness courage humour art spirituality and lateralization two indigenous scholars and a South Korean neuroscientist discuss the research conclusions In most cases the ancient knowledge of Indigenous Peoples reveals significantly contrasting perspectives By offering students of neuropsychology and the various schools of neurophilosophy radically different views than those seen through the lens of Western science this book will help assure that understandings about the human brain may lead to a more healthy balance in human affairs Questions at the end of each chapter give opportunities for the reader to continue the dialogue and find further studies to support or refute the Indigenous assertions **Gods or Civilizations from the Stars** Antonio

Alves, 2025-04-24 Since their creation our planet and other celestial bodies in our solar system have received visitors from various parts of the universe These visits have sparked the emergence of religions legends myths and even civilizations that identify themselves as not native to Earth Along with them they brought genuine technological knowledge that has driven the evolution of Earth's inhabitants In Gods or Civilizations from the Stars author Antonio Alves seeks to share legends myths and sacred texts from around the world that describe these star beings as missionaries of humanity's evolution providing examples of civilizations that chose to colonize or temporarily reside on Earth Alves also writes about his own experiences In late 1979 while planning an evening meeting with a friend he encountered a bright white light that had a profound impact on his life This event led him once skeptical of historical teachings from school to reexamine the origins of humanity and religions and to begin his own research on the UFO phenomenon This study explores paranormal experiences and the idea that religion and ufology are two ways of interpreting visits from extraterrestrial beings throughout human history
